MR. BENNETT URGES HELP FOR FRUIT GROWERS

PROTECTION FOR GROWERS SAYS LEADER

Calls for Order-in-Council to Stop Dumping of United States Products Into Canada

IS FIRST SPEECH OF TOUR IN B.C.

Maintains Canadian People Should Have Same Right of Self-Expression as Other Peoples

SPILLMACHENE, B.C., July 26.—Launching his Summer speaking tour in British Columbia, Mr. R. B. Bennett here late today, called upon the Government to protect Canadian fruit and vegetable growers against the dumping of foreign products into this country. The Conservative leader urged action also for the protection of Canadian industry and workmen.

Why does not the Government take steps against the dumping of fruit and vegetables into this country from the United States, Mr. Bennett asked. If the Government is sincere it will pass an order-in-council to protect the fruit growers of the Okanagan Valley, of the Niagara Peninsula, the vegetable growers of British Columbia, Ontario, Quebec and every part of Canada against the dumping of American products into this country.

TARIFF LOWERED

Again he questioned why Canada was the only country in the world which had lowered its tariff since the Great War. "I would not be here," the Opposition chieftain declared, "if I did not have a profound conviction that this country cannot continue to remain an economically dependent country and remain the Dominion of Canada.

"How can we remain a free country if we are a dependent people? How can we remain a free country if we are to become economic slaves? Economic dependency means political destruction, economic dependence means your entire life is gone and your political integrity is destroyed.

He went on "I do not lend myself to any attack against our neighbors to the south of us. My attack is against a government that will let people take the markets from Canadians."

It was the first public speech of the Conservative leader on an itinerary which will carry him through every constituency in the Pacific Coast province during the next month.

From within a radius of seventy-five miles citizens in this sparsely settled district gathered to hear him in the beautiful Columbia Valley with the Selkirk and Rocky Mountains on either side.

EQUAL OPPORTUNITY

Should not Canadians have an equal opportunity for self-expression as the people of other countries of the world, Mr. Bennett questioned? Was it right that the people

HT. HON. A. HENDERSON

Where Arthur Henderson, leader of the British House of Commons, was center of one of the electrical scenes of recent years.

NEW AMBASSADOR

WASHINGTON, July 25.—Senator Edge of New Jersey, has definitely been selected as ambassador to France, and will take up his duties at Paris after the extra session of Congress.

TWO WEEKS IN AIR BUT GOING YET

Flyers Have Already Beaten Record by 54 Hours—No Indication of Making Landing Is Apparent

ROUGH WEATHER IS EXPERIENCED

ST. LOUIS, July 25.—Approaching the end of their second week of suspended flight, Dale "Ike" Jackson and Forrest O'Brine were tonight looking toward a new goal of 500 hours in the air-record-breaking performance in the monoplane St. Louis Robin.

At 8.17 p.m. (C.S.T.) they had been up 301 hours and had beaten the endurance record of the Anzani Robin, St. Louis, had this afternoon, but they soared tonight after taking on a new supply of fuel. A downpour in another section of the city missed them. It was the first inclement weather the flyers had experienced since they took off July 13.

O'Brine and Jackson were watching closely the progress of their rival endurance plane The Billion-Dollar City at Houston, Texas, and expressed determination to outlast the Texas flyers. The Houston plane, however, was more than 100 hours behind them.

Notes dropped by the St. Louis flyers indicated they were in good spirits, and Jackson, who carefully inspected the motor today, said it was functioning perfectly.

With the announcement of additional daily rewards, the flyers are now being compensated at the rate of $2,872 for each twenty-four hours they go in excess of the old record.

MAKES OFFER TO HELP STOP RUM-RUNNING

Mr. Euler Says if U.S. Will Check Its Own Boats, Canada Will Consider Measures to Assist

CLEARANCES ARE CHIEF TROUBLE

Washington Wants Dominion to Amend Her Laws Which Affect Sailings of Liquor Vessels

OTTAWA, July 25.—If the United States is prepared to check upon its own boats, Canada will consider any further representations to halt the liquor traffic across the border. This offer was made today by Hon. W. D. Euler, Minister of National Revenue, in a statement replying to numerous petitions asking the Government to refuse clearances to liquor-laden craft. Canada is willing to keep Canadians out of the liquor export business, he said. At present the United States has no regulation requiring its vessels to obtain clearances. Accordingly the authorities there have no means of checking up on the activities of their own people, the statement points out. If the Canadian practice were carried out they would have a means of control which would provide in a large measure the remedy for the conditions of which they complain.

WASHINGTON'S VIEW

WASHINGTON, July 25.—While a statement by W. D. Euler, Canadian Minister of Customs, offering to further assist the United States in prevention of liquor smuggling, was received here after the Treasury Department was closed, the attitude of prohibition enforcement officials is well known. They would like Canada to deny clearances to liquor-laden craft.

Vigorous attacks have been made in Congress on officials who ask that Canada amend her laws of clearances. Notable was one by Representative Laguardia, New York, two months ago. Laguardia announced the proposal as "unusual and cheeky," and declared the attitude of the Canadian Government was generous.

Urge Prayers Be Made for Drought End

LONDON, July 25.—Drought conditions throughout England today attracted a state in each parish of the country where ecclesiastical authorities were urging that special prayers be said for rain.

The Bishop of Bradford, Ripon and Wakefield suggested to the Clergy that the dioceses, all of which are in Yorkshire, one of the worst hit counties, should be offered in their churches "until such time as the present drought is definitely broken."

B.C. to Supply All Men Needed During Harvest

VANCOUVER, July 25.—J. H. McVety, superintendent of employment, announces that British Columbia will supply all the outside harvesters needed in the West. A special rate of $10 will be in effect from August 10 to September 10 from Vancouver to Edmonton," or Calgary, with a rate of half a cent a mile to points beyond. The rate from Victoria is $1 extra. Harvesters will be given a special rate from New Westminster, Kamloops, Vernon, Penticton, Prince George and Prince Rupert.

Wheat Prices Increased by Intense Heat

WINNIPEG, July 25.—Conditions in the Canadian spring wheat belt in Western Canada, with reports of prematurely ripening wheat with yields considerably decreased, caused wheat prices to mount to new high levels today. Increases in value ranged from 1 to 4 7-8 cents. Export demand did not broaden to any extent and sales from abroad indicated that only a small amount of U.S. wheat, from Gulf ports was purchased.

Closing wheat prices today were: July, 1.76⅞, October, 1.47⅞ to 1.47¾, December, 1.48⅞ to 1.48¼.

MILLIONS TO BE INVESTED IN PROVINCE

Mr. R. W. Bruhn, President of Council, Reviews Great Developments Now Under Way Within B.C.

WHOLE SITUATION GREATLY CHANGED

WINDERMERE, July 25.—In welcoming Mr. R. B. Bennett to British Columbia today, Premier Mr. R. W. Bruhn, president of the council in the Provincial Government, presented a glowing survey of the outlook for development, on a wide scale, in this province in the immediate future. Mr. Bruhn said in part:

"British Columbia as a province decided just about a year ago to give the Conservative plan a trial. Naturally, when a business management changes, a little time must be spent in new adjustments. But we have been doing more than this, and I think the record is

Continued on Page 3, Column 5

Motorists Urged To Exercise Care On Island Roads

TOURISTS and residents of the province will confer a favor by exercising caution while motoring over the Malahat; also when passing Cameron Lake and over the Albert Mountain.

The notices posted by the Department of Public Works are deemed necessary to guard life and property. Co-operation in observing this request will be appreciated by all who use the Island Highway, and especially by the Department of Public Works, and the superintendent of provincial police.

Ask Mr. Ladner To Conference On Rates Case

VERNON, B.C., July 25.—An invitation is being sent Mr. Leon Ladner, K.C., who has charge of the British Columbia Government's freight rates case, to come to the Okanagan Valley and to confer with the executive committee of the organization which has been formed for the carrying on of the effort for revision of the freight rates.

LOOKING FOR PEACE MOVE IN TWO DAYS

Believe That Developments Are Close That Will Rob Russian-Chinese Crisis of Danger

SITUATION IS WELL WATCHED

WASHINGTON, July 25.—The Russian situation was being watched closely in official circles today, with indications coming from some quarters that developments were expected within the next forty-eight hours.

Just what might be expected was not disclosed, but was say concerned forthcoming after calls at the State Department by the British, Japanese, French and Italian ambassadors and the German charge d'affaires. Secretary Stimson was reported to have handed them identical communications on the situation but this lacked official confirmation. It is known, however, that Secretary Stimson is making an active effort to continue the peace move he initiated last week.

The question of the return to the status prevailing before the Russian seizure of control from officials on the Chinese Eastern Railway is one, officials say, which holding attention of the interested powers and some of this a belief was expressed that the reported communications handed to the diplomats might have been on this subject.

DRIVE FOR PEACE

MOSCOW, July 25.—Disturbing reports of atrocities by Chinese military and White Russian bands along the Chinese Eastern Railway

Continued on Page 5, Column 6

MT. KILAUEA ONCE AGAIN IN ERUPTION

Fountains of Fire Shot Out From Vast Crater and Clouds of Smoke Overhang Mountain

RESIDENTS FLOCK TO WITNESS SCENE

HILO, Hawaii, July 25.—The volcano Kilauea began eruption today at 9.35 a.m., and became increasingly active as the day advanced. The demonstration started with a fountain of fire from one crater, shooting flames about 300 feet into the air. The phenomenon within the giant bowl of the Halemaumau crater.

Smoke, pouring from the crater 5,000 feet above the sea, overhung the peak of Mauna Loa, nearly 9,000 feet higher on the volcanic mountain.

Hundreds of the residents of Hilo drove automobiles the thirty-five miles close to Kilauea to observe its fifth eruption since May, 1924, when the volcano came to life after more than a century of inactivity.

Chinese Troops on Way

SINCE the breaking of diplomatic relations between Soviet Russia and the Chinese Nationalist Government many thousands of Chinese troops, like these above, have been ordered to the Manchurian districts on the Amur River.

Forestry Department Has Nursery Established to Supply Needs of Province

An interesting little plantation on Shelbourne Street attracts the attention of passers-by. The uninformed person will naturally wonder what it is, and what is being attempted in a horticultural line thereby.

The rather symmetrical beds of little plants are destined, it is hoped, in the course of a hundred years or more from now to constitute part of the timber resources of the province of that day, from which will be drawn the cut of lumber to serve the needs of the people who are requiring a supply in those days.

PLANTINGS NEXT YEAR

It is from this plantation of something like 400,000 young trees that the first planting will be done in the early spring of 1930, to supplement the natural growth which is now going on over a large part of the cut-over areas of the province. There will be some 300,000 of these little plants, the promise of sturdy Douglas fir in the future, taken from the beds on Shelbourne Street and placed in parts of the cut-over areas of the province where the natural growth has not been satisfactory. This will be the first real attempt at reforestation by the planting instituted to be done in British Columbia.

The date for setting out in the Spring varies very much with the season, and with the location. On Vancouver Island it is possible that a start may be made about February.

The lot where the plantation is located is one that belongs to the Municipality of Saanich, and which reverted to the corporation. It has been temporarily placed at the disposal of the forestry branch of the Department of Lands for the purpose of allowing the carrying out of these experiments in a location where it is possible for the officials of the forestry service, especially the research section, to keep a frequent oversight of the progress made.

While Douglas fir forms the greater part of the nursery there

Continued on Page 8, Column 3

Suggests One Universal Call For Fire Alarms

In wiring his regrets to the convention of Fire Chiefs being held at Vancouver, as his inability to attend the banquet of the association last night, Hon. W. C. Shelly, Minister of Finance, made a suggestion to the convention for consideration.

He advocated that the association consider the advisability of seeking a universal fire alarm telephone number for the continent in this manner. He pointed out, a stranger in any city, who might observe a fire would know the proper number to use, in calling the fire department.

Retirement of Quebec Judge Raises Gossip

OTTAWA, July 25.—Retirement of Mr. Justice Mignault, nearing seventy-five years of age, has aroused speculation as to his successor. Probably the vacancy will be filled from Quebec, and the names of Mr. Justice Rinfret, of the Superior Court; Mr. Justice Cannon, of Quebec, and Colonel Thomas Vien, of the Railway Board, have been put forward as some quarters.

Dominion Is Not Prepared To Make Move

OTTAWA, July 25.—The United States is not inclined to join with Canada in deepening the St. Lawrence River through the Thousand Islands Channel, unless it has the assurance that Canada will eventually go ahead with the deep waterways project to the sea. A report to this effect is circulating in Ottawa. The Dominion Government is not ready to give such assurances.

CANADA'S TRADE GIVES BRITISH OPPORTUNITY

Manufacturers Looking for Opportunity Given Free Analysis of Progress by Commissioner

RAPID INCREASE IN MANUFACTURE

LONDON, July 25.—Exhaustive in the final degree is the analysis of the financial and industrial conditions in Canada which comprises the annual report of P. W. Field, British senior trade commissioner at Montreal, made public here today.

Mr. Fields' extensive knowledge of conditions will render his report helpful to Britishers looking for opportunities to extend their sphere of activities. In no previous period has there been such rapid increase in manufacturing, says the report, referring to the fiscal year ending March 31 last. Iron and steel products substantially increased, and the total output has surpassed all previous records. Almost all indexes of Canadian production have shown correspondingly great increases during the period.

Mr. Field notes that the Dominion ranks fifth among nations of the world in total trade, second in exports and total trade per capita; third in favorable balance of trade and first in favorable trade balance per capita. The increase of $276,000,000 in the last five years trade was greater than total trade thirty years ago.

GETS HIS TRANSFER

TORONTO, July 25.—A transfer in his case, an English soldier has taken to riding up and down Yonge Street here on street cars. Unaccompanied, he boards the car, renders his ticket, receives a transfer and rides until his street is called. His owner is unknown.

Dominions Giving Consideration to Anti-War Project

Question of Signing Optional Clause to Prevent International Disputes Being Discussed Through Empire—Australia Is Only One Yet to Oppose General Agreement Looked For

Would Make League of Nations Sole Arbitrator

LONDON, July 25.—The Governments of the Dominions are being consulted about the question of signing the optional clause of the World Court Statutes with a view to taking action at the forthcoming meeting of the Assembly of the League of Nations, the House of Commons was informed today.

UNANIMOUS APPROVAL

Some time ago the Government communicated with the Dominions on the matter, and today R. Bullock, Conservative, Lancaster, asked whether the desirability of taking definite action at the coming meeting had been impressed on them and whether it was intended to secure unanimous approval of the Dominions before committing Great Britain to the provisions of the optional clause.

Hon. Hugh Dalton, Under Secretary for Foreign Affairs, replied that the Governments of the Dominions were being consulted by cable and therefore might be prepared to be aware His Majesty's Government in the United Kingdom regarded the question as urgent. The optional clause pledges signatories to it to submit to the permanent court of international justice all disputes involving international law.

PREMIER'S VIEWS

Premier Ramsay MacDonald is known to be in favor of signing the optional clause, and as far as Canada is concerned Premier King some time ago announced the Canadian Government was ready to sign. The only Dominion to voice opposition to the move was Australia.

GREAT MERGER OF ELEVATORS ANNOUNCED

Four Companies Amalgamate With a Capital of $7,000,000—Have Large Storage Capacities

WILL OPERATE IN THREE PROVINCES

WINNIPEG, July 25.—The Searle Grain Co. Ltd. has been incorporated under Dominion charter to take over the business and property of four elevator companies. The total capital and surplus of the new company will be $7,000,000.

The following companies are to be taken over: Home Grain Co. Ltd., Saskatchewan Elevator Co. Ltd., Searle Grain Co. Ltd., and Liberty Grain Co. Ltd. having a total of 315 country elevators and storage capacity of 13,000,000 bushels in Alberta, Saskatchewan and Manitoba; 130 elevatorsheds and twenty-five flour sheds.

COAST ASPECTS

The new company will also control the Searle Terminal Co., Ltd., at Port William, with 7,500,000 bushels storage capacity. Terminal facilities at the Pacific Coast are provided for by affiliation with the operation of the Vancouver and Pacific Terminal Elevator Company, at Vancouver, these adding to the combined storage capacities of 3,300,000 bushels.

The consolidation will be effective August 1 with an authorized preferred stock of 80,000 shares, valued at $100 each, and 40,000 shares of common stock at no par value. The stock of the new company is owned by former stockholders of the merged companies, and no stock will be offered to the public.

Officers of the new company are: A. L. Searle president; H. L. Leach, vice-president; J.-M. Gibbriat, vice-president; B. A. Searle vice-president and treasurer; D. N. Potter, secretary. Offices will be maintained at Winnipeg, Calgary and Minneapolis.

War Comrades Wish Bromley All Success

"BEST of wishes and best of luck from your old comrades of the 48th Battalion."

This was the message contained in a telegram sent to Lieutenant Harold Bromley, former Victorian, who is expected to hop off today in Tacoma on his attempted nonstop plane flight to Tokio, Japan. The wire was dispatched yesterday by Brig.-Gen. Mr. Thomas Cradzen, on behalf of comrades who served with Bromley in the 48th Battalion during the war. Mr. Bromley, who was born in Victoria twenty-nine years ago, left here for overseas on June 28, 1915, as a private in the 48th Battalion, in command of Col. W. H. Holmes. He was transferred to the Third Infantry Battalion, and saw heavy action in the Somme, at Vimy Ridge and at Ypres. He later transferred to the Royal Air Corps.

His former soldier comrades are watching with unusual interest the gallant aerial feat he is now striving to achieve.

PLAN TO RAISE LAGOON LEVEL AT MILL POND

Great Central Sawmills Wishes Water Rights on Neighboring Lake to Safeguard Water Level

APPLICATION ONLY FOR PLANT USES

The Great Central Sawmills, which in the carrying out of the company's plans for extensive additional storage and facilities for the handling of the logs used in the mill, is seeking to store water up to 30,000 acre feet in the lagoon at Great Central Lake. The damming of the water is required by the company only for the adding to the facilities for the handling of the logs. It will not be used for the purposes of generating power.

The dam, it is therefore antici-pated, will be a temporary one only, to be utilized as long as the milling operations are in progress. At the present time part of the lake is already practically dry, which makes it awkward in the handling of the logs.

If the request to dam the waters at the outlet of the lake is allowed, this situation will be overcome. Application has been made to the Comptroller of Water Rights for the province to allow of this dam being constructed, to facilitate the operations of the mill, which is located on the lagoon.

Girl Hikers Are Held for Breach Of Laws of U.S.

SEATTLE, July 25.—Charged with violating immigration laws of the United States, three Canadian girls, said to be "hitch hikers," were being held here today by Immigration authorities. They were said to have crossed the international boundary without reporting to inspectors.

The girls are Norma Edith Mills, Dorothy Lee Kirkland and Grace Winnifred Hewston.

Apple Crop of East Reported As Very Heavy

VANCOUVER, July 25.—Reports from Eastern Canada indicate that Nova Scotia, New Brunswick, Quebec and Ontario will have an apple crop of approximately 2,430,000 barrels, as compared with 1,796,000 last year, according to the weekly letter of the committee of direction.

From the Colonist Tower

Friday, July 26

20TH Day, 1929

THE WEATHER

Victoria and Vicinity. Light to moderate winds. Partly cloudy and cool with showers.

Sun Rises, 4.40 a.o'clock.
Sun Sets 7.37 o'clock.

High Tide: 8 a.m., 7.3 feet.
Low Tide: 11.17 a.m., 2.7 feet.

Sports

"Long Jim" Barnes takes three-stroke lead in Canadian Open golf with par-shattering round. Heorn Campbell wins under-par seven junior Island tennis title. Jack Brown captures boys singles championship.

Dempsey-Tunney rematch France and United States will open today.

Jackie Fields succeeds Joe Dundee to welterweight crown. Champion-ship bout ends with title-holder losing on foul after being leading based.

Chicago Cubs increase lead over Pirates. Athletics defeat Indians under avalanche of runs.

The News

Local and Provincial—

Forestry department establishes nursery for reforestation purposes.

Plans are formed to raise level of lagoon at Central Lake.

Mr. Shelly suggests universal fire alarm.

War comrades send good wishes to Aviator Bromley.

Forestry Department Has Nursery Established to Supply Needs of Province

Continued from Page 1

located, there is being carried on a very interesting experiment in several other species of timber, some of the seed used coming from Australia, and other parts of it from different sections of the United States, for the greatest community of good fellowship exists among those who are engaged in the arduous task of obtaining seed to follow in connection with the reforestation of the logged-over areas of the different countries.

The numerous species of trees have very different habits of development when placed under varying conditions. Moreover, from the material alteration in the growth of the trees so placed, it would almost appear that nature has made some radical mistakes in the allocation of the woods.

IMPROVES ON CHANGE

An instance of this is afforded in the case of the Douglas-fir Fine. In its habitat in California it is a stunted, tree of little or no commercial value. Taken from its native home and planted in Europe, Australia, New Zealand and South Africa it develops a wonderful rapidity of growth and has proved a most valuable tree in reforestation. It has been recorded that a growth of as much as nine feet in one year has been made by this Monterey pine when placed in favorable locations for its development, away from its native barren surroundings which constitute its habitat.

This tree is being tried out in the plantation being on Shelbourne Street in the hope that a place may be found for it in the reforestation plans of this province.

There is another little group in the nursery of sugar pine, a most important tree in California, and one which ranks among the foremost lumber producers there. It is unfortunate that it is not a very valuable tree in the carrying out of certain reforestation plans in this province. It is not a native of British Columbia. The seed for the little plantation, now coming along, was furnished through the courtesy of the Long-Bell Lumber Company, located at Longview, Washington. Some small plantations will be tried of this variety when the seeding out occurs.

SOUTHERN GEMS

Another tree around which there will centre a great deal of interest is a species of eucalyptus, the seeds for which were furnished through the courtesy of the Forestry officials of Australia.

In the Antipodean sister Dominions there are several hundred varieties of eucalyptus trees. Some are valuable, some are useless in the line of lumber. California, some years ago, introduced from Australia certain of these trees which made rapid growth. They have not, however, been the best kind for the production of lumber.

When the chief forester of the province, Mr. R. Z. Caverhill, was in Australia recently, attending the Imperial Forestry Conference he investigated the situation with regard to these trees, and decided upon the variety which he was furnished with when he came away. It is his hope that by a system of planting these eucalyptus trees with Douglas fir that the results may be exceedingly beneficial in a reciprocal way. The trees may be induced to make higher growth, owing to the presence of the eucalyptus alongside of it, while the same effect will follow from this proximity in the case of the latter tree.

The experimental planting of eucalyptus may be important for the future of forestry in British Columbia. This arises from the fact that there are no hardwoods of commercial value in British Columbia, and this line have to be met in connection with the importation from the East of expensive timbers. This variety that is being experimented with promises to be a rapid grower, adapted to the climate here.

NATIVE TREES

In addition other native trees of British Columbia have been moved into the nursery stock now growing on Shelbourne Street. Western white lock and Sitka spruce, important pulp timbers, are being grown in the planting on cut-over pulpwood lands, and a small acreage of Western cedar is also being grown.

All the trees in the plantation are under sixteen months of age. There have been some losses, one caused relative to planting the seeds as to depth, and due to the covering. Experiments in pure wood as a covering have been tried, and the conditions all around are being carefully studied.

DIFFERENCE IN VITALITY

In the producing of nursery stock there is a great difference with regard to the vitality of the seed available. The greatest care is necessary in the carrying out of the tests in this regard, so that the best seed may be obtained. Then following the initial stage there is the danger from fungus diseases, which are apt to play havoc with the lots of stock. Weather conditions affect this side of the situation.

In the nursery some loss has followed from fungus attacks, but the general character of the stock is healthy. After the starting of the seeds in cold frames, where the natural shade of cut-over sections is attempted by means of slatted covers, the young sprouts are transplanted to beds, where they are given the opportunity to develop strength without too much crowding. Even in the best these young plants give little promise under a casual inspection of standing to the mighty proportions to which the Douglas fir, the spruce and the hemlock reach on Vancouver Island. It is a long season before the harvest of the forest brings them to play their allotted part in the production of lumber.

PROTECTION FOR GROWERS SAYS LEADER

Continued from Page 1

in the republic south of the 49th parallel should flood Canada with fruits and vegetables into Canada and destroy the markets of our own growers.

Yet this had been permitted by the present administration since 1926. The Liberal Government had reached the disgusting stage in the behest of a Liberal member from Saskatchewan because power was more important than our fruit and vegetable growers. The industry was suffering serious consequences.

"I ask the Government, if they are sincere in some of their statements," Mr. Bennett said, "why they not pass an order-in-council putting this clause into effect. They do not have to wait until Parliament meets."

Premier King had taken the attitude in Parliament that Canada must not provoke the United States in the matter of tariff. "Are they proud of this?" Mr. Bennett went on. "Don't provoke them. That is the statement of your Prime Minister. Imagine what they think in Washington, in a country, fifty thousand of whose soldiers lie dead in the fields of France, when Canada's head the head of the Government of this country takes a stand like that."

It was the duty of Canada to look after the interests of Canadians, Mr. Bennett declared, and not those of the interests of its own people.

OSLO TO BE TRADE CENTRE

COMMERCE WITH NORTHERN EUROPE TO BE ESTIMULATED BY NEW COMMISSIONER

Great Opportunity for Expansion Exists in Scandinavia

According to official announcement a new Trade Commissioner's office of the Canadian Department of Trade and Commerce has just been opened up at Oslo, Norway, the territory to be covered including Norway, Sweden, Denmark and Finland. This is calculated to bring into yet closer trade relations the Dominion and those countries which have already drawn close in a business way. The possibilities for Canadian trade development in Scandinavia are only beginning to be taken advantage of and with the evident disposition of business men in that territory to purchase from the Dominion where possible the future in this regard looms up distinctly bright. The extent of present trade is barely the equivalent of the post-war period and is to a quite large extent due to a profusion of purchasing from pre-war sources. Many utilities have been paid by prominent business men in these countries as to the superior satisfactory methods of Canadian firms with which they have done business so that a very fine basis has been laid for future trade expansion.

More particularly Canadian trade development with Scandinavia dates from 1921. Since that time there has been a steady increase in the volume of Canada's purchases from the countries comprised in that territory the Dominion's exports to them doubled in the years between 1921 and 1928. In this trade Canada has consistently had a favorable balance of business with all four countries, the acreage being in a very satisfactory one. In 1928 Canada exported to these four countries the total of $12,546,776 and imported from them to the value of $2,946,751, the favorable balance of trade standing at $9,599,927.

Following are details of trade for 1928:

	Imports from Canada	Exports to Canada
Denmark	$ 2,331,446	$ 149,495
Norway	3,793,811	1,002,790
Sweden	3,115,527	1,268,287
Finland	2,306,242	96,178
Totals	$10,546,776	$2,946,751

With the exception of Denmark the volume of trade was in each case heavier than in the previous year, outstanding features being substantial increases in the value of Canadian exports to Sweden and Finland.

FLOUR AND WHEAT EXPORTS

From Denmark Canada principally imports are falling lines and metal, cream separators, and fishing gear. From Norway the Dominion purchases to the heaviest extent of sardines in boxes, and then in order machinery, ferro-manganese, fish, cod liver oil, and fishing nets and ropes. The greatest item of import from Sweden is iron ore, iron or steel bars, cream separators, machinery, articles for the manufacture of agricultural implements, artificial building slabs, and wire rope, twine, wrapping paper, tissue paper and matches also from Sweden. The main item supplied by Finland is cream separators, followed in order by building and paving stones, papers and machinery, leather, and chlorate of potash.

These countries absorb for the main part those Canadian commodities which loom up largest on the Dominion's export list. The heaviest Canadian shipments to Denmark consist of flour of wheat, farm implement manufactures, wheat, canned lobsters, automobiles, and parts, farm implements and machinery. Norway takes principally flour of wheat, sugar, wheat, other grains, automobiles, aluminium and manufactures and carbon electrodes. Sweden takes in heaviest volume wheat, flour of wheat, rubber manufactures, canned lobsters, farm implements and machinery, and finally automobiles. Canada's exports to Finland are virtually the same, taken in order flour of wheat, rubber tires and belting, farm implements and machinery and automobiles.

As regards many of their products Canada and the Scandinavian countries are competitors in world markets, which makes the volume of trade which has developed between them more satisfying. Canada's products have made and continue to make great progress in securing the favor of these countries, owing to the uniformly high quality maintained by Canadian exporters and the reputation for satisfactory business dealing they have created. Canadian fruit, which took some little time to win its way, has now definitely established itself and it is the belief that trade in this commodity and the raw wheat trade will further expanded. The sugar trade with Norway has also been increasingly profitable to the Dominion in the post-war period, and yet other millions in the provision of a plant commencing on the Coast. We find British Metals, one of the strongest mining corporations in the world, interested in British Columbia. We find Canadian capital investing heavily in such as the famous Noah Timmins, of Cobalt and Holinger Gold, coming into our western field with their money and their ripe experience. We find the old mines of the Kootenays showing new and vigorous life.

"Just think over these facts in their significance as guarantees of British Columbia's assured new business of the early future."

Survivors of British Submarine H-47

Lieut. R. J. Gardner (foreground) and Lieut. R. Ellis, the only survivors of the two officers of the British submarine H-47 that sank with the loss of twenty-two other members of the crew, L-17 early returning from manoeuvres in the Channel off Southsea, England.

MILLIONS TO BE INVESTED IN PROVINCE

Continued from Page 1

enough to convince the jury of this proposition, and that they made no mistake in their verdict of July, a year ago.

"The situation with regard to the Pacific Great Eastern Railway has changed vastly for the better. I am betraying no secrets when I say there is now a very active prospect of the line being taken over eventually by one or other of the great transcontinental companies, or the two jointly.

RAILWAY CONSTRUCTION

"In the Southern Interior, on Vancouver Island, in the northern reaches of the province, private enterprise is now undertaking more railways. It is interesting to remember that during the entire Liberal regime in this province railway construction was at a standstill.

"Our first session saw a railway company chartered to build Canadian Northeastern. And, only a few weeks ago we find that charter and undertaking bonded, and taken over by the Consolidated Mining & Smelting Company which, as everyone knows, is regarded as a very active agency of the Canadian Pacific.

"It is not alone the Consolidated's mineral properties in the Northland this railway will serve to develop. Coming within the sphere of the Canadian Northeastern Railway and deriving advantage through its opening construction, there are 6,382 mining properties in good standing of which 3,162—more than half—were discoveries or recorded finds of last year.

"Railway projects undertaken since the present Conservative Government took office at Victoria means disbursement of $18,000,000 in the total for construction alone.

PROVINCE DEVELOPMENT

"Then hydro-electric developments on a tremendous scale are organizing. The B.C. Electric's budget calls for a capital expenditure of $48,000,000. The Power Corporation of Canada looks forward to expending $10,000,000 in power provisions for the new northland. The West Kootenay Company's expansions call for a further $5,000,000; those of the East Kootenay Company for $2,500,000. The Western Canada Hydro-electric Corporation is investing $5,000,000. It will cost from $10,000,000 to $15,000,000 to harness and deliver the Campbell River power, and about the same amount to utilize the Lois River and feeder lakes power potentialities.

MINES AND SMELTERS

"Then again we find that Consolidated Smelters committed to expenditures of from $10,000,000 to $15,000,000 in expansion of its in-land plants at Trail, and yet other millions in the provision of a plant commencing on the Coast. We find British Metals, one of the strongest mining corporations in the world, interested in British Columbia. We find Canadian capital investing heavily in such as the famous Noah Timmins, of Cobalt and Holinger Gold, coming into our western field with their money and their ripe experience. We find the old mines of the Kootenays showing new and vigorous life.

"Just think over these facts in their significance as guarantees of British Columbia's assured new business of the early future."

LOOKING FOR PEACE MOVE IN TWO DAYS

Continued from Page 1

continue to reach Moscow, creating grave apprehensions in the minds of British leaders. Conservative acts may force the Red Army to recross Soviet frontiers.

Mass arrests, beatings and tortures of Russian officials were said to have become a daily occurrence, while the Chinese Eastern Railway, were inflicted severe punishment on Chinese labourers who had not reported for work since the beginning of disloyalty relations.

Special officials and employees of the railway were reported to be desperately attempting to return to Russian territory. Forty Russians arrested at Poyrankichnaya, according to the Japanese report sent in Chatta, without food, to Harbin. In several hundred Russians had been arrested.

Finding Work for Many Immigrants Not Needed West

LONDON, Ont., July 26.—London Advertiser: "Many men who have been intended for the Canadian West are now being sent there because of the smaller crops.

Yesterday Britishers were rushed into London from Montreal and St. Thomas and Toronto for farm positions within a few hours. Another party of Britishers left here over from Montreal, and it is stated there are more to come for them on Western Ontario farms.

Position of Peeress Is an Anomalous One

LONDON, July 26.—Baroness Ravensdale, the new president of the Lansbury's Club a business club for professional women in the City of London, speaking at the club said her position was a peculiar one as a peeress in her own right. "I am not permitted owing to the strange of people like Lord Birkenhead to sit in the House of Lords, and there is a worse disaster—the peers and peeresses of the realm have no voice.

"I cannot see, however, that five or six hundred votes would make any difference in the problem of supreme importance. All of you in the House of Lords nor have I a vote. I talk more are better off than I are am, therefore, a voiceless, voteless because you have the power to vote."

NEED NO WORKERS

WINNIPEG, July 25.—No labor will be required from Eastern Canada to harvest this year's crop in the West in view of the short crop, the heavy immigration movement this year and the use of combine harvesters, it was decided at a meeting held here today by the Canadian Passenger Association, attended by immigration, Labor, Provincial Governments and railway representatives.

DAILY CLIMBS ARE ARRANGED

Unceasing Activity Prevails in Alpine Club's Camp at Glacier—More Members Report Arrival Daily

CHEFS GET EVEN WITH 'THREE FEET'

By E. O. WHEELER, P.B.C.S.

The Selkirks weather, proverbially cantankerous, has been good to us and, except for an occasional grunt in the shape of a passing thunderstorm, has been brilliant sunshine.

Unceasing activity prevails, and daily parties climb the heights to the Hermit Hut, where the Swiss guide, Rudolph Aemmer, assisted by the president, T. B. Moffat, of Calgary, Colonel W. W. Foster and H. J. Grewar, of Vancouver, and Andrew S. Sibbald, of Saskatoon, conduct the members for their badge and graduating climbs on Mount Tupper and the Swiss Peaks and on Mounts Rogers and Hermit.

Uto Peak, one of the satellites of Mount Sir Donald, has been climbed and provides one of the best rock climbs so far made. It disclosed the fact that too much snow yet lay upon the northwest arête of Mount Sir Donald to make that climb a feasible proposition. A party, led by the guide, Ernst Feuz, has started this morning to climb Mount Sir Donald by the face route. The heavy snowfall of last Winter has made the mountain at this date a somewhat serious climb by any route, but little doubt prevails as to the success of the party, for it is a strong one.

Mounts Cheops and Sifton have also been climbed. The former is a favorite on account of the magnificent cyclorama of peaks, ice fields, glaciers, valleys and streams seen from its summit.

Yesterday a large party with, Erna Feuz, climbed to Perley Rock, below Mount Sir Donald, and spent the day amidst the crevasses and seracs of the Illecillewaet Glacier. This glacier, itself, near a half mile wide, drops 3,000 feet from the skyline of the Illecillewaet Icefield. It is the one at which a wondering tourist gazed in awe and then wanted to know if it was a real glacier or one put there by the Canadian Pacific Railway for an advertisement. The expedition gave great delight. The contrast between the heat and grime of the big cities at midsummer and the refreshing coolness of clear blue ice in its wonderful conformations of crevasses reaching to unknown depths and huge ice pillars on all sides, aipsealed most intensely, and each one returned with conspicuous like a beet, sunburned and blistered, but immoderately happy.

Expeditions to the Caves of Cheops still continue and those who do not desire the strenuous athletics of the big climbs return from the high meadows of Balso Pass, bringing wonderful bouquets of brilliant Alpine flowers, among which the superb crimson and yellow columbins, found only near timber line; the white-flowered rhododendron, the Indian paintbrush, the crimson and yellow mimulus, the forgetmenot, yellow arnicas and white marguerites are conspicuous by their voluptuous growth. There are dozens of other species, among which may be found the rare blue-green gentian of the high Alps.

Few have left camp so far and members arrive daily. Among the latest arrivals may be mentioned Mr. Lindley Crease, K.C., and Hon. H. S. Gale, C.M.G., of Victoria, B.C.; Major F. V. Longstaff also of Victoria, has been here since the beginning.

At the camp-fire circle, Miss K. Gardiner, of Warrington, England, gave a most interesting sketch of the New Zealand Alps and of her climb of Mount Cook. Mr. N. B. Dawson, curator of the Banff Museum, discussed the flora and fauna of the Selkirks. Mr. O. A. Clambe, of Washington, D.C., demonstrated the delights of ice climbing, and Mr. Lindley Crease spoke on subjects of Alpine interest.

Camp routine under the extremely able management of C. A. Richardson, of Calgary, moves along without a hitch. The cooks are veritable artists and the daily menus are detectable the latest attraction being bear steak. The departure of the obnoxious 'Three Feet' for a happier hunting ground seems to have had the desired effect and no further trouble has so far been experienced.

Pipers at Banff Highland Gathering

A TYPICAL scene during the Banff Highland Gathering, in the mountain-ringed grounds of the Banff Springs, where approximately 10,000 people will witness representatives of the various Scottish clans in Highland piping, dancing and athletic events between August 30 and September 2. Inset shows the E. W. Beatty Trophy, donated by the chairman and president of the Canadian Pacific Railway for a special interregimental piping competition limited to official delegate pipers on the active strength of Highland regiments of the nonpermanent Active Militia of Canada.

MOTORS TO BE FAIR FEATURE

OUTDOOR HORSE SHOW ALSO WILL ADD TO ATTRACTIONS

Premier Tolmie to Perform Opening Ceremony on August 15—Competitive Organizers

Accepting an invitation to open the Victoria Exhibition at the willows on Monday, August 19, Premier S. F. Tolmie extends best wishes to the organizers and compliments them upon the marked progress of the show in recent years.

As the opening ceremony by the Premier has been set for the first day of the show, Secretary W. H. Mearns issues an appeal for all exhibitors to have their displays and entries on hand and in place when the gates are thrown open. Most are now working on the grounds and the Exhibition buildings have been put in good condition. Having consecutive in the buildings may prepare their display space at any time.

Announcement was made yesterday that the automobile show will again be one of the big features of the Fair. Dealers of the city are busy at best rivalry and displaying model cars with every known accessory will be displayed under ideal conditions where thousands of people will see them daily. Another show that will prove an attraction this year will be the horse show. Instead of an indoor show there will be a horse show daily in front of the grandstand, and with many wonderful animals entered, incidentally a heavy entry of six-horse teams, a spectacular display every night is assured.

These attractions, combined with the regular Midway and the Willows Garden Revue, which has been booked at considerable expense, promise plenty of variety.

Naturalization Not Required by Woman

BROCKTON, Mass., July 25.—Mrs. Leota Almena Colby, of this city, a native of Nova Scotia, petitioned Judge Edward T. Broadhurst in naturalization court here for citizenship and was rejected. Contrary to the general run of such cases it was not because Mrs. Colby was not a desirable but—because she already was a citizen of the United States.

In fact, Mrs. Colby was what might be called a double-barreled citizen for she has twice been married to American citizens. Judge Broadhurst informed Mrs. Colby that the climax of her petition was simply a reminder that she already possessed naturalization and apparently did not know it.

The judge informed her that her first marriage back in 1910 to a United States citizen automatically made her a citizen and it was that any doubt of that her second marriage since to another American surely sealed the bargain.

Another applicant rejected by Judge Broadhurst was Trevor Starling King, a Canadian, who came to this country on a visit but liked the place so well that he forgot to return home. Naturally he overstayed his leave for visitation and now his stay becomes a matter of interest to immigration authorities. Judge Broadhurst declined to make him a citizen until he had eliminated the little difference with the Federal Immigration Commission.

Lifesaver Shot Showing How to Obtain Getaway

ALLENTOWN, Pa., July 26.—Captain William S. Ash, widely known life-saving instructor and field report director of the American Red Cross, was fatally wounded here today while demonstrating to local police the method of getting away from a man holding a pistol to his back. The revolver being used in the demonstration, thought to have been unloaded, contained a bullet.

No Lower Taxes Are Looked for By Mr. Snowden

LONDON, July 25.—Mr. Philip Snowden, Chancellor of the Exchequer, told a banquet of bankers, who were present at the Lord Mayor last night, that he could give no hope of a substantial reduction of taxation in the near future. He pointed out that it was not once when the best financial brains of the world should try to make finance serve as an instrument for the upbuilding of trade and employment.

Mr. Snowden appealed to the bankers to exercise caution in lending money to countries where exchanges were unfavorable to Great Britain.

CARIBOO RELICS TO BE SECURED

Collecting Trip of Mr. John Hosie, Provincial Librarian and Archivist, to Occupy Five Weeks

Mr. John Hosie, provincial librarian and archivist, will leave on Saturday on a trip which will occupy perhaps five weeks' time, visiting the historic Cariboo district. His mission is one of importance from the standpoint of the historian, as he will devote his time to the gathering of documents and relics of various kinds, which connect up with the days of the gold rush when British Columbia was in formation.

He will reach Barkerville by August 10, when he will take part in the ceremony connected with the marking of the terminus of the old Cariboo wagon road of the gold-seeking days. This is being carried out under the auspices of Cariboo Lodge, No. 4, A.F. & A.M.

Following that Mr. Hosie will devote his attention to the special work which he has in hand. He will visit the points of interest, and make a collection of documents that will be of interest in the future years. In the carrying out of this plan he has been armed with all the necessary authority conveyed to him through the members of the Government and the different offices concerned.

The various collections made by him will be forwarded to the department here in the Parliament Buildings, to become a part of the permanent collection.

Health and Diet Advice

By DR. FRANK McCOY

HEAT EXHAUSTION AND SUNSTROKE

During the hot weather, many people die of heat exhaustion and sunstroke because they have not taken the proper precautions to make the changes in their diet and clothing made necessary by the rise in temperature.

Heat prostration occurs when the body is unable to quickly adapt itself to a sudden increase in temperature. This occurs most frequently when the air is very humid or the clothing heavy enough to prevent a rapid evaporation of perspiration. By making sensible changes in our diet and clothing, we can avoid all the unpleasantness of hot weather.

The danger of heat prostration is that it may occur even when one is not in the sun, especially when coming from a cool room into a warm atmosphere. The heat stroke which is different from sunstroke, comes on slowly and leaves the surface of the body cool and the temperature sometimes subnormal. The individuals affected always have a sluggish circulation.

The best method of treating heat stroke or heat prostration is to place the individual on a fresh cot for a few days, with frequent tepid or warm shower baths, quite the enemas deep breathing exercises and dry friction rubs. The hot enemas sometimes bring about the quickest relief.

The sunstroke differs from heat exhaustion in that it is caused by a congestion of the blood to the head because of intense sun rays. Immediate unconsciousness is often produced by not wearing a hat while for a long time in the direct rays of the hot Summer sun. Children, light complexioned people and those under the influence of alcohol are especially susceptible. Death may occur almost immediately, and even where this does not occur, there are sometimes after-effects such as a partial paralysis of the brain or lung, fever, and complete prostration.

Once a person has been affected by sunstroke he is especially susceptible to heat so the direct rays of the sun for a long time thereafter. Because of the profound shock occurring in this disorder, one must use extreme care in the treatment. Ice packs to the neck will cool the blood and reduce the pressure in the brain. I do not recommend the ice cold enemas usually given to lower the temperature, since I am of the opinion that it is more important to secure a thorough cleansing and warm or slightly cool water is more valuable for this purpose. The cooling should be accompanied by sponging the skin with ice water and using cold shower baths.

One who is recovering from sunstroke should stay quite quiet, lying as much sleep and rest as possible.

Correspondents wishing to communicate with Dr. McCoy should address letters, Dr. Frank McCoy, c/o Bell Syndicate, 154 Nassau Street, New York, U.S.A.

Friday, July 26, 1929

THE HUDSON'S BAY COMPANY

It is a tribute to the prosperity of the country that the latest annual report of the Hudson's Bay Company should be such a satisfactory one. That annual report is a barometer, in many ways, of Canadian progress. The company is at once the oldest corporation identified with the interests of this country, and at the same time one of the most progressive and up to date. It is interested in land settlement, in transport, in trade of a variety of kinds, and it has subsidiary interests which are constantly expanding.

One of the most interesting parts of the annual report is that dealing with land settlement. In the year under review the company has found place and opportunity for nearly 2,000 people on the land. Of these 230 passed through the Hudson's Bay Company's training farm in England in preparation for the conditions which face them on this side of the Atlantic. In co-operation with the Overseas Settlement Department the company has equipped a hundred farms in the Vermilion District, and on these eighty-nine families have already been settled. The report notes that "there is, without doubt, plenty of room in Canada for men who commence with a willingness to work, and a peaceable disposition, and it will interest you to know that the majority of farmers who apply to us for helpers express preference for men of the British race. This, I think, disposes of the fallacy that British settlers are not wanted in Canada."

There is one remarkable comparison instituted by the Governor, Mr. Charles V. Sale, in his report, namely, that dealing with electric power consumption. In this respect he shows the big way in which things are done in Canada. In 1928, he shows that Winnipeg, with a population, including suburban areas, of 300,000, consumed one-third as much electricity as London and the home counties combined, with a population of over eight millions. The average price to the domestic consumer is one half penny per unit; in London it is 3 1-2d per unit. London and the counties consumed 1,493,000,000 units in 1928, and Winnipeg and district, 515,000,000. The point which Mr. Sale makes is that cheap power from water and the electric generator is the foundation on which industries in Western Canada are being developed and are resting secure.

The company's report indicates rapid increase in its trade, and, for the purpose of further development, there is to be a new issue of 1,000,000 shares. During the last two years there has been a surplus over dividend requirements, and Mr. Sale records that the returns from trade so far during the current year show an improvement over those of twelve months ago. In other words, the company is making steady advancement in its business interests, and in doing so is reflecting in a substantial way the growth of the Dominion.

MEN'S WEAR

The honorary secretary of the Men's Dress Reform Party says applications for membership are coming in from all quarters. So far the movement, in the formation of a "party," is confined to Britain, but it is certain to lead to branches, or similar organizations, being established elsewhere. A letter to the press from the honorary secretary describes Liverpool as a "very hotbed of rebellion against men's present dress." Both men and their wives are supporting the party, the latter to alleviate their over-heated and neck-constricted husbands, and the letter noted says that there is not a "crank" or a "faddist" among all who have applied for membership.

The reforms sought in men's clothing are those which will constitute a change from trousers. Most of the members wish to wear shorts, though some favor kilts. Less heavy material for clothing is one plea and less padding. The villain of the piece is the collar stud. "Man," says the honorary secretary of the Reform Party, "is clutching at his throat and crying 'Release me from the strangle band'." In other words, the collar stud must go. Another ukase issued by the Reform Party is that, at least in hot weather, there should be no waistcoat or braces, so that a man may remove his jacket, "and still retain his good looks and his fair name." The Reform Party is setting the example in the wearing of more hygienic dress. The propaganda is being carried out by means of dances, fetes and men's dress competitions. The members are being urged to spend money on outfitting themselves for the collarless and trouserless era. The Reform Party has started something, and has at least introduced a movement which, for the time being, will make men's fashions more nondescript and bizarre than they are at present. The clothing trade which caters to men may evolve some new pattern for wear in the course of time. It has to wait now to see how the new movement prospers and what directions it takes.

THE VATICAN STATE

Every schoolboy knows the famous passage in the third paragraph of Macaulay's essay written in 1840 upon Ranke's "History of the Popes," in which he says the Roman Catholic Church "may still exist in undiminished vigor when some traveler from New Zealand shall, in the midst of a vast solitude, take his stand on a broken arch of London Bridge to sketch the ruins of St. Paul's." The story of the Papal States, of the temporal power conferred on the Bishops of Rome in the eighth century by Pepin's gift of the captured cities and provinces of the Lombards, and of the loss of temporal sovereignty in 1870 is also well known in many classrooms, and now a new link has been forged and added to the long chain of events stretching from Pepin and Charles the Great to the very modern and spectacular Mussolini.

The average citizen will likely be content to accept in a vague and general way the idea that somehow or other something has happened in Italy by which the Pope has re-acquired certain powers and privileges lost nearly sixty years ago, and let it go at that. The Rome correspondent of a great London daily paper has written an account of the signing of the Lateran Treaty and added much information concerning the new Vatican City that has been set up, which should be of interest to grown-ups and schoolboys alike.

Among the points of concrete interest is the fact that the new city contains one hundred and eight acres and seven-tenths and about four hundred and fifty legal citizens, none of whom owns any of the real estate of the city. Another is that philatelists and numismatists will soon be able to enrich their collections with specimens of the new stamps and new coins to be issued by the Vatican. The new state has undertaken that the great cathedral shall continue to remain open for the worship of the general public and that the treasures of art and science in the Vatican City and the Lateran Palace shall be open to students and visitors. Italy is to furnish the new city with an adequate water supply and with railway and postal facilities within a year.

Not least important is the relation in which the Vatican State is to stand to other Powers. It has declared that it will stand aloof from all international rivalries and that it will never become a member of the League of Nations, a decision which, the Rome correspondent remarks, has won universal approval.

The Terre Haute Tribune says: "To deliberately split an infinitive is a thing that many writers would never do. To carefully evade split infinitives is their purpose at all times; but it is not easy to consistently avoid the supposed error in grammar, for the split infinitive seems to try to viciously thrust itself into sentences where it is not wanted, as if to intentionally trick the writer. And to invariably spot a split infinitive requires a keener eye than most proofreaders have. So it sometimes appears in the very best literary company, even in the writing of those who are supposed to strongly condemn it, and it cannot be denied that to ruthlessly weed it out would weaken the emphasis which it places in some passages." The Tribune must have a sense of humor for there are no less than six split infinitives in the foregoing.

FROM A YOUNGER COUNTRY: NEW ZEALAND

This stubborn beach, whereon are tossed
White roses from the sea's green bough,
Has never sheathed a Roman prow
Nor flinched beneath a Norman host.

Yet in my bones I feel the stir
Of ancient wrongs and vanished woes,
And through my troubled spirit goes
The shadow of an old despair.

—A. R. D. Fairburn, in Poetry.

DAGON AND THE ARK OF THE LORD

They traveled from Ebenezer to their City of Ashdod,
These Philistines in their triumph, bringing proudly the Ark of God,
And there in the House of Dagon, while the dusk fell dark and wide,
They set up the true by the false god and left them side by side.

When the golden glories of morning flooded the silent place,
In amaze they saw Dagon lying—sore fallen upon his face,
Prone 'fore the Ark of the Lord—vexed and troubled were they—and yet
Again in his place of Honor their idol on high they set.

Purple and lurid the shadows fell on Dagon at break of day,
As bruised and broken and headless the false god darkly lay.
Nought but the stump was left him the Philistines spake no word,
Shamed were their faces and humbled before the Ark of the Lord.

Thus doth the strife move onward—silently waging to and fro—
And the Soul's as the House of Dagon, where the false gods dimly go;
Yea, when the Great Presence enters, He will brook but Himself alone,
So the Lower must cede to the Higher, and the idol be overthrown.

Vainly we lift up our Dagon—and set him again on high—
When at length the grey morning breatheth, and the Dark of the strife wears by,
There remains but a stump all hideous, for the God that our blind eyes knew,
For the Higher must vanquish the Lower, the False must yield to the True.

Mary M. Curchod, Algiers.

It is as easy to close the eyes of the mind as those of the body.—Bishop Butler.

Note and Comment

By R. B. D.

Looking backward, the German people have much to regret. Looking forward, the German people have at least one reason for satisfaction. The German people did not gain their long-anticipated "place in the sun." They have attained their coveted place upon the waters of the earth. They are the proud possessors of the blue ribbon of the Atlantic. Their dream of more than a quarter of a century has "come true." In the old days they dreamed an evil dream that did not "come true." They dreamt of sweeping the British naval and merchant marine from the face of the waters. That evil dream proved a nightmare. It was their naval and merchant marine that was swept from the face of the waters.

* * *

The Germans, we trust, have forgotten the past, but we also trust the Germans have not forgotten the lesson of the past. For the first time in their history they have built a faster ship than any commercial vessel flying the British flag. We have no doubt there are ships flying the British flag that could break the record held by the Bremen and cross the ocean from Europe to America in less time than the famous German ship, but naval ships are never employed in breaking records. Nor have we any doubt that there are British mercantile ships which could establish new records for voyages between Europe and America, provided they sailed from some port in Great Britain to the nearest port in Canada.

* * *

That is what will happen some day, but in the meantime we shall follow the example of the courteous and generous commander of the Mauretania, the queen of the seas for a quarter of a century, and congratulate the skipper of the Bremen on his notable achievement. The Bremen has set a record that will be hard to beat, but she has not set a record that is unbeatable. The British shipbuilders have been producing ships for a long time, and they are masters of the art of designing and constructing hulls and engines. The Germans are their pupils, and have proved themselves apt scholars; but we doubt whether the British shipbuilders as their masters. The achievement of the Bremen, are yet ready to acknowledge the German shipbuilders as their masters. The present queen of the sea will not sit upon her throne for twenty-five years.

* * *

We are glad that Germany has come back far enough from the regions of obscurity to challenge the world again for maritime supremacy. True, one, or even two ships, however big and powerful, do not constitute a big mercantile fleet. But they are the beginning of something that in time will become an imposing fleet, for the Germans are resourceful, energetic and ambitious. The rivalry which was crushed by the war, but apparently not extinguished, has broken out anew, and it will be like old times again when we begin to read more about record-breaking upon the seas and possibly less about record-breaking upon the land and in the air. The ancient glamour of the sea has been somewhat dimmed by stories of fast airships and non-stop flights by daring aviators to far-distant parts of the world.

* * *

Records made in the air and upon the land are too often made at high cost in human lives. Traffic is not yet so dense upon the waters of the great oceans as it is upon the land. Travelers who go down to the sea in ships are probably safer than they would be in any other vehicles of transportation except railway trains. There is always an element of danger in record-breaking of any kind, however, and the faster the pace the greater the danger, notwithstanding persistent attempts of motor speed-maniacs to prove the contrary.

* * *

If the masters of ordinary sea-going craft were asked to express an opinion upon this matter, they would declare with a great deal of emphasis that the so-called greyhounds of the seas are a menace to everything afloat except icebergs. An iceberg cannot be run down and sunk without trace, as was demonstrated in the case of the ill-fated Titanic. The feelings of the masters of ordinary sea-going craft in respect of ocean bloodhounds, as they call them, are akin to our feeling in respect of speed-maniacs who are supposed to be in control of motor cars, but who actually are controlled by motor cars.

* * *

Still the making and breaking of ocean records is safer than the making and breaking of transportation records of any kind. The Bremen will continue to apply her hundred and fifty thousand horsepower in making records, and her sister ship and rival ships will do the same thing, whatever the lotterers of the sea may say or do about it. A new subject of surpassing interest to readers of newspapers and radio listeners-in has been established. The Hamburg-American line has issued a challenge to the world. The challenge will be accepted, and we shall have bigger and more powerful ships plying all the seas and attracting the attention, exciting the curiosity and appealing to the imagination of landsmen as well as seamen.

The Rhyming Optimist

By Aline Michaelis

SONGS

Song lies about us
On every hand,
Would we but listen
And understand.

Dawn has its voices,
Noontide and night
Come with their chorus
Chanting delight.

Dawn's songs of labor,
Dusk's songs of sleep,
Sound where the cities'
Great currents creep.

And in far woodlands
To lonely men
Come deeds and dreaming
With song again.

Rhythmic and restful
Vast pulses beat,
Would we but harken,
Life's songs are sweet.

FARMERS' INSTITUTES

Sir,—As a member of the Advisory Board of Farmers' Institutes for District "B," and one who attended the recent meeting in Vancouver, I would like space for a few words regarding the recent interview given by our new secretary, Mr. A. B. Smith, of Cranbrook, published in The Victoria Times of July 3 under this heading: "Farmers Incorporate to Keep Politics Out of Institutes." "To defeat efforts of Provincial Government to deprive the Advisory Board of the Farmers' Institutes of independence, papers are being prepared today for incorporation of the board under the Society Act."

I do not think that Mr. Smith was quoted correctly in this interview, as this suggestion to incorporate did not come from any member of the board, a fact Mr. Smith well knows.

I do not agree with Mr. Smith when he states that the Minister of Agriculture had tried to interfere with the work of the Advisory Board, a fact that will be borne out when we consider that resolution No. 100, which was passed at the last meeting of the board in Victoria, was accepted by the minister and, to my knowledge, was never repudiated. The minister's objection was that the board's secretary was not entitled by statute to claim more than the Advisory Board allowance of $5 per day expenses while doing Advisory Board work. The movement to incorporate will undoubtedly remove this obstacle, and I think the board will have no further trouble on this account.

Regarding the suggestion that the Government wished to have the secretary of the Advisory Board named from the Civil Service, I wish to state most emphatically that this matter was not discussed at the recent board meeting, nor has it ever been discussed at any board meeting that the writer has attended.

J. W. TURNER,
Member of Advisory Board for Farmers' Institutes, District "B."
Smithers, B.C., July 18, 1929.

GLENGARRY MAN HEAD OF BARING'S

Former Housemaster at Upper Canada College Has Become Leader in Finance

With the announcement recently in cable dispatches of a bequest of $100,000 to Mr. E. R. Peacock, former Toronto financier, contained in the will of the late Lord Revelstoke, who died in Paris while attending the recent reparations conference, is recalled a romance of a Glengarry youth.

Several years ago a young housemaster at Upper Canada College decided he would enter the world of finance. He applied for a position in the firm of Dominion Securities and was accepted. His rise was rapid, and within a few years he was made manager of the firm's office in London, England.

Subsequently, Mr. Peacock, the former Glengarry schoolboy, was elected vice-president of the various public service corporations in Mexico, Brazil and Spain with which he had been affiliated through his connection with the Dominion Securities. These included Brazilian Traction, Light and Power, Mexican Light and Power and Barcelona Traction, Light and Power.

Mr. Peacock attracted greater attention as his activities increased. During the war he was elected a director of the Bank of England. Then about three years ago he was offered the position of second to Lord Revelstoke in the firm of Baring Brothers, one of the largest banking houses in the British Empire.

He accepted. In doing so he had to relinquish his directorship in the Bank of England, for there is an unwritten law that no two members of one firm may be directors of the oldest bank in the British Empire, and Lord Revelstoke was a director of the bank. He also resigned his active participation in the Mexican and other public service corporations.

Then a few weeks ago Lord Revelstoke died suddenly and Mr. Peacock became head of Baring Brothers. A few days ago he was re-elected a director of the Bank of England. He is also a director of the Canadian Pacific Railway.

ALL IN VAIN

"For ten years, ten long and lean years," cried the writer, "I have been writing this drama, changing a word here, a line there, working on it until my fingers were cramped and aching, my brain and body weary from the toil."

"Too bad, too bad," the producer murmured. "All work and—no play."

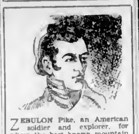
Jots From History



ZEBULON Pike, an American soldier and explorer, for whom the best known mountain peak in the United States was named, was born in 1779. He entered his father's regiment at the age of fifteen, and five years later became a first lieutenant. In 1806 he began his explorations through the country of the Louisiana Purchase. On November 23, 1806, he sighted Pike's Peak. He was promoted through various ranks to that of colonel, and took an active part in the War of 1812. In an attack on York, Canada, he was killed by a fragment of rock shattered by a British shell.

HISTORIC BRIDGE TO DISAPPEAR

Foochow Bridge of Ten Thousand Ages to Be Sold to Shanghai Firm

HONG KONG, July 25.—The Provincial Board of Public Works at Foochow has completed arrangements for the sale of the stone in the historic Bridge of Ten Thousand Ages to a Shanghai firm for a consideration of $400,000 (Mexican). The stone will be used in the construction of buildings in Shanghai, where there is a demand for unusually long lengths of stones. The purchasing company has figured that the cost of quarrying new stones of similar size would be greater than the four hundred thousand dollar offer.

The Bridge of Ten Thousand Ages has not only been a landmark at Foochow for centuries, marking the upper limit of navigation of the ocean-going junks, but it was an important link in the system of great roads connecting the provincial capitals. The arterial highway running from Foochow through Hingwa, Amoy, and Swatow to Canton, was across this bridge. Before the days of steam engines, cement, and steel construction, the bridge was nothing short of an engineering marvel. In the days of sedan chairs, and coolie-carried loads, the bridge was entirely adequate for all the traffic it was called on to carry. With the building of the first horse road in Foochow thirteen years ago, and the coming of rickshaws, the bridge was resurfaced and made available for rickshaw traffic. But with the coming of the motor car, it is entirely inadequate, for although the bridge is more than a thousand feet in length, it is not wide enough for more than a "one-way bridge" for motor cars.

The selling of the bridge grows out of the plans of the Provincial Board of Public Works for a wide modern steel bridge to replace it, and thus greatly increase the speed of traffic from the city to the growing important business suburb on the south bank of the river, and to make adequate motor car connections with the new system of motor roads throughout the province. The line of the old road running from Foochow to Amoy is being followed in the main in the plans for the new motor road. Grading is being resorted to in many places so that the new road will be much more level than the old one. Bridges are being rebuilt and strengthened. In this part of the province the soil is very largely a disintegrated granite, a superb soil for road making. With adequate foundations, adequate bridges and culverts for carrying off the torrential rains, and good surfacing, the roads could be made very good indeed in spite of the good rainfall to which that part of the coast is subject.

Housekeepers Know Lure of Advertising

LONDON, July 25.—Among speakers at the Advertising Association's convention in Newcastle was Viscountess Dunedin, who gave the members "a housewife's view of the lure of advertising."

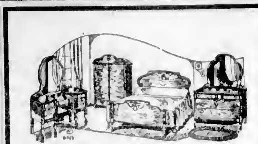
Lady Dunedin said: "When I consider the great power of the modern advertisements upon the life of women, and how they persuade us what to eat, to drink, and to wear, what health resorts to select and what hotels to stay at, I realize how amazing is the influence of advertisements on our daily life, and I cease to be amazed at the enormous sum spent and rightly spent, on advertising, and the great value which the heads of great enterprises place on the art as a wonderful agent for commercial success. Today publicity in all its varied forms is a necessity in the rush and competition of modern life modest work would remain very modest indeed if it did not succeed in making itself known."

Referring to the association's campaign against posters in beautiful places, Lady Dunedin said: "Unsuitable posters in such places defeat their own ends. Originality, a sense of beauty, and imagination are needed in advertising."

CANADA'S SUNSHINE

TORONTO, July 25.—Canadian sunshine has inspired the matron of the Royal Infirmary of Liverpool, Eng., to return home and preach the gospel of the solarium. Miss Mary Jones, S.R.N., A.R.R.C., who has been in town, is singing the praises of Canada's particular brand of sunshine.

"And I had to come to Canada to learn the difference between a balcony and a solarium," she admitted, with an amused twinkle in her eye. "But now that I know a solarium is glassed in and a balcony is not, I am going home to preach about them." Miss Jones frankly admits that she lost her heart to Canada before she ever touched foot on its soil. "The trip up the St. Lawrence was so beautiful, and our first glimpse of Quebec was at sunset," said Miss Jones, "and I knew then that I was going to love Canada."



Quality
Bedroom Suites
Priced From $89.75 Up

Insist on quality in a bedroom suite as well as beauty—for high quality materials and high quality craftsmanship insure that the beauty will endure. At Weiler's you can choose from a wide selection of solid walnut, walnut veneer and colored suites of quality and beauty in their highest degree . . . and at Weiler's you'll find most attractively moderate prices, ranging from $89.75 upwards. ART IN ALBERTA

EDMONTON, July 25.—"Suitability is the keynote of successful building," declared Marjorie Hill, B.A., B.A.Sc., who was the first woman to graduate in architecture from the University of Toronto, and the first woman to register as a member of the Royal Architectural Institute of Canada. She is now practising her profession in this city, where she graduated in arts from the University of Alberta.

Pursuing the subject of suitability Miss Hill said: "A building must be well planned for the use to which it is to be put, whether it be a school, a house, a church or what. No country ever will attain a good style of architecture by making a bank look like a Greek temple."

Miss Hill has little sympathy with those who think that Western Canada has failed in developing a distinctive style of architecture. "All the old styles, the Spanish, which has fitted so charmingly into California settings, for example, were originally the product of the building of more or less cultured people who gradually evolved a type of architecture suited to their peculiar problems of setting and suitability. They took literally centuries to evolve," she pointed out.

"The Canadian style must evolve slowly. Connecticut and Pennsylvania have distinct and attractive features of domestic architecture, but they did not grow in a minute."

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of July 26, 1879)

The ship Washington Libby, ashore off Port Angeles, is reported bilged and will prove a total wreck.

A canoe race for $100 a side will take place at 7 o'clock this evening between William Oatsford, the champion sculler of British Columbia, and John Clemmens, in Victoria Arm.

Fine Waterfront Home at Cordova Bay

This home, suitable for all-the-year occupancy, is situate on a large lot, 60 feet x 300 feet, taking in a large portion of beautiful sandy beach to mean high water mark. The living-room is 18 feet x 13.3 feet and is nicely paneled, and contains large open fireplace. The kitchen is also 18 feet x 13.3 feet and the pantry is separate. There are 3 bedrooms, wide veranda and excellent garage. Water is piped into the house and the water rights are Government recorded. The location is the very finest at Cordova Bay and, in our judgment, is surprisingly cheap at $4,000

Terms arranged.

We have also another desirable property at Cordova Bay, with 4 rooms, at $1,800

This is likewise an excellent buy.

Campbell Building Estate Agent Phones 1765, 8712

CORRECTION IN GRADE XI LIST

Two errors crept into the report of the passes for Grade XI high school examinations yesterday, the winner in Victoria district, Jane T. Potts, being described rightly in the summary, but wrongly "James" T. Potts in the list. She will receive one of the Royal Institution scholarships of $100 awarded by the University of British Columbia to the district leaders.

The second error was the omission of the name of Hilda I. Lobb from the Oak Bay list, with 80.8 per cent.

MORNING FIRE DAMAGES SIX CITY STORES

Firemen Fight Flames in Fort Building for Nearly Two Hours Before Control Is Gained

LOSS IS MOSTLY CONFINED TO ROOF

Fire, the origin of which has yet to be determined, caused considerable damage to the one-story Fort Building, corner of Fort and Cook Streets, at an early hour yesterday morning. The alarm was turned in about 3 45 o'clock and five engine companies under Deputy Chief Alex. Munroe fought the flames for more than an hour and a half before the blaze was under control.

Despite the early hour a large number of near-by residents, scantily clad, watched the progress of the flames and the operations of the fire department. When the fire-fighters arrived and the extent of the outbreak was realized a second call was sent in to headquarters.

The actual damage caused by the fire was practically confined to the roof, which burned along both Fort and Cook Streets, but all the stores in the building were considerably damaged by water, and most of them were open at the top to the sky. Business was carried on by most of the stores during the day but owing to the open condition of the premises the building was last night patrolled by the police.

A survey of the premises later in the day showed the following premises affected:

Grocery store, owned by Mr. James Adam: Ceiling and walls burned at rear; stock damaged by water.

Nornington's Bakery: Roof badly burned; interior flooded.

Mr. P. C. Sherriff, shoemaker: Ceiling completely gutted; stock damaged by water.

Mr. J. H. Taylor, Empire Meat Market: Roof and walls burned; store flooded.

Mr. F. Kroger, upholsterer: Slight fire damage to walls and ceiling; stock damaged by water.

City Dairy, Limited: Ceiling badly holed and premises flooded.

The necessary repairs to the building, which is owned by the estate of the late A. F. Todd, will, it was announced by the Royal Trust Company, be put in hand at once.

PARADE OF 58TH FIELD BATTERY

The 58th Field Battery will parade at the Armories, Bay Street, tonight at 6 o'clock; dress, drill order. At this parade the battery will be inspected by the O.C 6th B.C. Coast Brigade, also medical inspection of the personnel of the Barnes detachment will be carried out.

The inspection of the D.O.C., M.D No. 11, will take place at 8.30 p.m., Friday, August 2. The muster will also be held on this parade.

The Barnes detachment will entrain at 1.45 p.m. at the C.P.R. wharf, August 4, 1929.

T. D. MONTE, Major,
O.C 58th Field Battery.

OAK BAY HEARS OF FINANCES

Receipts Are Quoted at $196,225 and Payments at $141,287 for Half Year

$97,558 REQUIRED TO COMPLETE YEAR

The cash statement for the first half of the year 1929, together with some comparisons from the previous year, was submitted by Municipal Clerk R. H. Blandy, at yesterday's meeting of the Oak Bay Council.

The figures were as follows:

	1929 half estimates year	1929 half actual
General Revenue Account	1,166,250	1,017,763
Permissive Revenue Account	8,000	800,344
Cash Balance	93,000	93,000
Accounts Payable	15,700	
	1928 half actual	1928 year
Revenue Account	1,140,140	1,140,147
Permissive Revenue Account	127,641	209,334
Cash Balance	191,600	
Accounts Payable	5,000	

The increase in receipts, explained Mr. Blandy, was due to larger tax payments. The increase in permissive was chiefly accounted for by the payment of sinking fund instalments, $12,412 being paid before, instead of after June 30. The shrinkage of cash on hand was largely due to the advances made for local improvements.

The statement showed that $27,558 was required to complete the estimate for the receipts for the current year. Last year, $97,402 was received during the latter six months.

The council received a letter to the effect that the late Mr. John Virtue had bequeathed Mary Tod Island, measuring some five acres, to the Oak Bay Municipality.

Regarding a complaint, filed by Mr C. W. Smith, which had reference to the damage done by crows, the council decided that it would not establish traps.

MEXICANS DIE OF THIRST IN GREAT DESERT

Entire Family of Seven Is Wiped Out for Need of Water — Bodies Found Scattered Near Car

DRAIN RADIATOR FOR LAST DROP

BLYTHE, Cal., July 25.—Out of the desert today came a story telling of the tragic death, apparently from thirst, of an entire Mexican family of seven.

Reports brought to Ben White, chief of police, by a party of six Mexican boys stated that the bodies, believed of Enrique Armenta, his wife and five children, were found scattered about their disabled automobile near a seldom used mountainous desert road, thirty-three miles south of here. The youths said the radiator of the car, a small sedan, was empty; a pair of pliers lay on the ground beneath and the cap was open—mute evidence that the last drop of water apparently had been drained from the machine by the family to quench their thirst.

Police Certain Of Capture of Smithers Thief

PRINCE RUPERT, July 25.—Provincial police are confident that before long they will have their hands upon the bandit who recently held up the Royal Bank, at Smithers, B.C., and escaped pursuit after a gun duel, with his pockets full of stolen money. A report to headquarters here states that a posse came close to capturing him near Telkwa, B.C., having cornered him after a long chase. He escaped and successfully hid himself again, however.

Obituary

NELSON—The death occurred in this city on July 24 of John Ewing Nelson, a resident of Deep Cove, Saanich, aged thirty-seven years, and born in Pollockshields, Glasgow, Scotland. The late Mr. Nelson is survived by his widow at Deep Cove and leaves other relatives residing in Glasgow. The remains are reposing at Hayward's B.C. Funeral Chapel, where funeral service will be held this afternoon at 3 o'clock. Rev. T. H. Davies will officiate. The remains will later be forwarded to Vancouver for cremation.

DABBINGTON—The funeral of the late George Dabbington will take place on Saturday, at 3 30 o'clock, from the Sands Funeral Chapel, under the auspices of Victoria Lodge No 1, Independent Order of Odd Fellows. Rev. P. A. P. Chadwick will officiate and the remains will be laid to rest in the Royal Oak Burial Park.

McCULLOUGH—The funeral of the late Samuel McCullough will take place this afternoon at 2 30 o'clock from McCall Bros' Funeral Home. Interment will be made in Royal Oak Burial Park.

MAYNARD—The funeral of the late Mrs. Eliza A. Maynard will take place on Saturday afternoon, proceeding from McCall Bros. Funeral Home to Oaklands Cosgrave Hall, at Hillside terminus, where service will be held at 2 30 o'clock. Interment will be made in Royal Oak Burial Park.

AIRPLANE PILOT REGULATIONS TO BE REVISED SOON

WASHINGTON, D.C., July 25.—Stricter regulations for airplane pilots go into effect September 1, and after that date flyers must keep in practice if they are to fly more than one type of plane.

Under the new Department of Commerce regulations a pilot will be licensed to fly for hire one or more of twelve classes of planes upon which he satisfactorily passes flying tests, and the classes will be specified upon his licence card. Present holders of transport and limited commercial pilots licences will be required to take the tests when they apply for semi-annual renewal of the licenses.

The new requirements will give assurance to air passengers that the flyer is qualified to handle the type or class of plane he is flying, and has kept in practice on it.

There are three general classifications of plane by weight under the new regulations. These are planes of less than 3,000 pounds gross weight, planes of from 3,000 to 7,000 pounds, and planes of more than 7,000 pounds. Each of these classifications is divided into types, planes with one engine and open cockpit; more than one engine and open cockpit; single-motored cabin planes and multi-motored cabin planes.

The classifications apply to seaplanes and amphibians, as well as to land planes.

PRIVY COUNCIL HEARS WOMEN'S APPEAL OPENED

Question Is: "Is Woman a Person" Under the Meaning of the British North America Act

SEATS IN SENATE HANG ON RESULT

LONDON, July 25.—"Is a woman a person entitled to be called to the Canadian Senate?"

This is being argued before the judicial committee of the Privy Council, representative women of Alberta pressing an appeal against an adverse decision of the Canadian Supreme Court, which ruled that under the meaning of the British North America Act, women were not "persons" eligible for the Senate.

Hon. N. W. Rowell, attorney for the appellants, today concluded his argument of a day and a half. The Lord Chancellor (Lord Sankey), Lord Darling, Lord Merrivale, Lord Tomlin and Sir L. Sanderson constitute the board hearing the appeal.

Except for a big cluster of barristers, the audience during the hearings consists of little more than a dozen persons, most of them women.

At the conclusion of Mr Rowell's address the Lord Chancellor said Their Lordships were all very much indebted to him for his exposition of the case.

The Dominion Government is opposing the appeal, though it has intimated steps might be taken to change the B.N.A. Act to admit women to the Senate.

MAIL SERVICE OPENS

CHURCHILL, Man., July 25.—A mail service from Churchill was opened on July 16, the postal packets being carried through from Mile 445 by train.

I.O.F.

The officers and members of Victoria Lodge No. 1 are requested to meet at the I.O.O.F. Hall, Douglas Street, on Saturday, 27th inst., at 3 p.m. for the purpose of attending the funeral of our late brother, C. Jabbington.

ALEX. McCABE,
Recording Secretary.

HAYWARD'S B.C. FUNERAL CO. Phones 2235-2236 2237

SHOT WHILE PLAYING

WINDSOR, Ont., July 25.—While playing Tom Mix, ten-year-old Gordon Natalis yesterday shot and wounded his fourteen-year-old sister, Florence, when he pulled the trigger of a .22 rifle which he thought was unloaded.

The prisoner faced the judge with a determined gaze as the latter inquired:

"You committed this theft alone?"

"Yes," replied the guilty one, "you can't trust anybody nowadays!"

Excursion to Port Renfrew, Wednesday, July 31st. Leave Victoria 8 a.m.

All mussy!

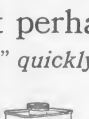
...It's baby's fault perhaps

...but you can "fix it" quickly

DOES the baby keep you looking like a charwoman? He's worth it all, of course, and you can't always dodge! But here's a way to clean up the spots, quickly and easily.

Simply sponge them with Shell Dry Cleaner. This new non-explosive fluid is a wonderful solvent. Cleans silks and fabrics you wouldn't dare wash.

Keep a can of it handy to use in emergencies. Don't let greasy, dirty spots bother you any longer.



At grocery, drug and department stores and Shell stations—½ pint, pint and gallon cans—with the red and yellow label—the Shell colors

A score of daily home uses—cleans shoes, hats, ties, clothing, furs, upholstery—all fabrics

CHANGES IN REGULATIONS ANNOUNCED

Rules Under Migratory Birds Convention Act Are Promulgated Affecting Several Varieties

PROVINCIAL CHANGES NOTED

Under the Migratory Birds Convention Act of the Dominion Government, changes in the regulations bring into effect some new rules relating to game birds. With respect to British Columbia it is provided that ducks, geese, brant and rood may be taken in the eastern district of the province from September 16 to December 31, both dates inclusive. Geese, ducks and coots may be taken in the western district of the province from October 16 to January 31, both dates inclusive.

Black brant may be taken in the western district from November 15 to February 28, both dates inclusive. Band-tailed pigeons may be taken throughout the province from September 15 to September 30, both dates inclusive.

Shore-birds or waders, including only Wilson's or Jack snipe, may be taken in the western district of British Columbia from October 16 to January 31, both dates inclusive, and in the eastern district from September 15 to December 31, both dates inclusive.

Provided, however, that Indians and Eskimos may take scoters in "Siwash ducks" for food at any time of the year, but scoters in flight shall not be sold.

Western district shall mean and include all that portion of the province situate and lying to the west of summit of the Cascade Range and south of the Provincial Electoral District of Atlin, excluding that portion of the Provincial Electoral District of Lillooet situate and lying to the east of a line drawn north and south astronomically of the main railway yard limit of Alta Lake Railway station on the Pacific Great Eastern Railway, and excluding that portion of the Skeena Electoral District (Provincial) lying to the east of a line drawn north and south (astronomic) of the easterly railway yard limit of Sharon on the Canadian National Railway, bounded by the southern boundary of the Provincial Electoral District of Atlin on the north and by Maitland Island on the south.

Eastern district shall mean and include all the remainder of the province.

A close season shall continue until January 1, 1932, on the following migratory game birds: Little brown sandhill and whooping cranes, swans, curlew, greater and lesser yellow-legs, black-bellied and golden plover, and all shore-birds (except Wilson's or jack snipe and woodcock).

Bag limits are further amended by inserting the words "except that in the province no person shall kill in any one season by means of 12 bore woodcock," and immediately after the word "day" in that paragraph of the section beginning "In Nova Scotia," and by inserting the word "Yes" at the end of the said paragraph, and substituting therefor the word "Eight" immediately after the word "woodcock."

Shooting restrictions have been amended by deleting the word "live" in subsection (b), and by deleting the words "and in the Province of British Columbia" in subsection (c) and by adding the words "and in the Province of British Columbia" in subsection (d) and by adding the words "and in the Province of British Columbia" in subsection (e) (Shooting hours, October 16; season, September 15)" in subsection (d).

Posse Fails in Attempt to Find Cougar Reported

Shortly before midnight last night an armed posse laid down its arms and a cougar reported had lasted for hours was ended. First intimation of the cougar's presence in the Cedar Hill district was brought by three schoolboys suddenly to R. J. Coetelo, Quadra Street, at about 7 o'clock last night when the animal leaped across the road about one hundred feet in front of his car on Cedar Hill Road, at the gateway of the Tolmie ranch.

Residents of the district armed with guns and followed by dogs, went in search of the cougar, but after many hours of hard and monotonous work on the land to the south of the Tolmie ranch the search ended and the animal is still free.

It is expected that at daybreak today another posse will go in search of the cougar.

Turkeys and ducks have been disappearing from different ranches in the district, it is understood, all of which is believed to be the work of the cougar.

The animal seen last night is, it is believed, the same cougar as that seen by C. E. Kearsord near the Willows School, Wednesday night.

BODY OF CHINESE FOUND FLOATING IN INNER HARBOR

The body of Quan Cam, Chinese, was found floating in the Inner Harbor, near the foot of Johnson Street at 12.20 o'clock yesterday afternoon by Charles Young, who reported the matter to the police.

Upon investigation it was discovered that there was on the man's room, at 542 Pingard Street, some time before 7 o'clock in the morning and had not been seen again until the discovery of his body was made shortly after noon yesterday.

The remains are resting at Thomson's Funeral Home, awaiting the investigation.

Sue (coyly)—Is it dangerous to drive with one hand?

He (grimly)—You bet. More than one man has run into a church going it.

City & District

Bank Clearings—Clearings at the Victoria Clearing House for the week ending yesterday were $2,942,200, compared with $2,796,655 in the corresponding week of 1928.

Enlarging School—Tenders are being invited for the making of an addition to the North Saanich School in the Saanich riding. The tenders are to be in by noon on August 13.

To Be Welcomed Here—Hon. J. Hinchliffe, Minister of Education, will attend a welcome to the party of Japanese students, forming a baseball team, who will arrive today on an American tour.

Arrives on Visit—Dr. H. L. Britain, of Toronto, arrived in the city yesterday with Mrs. Britain and their daughter, for a holiday during his visit to the Coast. Dr. Britain, who makes his home at Toronto, is managing director of the Civic Research Bureau.

Shipment of Buicks Delayed—H. A. Davis, Limited, local Buick distributor, has been advised that the first Buicks have been delayed en route to Victoria, and will not reach here until next Wednesday. The new models will go on display immediately they reach the city.

Officers Here—Capt. Lloyd W. Gerogerr, of the University of California Coast Artillery Corps, and Lieut. Dean Lunt, of the University of Washington, C.A.C., were visitors here yesterday. A party of army officers will be here on Saturday from Fort Worden for a short stay, according to Capt. Gerogerr.

Confers With Inspectors—Following the close of the work of the examiners of the papers covering the examinations set by the Department of Education, Hon. J. W. Hinchliffe held a round table conference with the inspectors from the various districts who were in the city. Dr. E. J. Willis, Superintendent of Education and Deputy Minister of the department, was also in attendance at the conference.

Bond Lodged—On behalf of the Colwood Park Association, Limited, Mr. E. H. M. Fox yesterday lodged a bond on the Canadian Indemnity Company with Mr. D. A. MacDonald, city comptroller. The bond was in favor of the city in the sum of $10,000 as a surety of faithful performance of contract. The bond was put up in 1927, the opening year of the arrangement, but was waived last year. Mr. Fox states that the Colwood Park Association, Limited, has complied with every provision of the terms of the agreement.

Publicity Men Here—Messrs. T. T. Coleman and A. R. McGill, of the C.P.R. publicity service, are at present in the city. Mr. Coleman recently took over the service, with headquarters on the Pacific Coast, while Mr. McGill is connected with the head office at Montreal, and on a trip to the West. He was formerly associated with the Chronicle - Telegraph in Quebec, serving in the press gallery of the Provincial Parliament there. Mr. Coleman was up to the time of joining the C.P.R. service a member of the staff of The Winnipeg Tribune.

To Place Tablet Marking Start Of Cable Route

The Historic Sites and Monuments Board of Canada has decided upon the erection of a monument at Quesnel to commemorate the beginning of work in 1865 on the Collins overland telegraph line, which was planned to connect America and Europe by an overland line northward through British Columbia, the Yukon and Alaska, with a submarine cable beneath Bering Straits and through the Asiatic part of Siberia to Europe. The late Mr. R. S. McMicking of this city was a member of the first party of men upon this work in the central part of British Columbia. The project was abandoned upon the successful laying of the first Atlantic cable.

Cases Remanded

Charged with being intoxicated while in control of an automobile on Douglas Street, Phillip Tom, an Indian, was remanded in the police court yesterday by Magistrate George Jay until his sentencing in order that an interpreter could be secured. Charged with an Indian, charged with being drunk, was remanded until today for a similar reason.

CANADIAN PENSIONERS

The general meeting of the Canadian Pensioners Association of the Great War, Victoria branch, will be held in the clubrooms, 720 Pingard Street, tonight at 8 o'clock.

So Skinny Couldn't Work. Gains 21 lbs. and New Strength

Miss Doris Brazen writes, "Before I took Ironized Yeast I was so skinny I could not do my work. But now I can work hard all day and rest good all night.

"About 3 months ago my weight was 126 pounds. Ironized Yeast gave me 147 pounds of good flesh. You would think I was another woman. I feel and look so much better."

Stop being "skinny" and always tired. Thousands have gained 5 to 15 pounds in 3 weeks with Ironized Yeast. Scrawny forms change to graceful curves. Blotched skin becomes clear and fresh. "Lazy" feeling vanishes.

Only when Yeast is Ironized is it so wonderfully effective—for iron is needed to build red blood cells, building and strengthening values of Yeast. Pleasant tablets in a handy bottle, safe for everybody. Never cause gas or bloating.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, your money back. If inconvenient to buy from druggist, send $1.35 direct to Canadian Ironized Yeast Co., Ltd., Port Erie, Ont. Dept. 119-BW. (Adv.)

PLEBISCITE AREA CONTINUOUS ONE

Order-in-Council Is Passed to Prevent Recurrence of Incidents Like That at Cobble Hill

The Provincial Government, by Order-in-Council, has set out certain rules which will be followed with respect to the application coming from any section of the country asking for a vote on the subject of whether beer shall be allowed to be sold by the glass.

Under the terms of the Order-in-Council it is set out as follows:

The polling divisions to be grouped in any area for the purpose of taking the vote of the electors on the question of the adoption of section 3 of the said Act shall be only such polling divisions as together form one continuous area.

Where a vote of the electors in any area has been taken, following a petition filed in accordance therewith set out, no further petition shall be entertained in respect of that area until the expiration of a period of three years from the date on which the vote of the electors was so taken.

This situation which is being covered by this Order-in-Council was brought before the Government in the case of the petition from Revelstoke, and a polling division removed from Malakate from that place, which together applied for a plebiscite on the question of allowing the sale of beer by the glass.

Under the Order-in-Council the taking of a vote decides the question of beer parlors for three years' time, during which period no new petition will be entertained.

Chrysanthemum Show Plans Make Progress

Mr. P. B. Robinson, vice-president of the Victoria District Horticultural Society, and chairman of the committee which has in hand the arrangements for a Chrysanthemum Show, to be held about the middle of October, reports that good progress is being made with the drawing up of a tentative schedule and other details in connection with the event. No money prizes are to be given, merely merit diplomas and rosettes for judges. Anyone winning a champion badge three years in succession will receive a gold medal; a two-year win entitles to a silver medal, and a one-year win to a bronze.

Special emphasis is being placed on the value of co-operation in building up interest in the forthcoming show, only an aggregation of enthusiasts, Mr. Robinson urges, can make the undertaking the success hoped for.

Institute for Blind Giving Garden Party

His Honor the Lieutenant-Governor and Miss Mackenzie have signified their intention of being present at the garden party being organized by the local branch of the Canadian National Institute for the Blind, this event will take place on the afternoon of Tuesday, August 6, at "Beverenue," Tod Inlet, graciously lent for the occasion by Mr. and Mrs. R. P. Butchart.

The work of the National Institute for the Blind commands universal sympathy and approval, consequently many people will wish to take their active interest and degree of sympathy by a tangible support by attending this interesting garden party. The superintendent of the Western division of the Institute, Mr. M. C. Robinson, will lend the gathering something about the activities of the society, and they who are anxious to gain a wider knowledge of the aims and objects of the organization will be welcomed.

As far as possible the society has sent invitations to all blind people who could possibly attend. In the event, however, of any having been overlooked, they may secure an invitation by applying at the provincial office care of Mr. Robinson, superintendent of the western division, 208-306 Royal Trust Building, 626 West Pender Street, Vancouver.

LANGFORD DANCE

A very successful dance was held on Wednesday evening from 8 till 1 o'clock, by the Lake campers at Langford Lakeside. After the dance a treasure hunt caused much merriment and excitement. The treasure was eventually found near Colchestream. Mr. Newcombe was convener of the committee in charge of the arrangements.

GYROS OPEN PLAYGROUND

PROVISION FOR NORTHERN PART OF NANAIMO MADE AT COMOX ROAD PARK

Second Effort With Be Directed to Secure Park at Southern End of City

NANAIMO, July 25.—Before a large crowd of kiddies and adults from both ends of the city, the Nanaimo Gyros opened their first children's playground last evening, which is situated in Comox Road Park. The Nanaimo Silver Cornet Band played the opening number, "O Canada."

Chairman Senator Planta, spoke on the work of the Gyro Club in providing grounds for the children to use. He next called upon the president of the Gyros, Mr. George Knarston, who stated that the sum of $1,000 has been expended on the grounds up to the present time, and other improvements would be forthcoming as funds permitted. He went on to say that their funds were low, but their intentions were to hold dances, raffles, etc., which would enable them to put up Nanaimo Playground Number Two. He wished to thank the citizens of Nanaimo for their support and the City Council for financial assistance. Also the Nanaimo Lumber Company, who had given the lumber free.

President Knarston said that while all the Gyros had become "sons of toil" and had worked as regular intervals to get the grounds in shape, special mention should be made of the work done by Gyro Pete Maffeo, who worked there night and day. It mattered not whether it was clearing, erecting the concessions, or mixing cement, Gyro Pete always showed up. The members of the Nanaimo Gyro Club had to give as well as work, he said.

Mayor Busby said it was a great pleasure for the council to help out such a cause and hoped the children would grow up worthy of the Gyro Club. He then declared the playgrounds officially opened.

The question of a supervisor was now before the Gyros. It had been discussed at their luncheon. The Gyros considered it a question for the municipal council to decide.

Over the grounds were open the children lost no time in taking advantage of the pleasures provided (some went for a swim in the pool, while others went on the revolving swing which seemed to be a great favorite. The big climbe had lots of attention, too. The kiddies climbing up on one side and sliding down the other. With a full cargo, the big and little swings swayed to and fro and boys swung on the horizontal ladder, the see-saw and the baby swings, chale and see-saw in smaller sizes amused the tiny tots. The Gyros, wearing their official caps, introduced the novelties.

In the afternoon six hundred kiddies lined up for ice cream, which was served from the grandstand, then had a dip in the tank, many of them with their clothes on.

The committee in charge of the successful venture was led by Pete Maffeo, followed by President George Knarston, supervisor. Other members of the committee are: Pool, Gyros McCarthy, Maffeo and Reynolds; big swings, Gyros Gerald Berry, Baker and Bertram; see-saw Gyros Wrights, Dr. Hall and Kennedy; baby swing, Gyros Dendoff Margesson and Hebden; big chute, Gyros Burton, Devine and Morrison; ocean wave, Gyros Bradshaw Booth and Fraser; baby chute, Gyros Dudley and Planta.

The evening programme was brought to a close with a band concert given in the new bandstand by the Nanaimo Silver Cornet Band.

Giving Recital Tonight

WILL MENELAWS.

MR. Heber Nazmyth, Canadian baritone, now of Pullman, Wash., who will be heard in one of the special numbers in connection with the Provincial Summer School here, will give a programme of classical and modern song tonight at the Victoria High School. Mr. Nazmyth's early musical education was gained in Canada. Then he went to Europe for five years' study in Berlin, Milan and London. In 1912 he was appointed head of the voice department of the University of Illinois, subsequently moving out West to take charge of similar work at Washington State College at Pullman. Immediately on the closing of the college for the Summer holidays, he went on to Tacoma to conduct a five weeks' special Summer course in singing, from there on to Victoria to take up the classes at the Summer School here. The Stegitzer Anzeiger, Berlin, said of him when he sang there that "Mr. Nazmyth possesses a brilliant baritone voice of wide range and singing power which he produces with great ease. His voice retains its purity and flexibility throughout its entire compass." Assisting on tonight's programme with two groups of piano numbers will be Miss Dorothy Morton, who will also act as accompanist.

ENJOY AFTERNOON FETE AT LANGFORD

Affair Arranged by St. Matthew's Women's Guild—Presentations Are Made

LANGFORD, July 25.—The members of St. Matthew's Women's Guild, Langford, held a very enjoyable afternoon fete at Langford Lakeside on Wednesday afternoon. Home cooking and white elephant stalls were managed by Mesdames B. Goucher, H. P. Dack, W. A. Walker and G. A. Cooney in the prettily decorated pavilion. Here, also, a very charming dance programme was carried out by pupils of Miss Florence Clough, as follows:

Dutch dance—Irene Holmes and Christine Schmidt.

Old-fashioned waltz—Vera Holmes, Agnes Finn and Evelyn Todd.

Hayseed dance—Vera and Irene Holmes and Christine Schmidt.

Minuet—Agnes Finn and Muriel Hoit.

Acrobatic dance—Irene Holmes.

Ballet dance—Christine Schmidt, Irene and Vera Holmes.

A hearty vote of thanks was proposed by Mrs. H. A. Hinch, guild president, and seconded by Rev. F. G. Gardiner, who also proposed a vote of thanks to Mr. and Mrs. H. C. C. Bennett. Flowers were presented to Miss Clough by little Dorothy Wellman, to Mrs. Bennett by Rosemary Bullen and to Mrs. Mottmer by Patricia Cooney, while Mr. Mortimer was presented by Miss Jack Simpson, the guild secretary, with a small gift as a mark of appreciation for his work in the church and community during the time that he has been in the parish.

In the grounds at the lakeside Mrs. W. T. Dixon and Miss Faith Brown carried on a very well patronized "hoopla" stand, and the Girl Guides a popular fishpond.

The Misses Margaret Smedley and Eileen Hinks sold buttonhole bouquets. Miss Bingham had donated a prettily knitted jacket, which was won by Miss Berkie, who made the nearest guess to the number of hours it took to knit the jacket. The name of a daintily dressed doll, donated by Mrs. Cockerton, was guessed by nobody, so it was sold.

WB.A. HOLDS ANNUAL PICNIC

NANAIMO, July 25.—Officers of the W.B.A. held an enjoyable picnic yesterday afternoon on Newcastle Island. Although the weather was cool for bathing, sports and games were enjoyed, the winners of the various events being as follows: Wilsal drive, first, Mrs. Dene, second, Mrs. Kirkbride. In the race for seven-year-olds and under, Mary Dene was first, with Anne Sanford second. Ten years and under, first, Sanford, special, Billy Irvine; brass pitching, first, Mrs. Sanford, second, Winnie Fraser, third, Mrs. Connelly; boys, first, Billy Irvine; three-legged race, first, Mrs. McCourt and Mrs. Bulman, treasure hunt won by Mrs. Sanford; prize for best story teller won by Mrs. Foster.

NANAIMO, July 25.—Mr. Frank Brin while at work in Protection mine yesterday, received painful although not serious injuries, owing being bruised badly. He was removed to the Nanaimo Hospital for attention.

GRABS DEVOUR CLAMS EAGERLY

Curious Phenomenon Is Observed in Biddeford Pool, Noted Basin of Clams

BIDDEFORD, Me., July 25.—Biddeford Pool, for several years without the clams that once made it famous, again has a supply that is greater than ever. The return of the clams is a mystery that local fishermen have long discussed without definite speculation.

The pool itself is a great basin, a mile in radius, entrance being gained through a narrows called the Gut, through which the tides race as they ebb and flow. At low water great areas of most prolific clam flats are laid bare. Pool clams have long been famous for their size and succulence. No matter how many bushels the clammers dug, there never seemed to be any diminution in the number of the shellfish.

Six years ago, however, pool clams began to disappear. Bureau of Fisheries experts visited Biddeford Pool but could offer no solution of the mysterious disappearance of clams from the flats. State experts took the matter up, and a proposition to reseed the flats with baby clams from other sections met with such favor that pool residents laid out the sections where they would plant.

Speculation over the situation and its possible remedies passed. The flats were abandoned and to a certain extent forgotten. Now nature has stepped in and done what man planned to do several years ago.

Waldo S. Merrill, a lifelong resident of Biddeford Pool and a retired lobster and fish dealer, offers an explanation which is commonly accepted. He theory is that Biddeford Pool fishermen long made a practice of cleaning out every the catch of fish and loosing the offal on flats at low water to be washed clean again by the incoming tide. This brought the trouble.

Merrill says that when the flats are covered with only an inch or two of water the clams project their heads from their shells above the bottom to feed. This was precisely the stage of tide when, six years ago, a vast horde of unusually large crabs infested the flats. Attracted by the fish cleanings, they swarmed everywhere.

In their scramblings over the flats in the shallow water they came upon the heads of the clams and eagerly snipped them off and devoured them! Other fishermen corroborated Mr. Merrill's explanation.

They say this great army of strange predatory crabs must have come in from the deep sea for some unusual reason—perhaps expressly to annihilate the clams of Biddeford Pool! Once that end was achieved they disappeared and their species has never been seen in the pool since.

Cowichan Lake Road

Miss Annie Dunning was pleasantly surprised on Tuesday evening, when fourteen friends visited her at the home of her parents, Mr. and Mrs. R. Dunning, to honor her eighteenth birthday. The evening was pleasantly spent with games and music. Supper was served by the self-invited guests, who also presented Miss Dunning with several gifts.

SUN TREATMENT IS RESTORING HEALTH TO CHILD CRIPPLES

MARBLEHEAD, Mass., July 25.—Nearly 100 children, from two to ten years of age, are being restored to health by sun treatment at the Children's Sanitarium, located on Lowell Island, at the entrance to Marblehead harbor. The children are afflicted with various ailments and were sent to the island from the social service departments connected with Boston hospitals and the school for crippled children.

Miss Elsie Walkop, formerly in charge of the House Mother service at the Massachusetts General Hospital, is superintendent of the island. Gladys Beardwood, R.N. in one of the nurses. In addition to the regular staff stationed on the island there is a group of volunteer workers. These volunteers come from junior league branches throughout the country, exclusive private schools and prominent women's colleges.

5-Piece Bedroom Suite FOR $95.75

Tells How to Get Rid of These Unsightly and Hard to Remove Blemishes

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Just apply a little of Othine from any druggist or department store and a few little of it night and morning and your friends will see that even the worst freckles have begun to disappear while the darker ones have remained scarcely if at all noticeable. Then an ounce is all that is needed to completely clear the skin and such a beautiful complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove your freckles. (Adv.)

Gibbins Road School Has Annual Picnic

The annual picnic of Gibbin's Road Bundas School was held at Chemainus Beach on Wednesday Leaving at 8.30 in the morning a delightful day was spent, the return being made at 7 p.m. Dancing and supper were served. Besides the parents, Mrs. Hood, Mrs. Williams and Marjorie Williams, Vancouver, Rev. E. M. Cook, and Mrs. E. G. Morse, Chemainus, Rev. W. F. Burns and Mrs. John Bell attended. Through the kindness of friends, oranges, peanuts and candy were provided for the children, the Sunday school providing ice cream and lemonade. Water sports were very popular, also the following programme of races:

Girls under five—1, Clara Wilkin; 2, Geraldine Griffin.

Girls and boys under seven—1, Bobby Wilkin; 2, Jennie Hansen.

Boys under nine — 1, Frank Wilkin; 2, Cecil Clark.

Girls under twelve—1, George Parler; 3, Fred Parler.

Girls under twelve—1, Ina Clark; 2, Clara Hansen.

Peanut relay race—1, Ina, Clara and Rosa Hansen.

Boys and girls race—1, Jazzie Wilkin; 2, Alice Clark.

Ladies running race—1, Mrs. Hansen; 2, Mrs. Griffin.

Ladies walking race—1, Mrs. H. Clark; 2, Mrs. Robson.

SERVICE AT LANGFORD

Services on Sunday at St. Matthew's Church, Langford, will be at 11 a.m. Rev. F. C. Mortimer will preach his farewell sermon.

Just—

one way of economizing—in putting up the Summer cottage on the lot you own down on the shore—in building a garage in the back yard—in making alterations around the home—and that's by looking over the "Used Building Material" classification in the Want Ads. for bargains in good used lumber, plumbing, etc., that you can use.

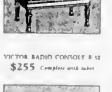
Famous overnight!

Victor's greatest instrument

Only a few days old, but already the most-talked-about musical instrument in the country. Thousands were thrilled by it. Thousands more will crowd the stores of Victor Dealers to hear it. Micro-Synchronous! *Don't miss it! Come early!*

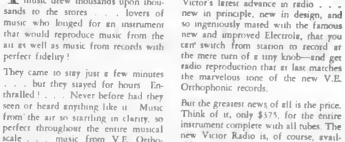
VICTOR RADIO ELECTROLA RS 65

$375 *Complete with tubes*



VICTOR RADIO CONSOLE R 32

$255 *Complete with tubes*



VICTOR FULL VISION ILLUMINATED SUPER-AUTOMATIC STATION SELECTOR—all stations plainly and perfectly visible—just slide knob—and turn for micro-exact adjustment.

THE magic of the greatest name in music drew thousands upon thousands to the store . . . lovers of music who longed for an instrument that would reproduce music from the air as well as music from records with perfect fidelity!

They came to stay just a few minutes—but they stayed for hours. Enthralled! . . . Never before had they seen or heard anything like it. Music from the air so startling in clarity, so perfect throughout the entire musical scale . . . music from V.E. Orthophonic records so golden, so natural, so mellow in tone!

Such is the musical triumph toward which Victor has patiently striven for 30 years — the greatest radio-record instrument . . . by Victor!

Features of Victor's Greatest Instrument

1. *A remarkable new and improved Electrola that reproduces R E Orthophonic Records with thrilling new power—depth—color.*
2. *Micro-synchronous balance every element in micro-exact resonance as any frequency. Select and sensitive to a super-degree*
3. *Improved radio-circuit developed by Victor—unprecedented fidelity*
4. *Two new Radiotrons 245 in the circuit, increased volume—no distortion.*
5. *Exclusive super-automatic full vision station selector as illustrated*
6. *Three distinct units—all scientifically shielded. Quickly removable for inspection.*
7. *Marvelous new all-Victor electrodynamic speaker — reproduces music from the air or record—beautifully.*
8. *Exquisitely designed compact Victor cabinet*
9. *Trademarked "His Master's Voice" The world's most famous guarantee in three words and a picture.*

This amazing duo-instrument presents Victor's latest advance in radio . . . new in principle, new in design, and so ingeniously mated with the famous new and improved Electrola, that you can switch from station to record or the mere turn of a tiny knob—and get radio reproduction that at last matches the marvelous tone of the new V.E. Orthophonic records.

But the greatest news of all is the price. Think of it, only $375, for the entire instrument complete with all tubes. The new Victor Radio is, of course, available separately . . . in a handsome cabinet of original design . . . only $255. Never before in the entire history of musical reproduction have such high quality instruments been offered to the public at these sensationally low prices. *Hear them to-day!*

Miscellaneous Shower

A delightful miscellaneous shower was held Wednesday evening, when Miss Beth King, Grahame Street, entertained in honor of Miss Beatrice Mouat-Jones, whose marriage to Mr. Harold Mitchell will take place next week. The gifts were concealed in two baskets, prettily decorated with tulle and a miniature bride and groom, and presented to the bride-elect by little Irene Birkett. During the evening games were enjoyed, the winners being Miss A. Musgrave and Miss L. Mitchell. Refreshments were served by Mrs. King, Mrs. Reeves and Mrs. Birkett. The invited guests were Mesdames King, Musgrave, Mitchell, Reeves, Crouch, J. Bryant, Radland and Birkett, and Misses A. Musgrave, B. Musgrave, L. Mitchell, W. Beecher, M. Corry and B. King.

* * *

Visiting in Victoria

Mrs. George P. Cyles, of Vancouver, accompanied by her daughter, Miss Gwyneth Cyles, is visiting in Victoria as the guest of Mr. and Mrs. E. H. Rider, Beverley Place, en route via Panama Canal to Florida, where she will place Miss Cyles at a finishing school at Lucerne, Switzerland. Mr. and Mrs. Rider have also as their guest their niece, Miss Inez Rider, of Chicago, who will spend the Summer here, and will later visit in Vancouver as the guest of Mr. and Mrs. C. H. Cyles.

* * *

Returns From Convention

Mr. Donald A. Fraser, who left Victoria last month to attend the annual convention of the Canadian Authors' Association, held this year in Halifax, N.S., as delegate from the Victoria and Island branch, returned to the city on Sunday after a delightful visit to many points of interest in the East. At the close of the convention, which Mr. Fraser found extremely interesting, and very successful, and which took the delegates to Annapolis Royal, as well, he visited Quebec, Montreal, Toronto, Ottawa, Winnipeg and Calgary.

* * *

Sketch Club

The Sketch Club of the Island Arts and Crafts met on Monday afternoon at the home of Mrs. P. F. Curtis, Prospect Place, and in spite of showery weather a number of good sketches were made. The delphinium and roses were particularly lovely. Afterwards, tea was served by the hostess and was greatly enjoyed. On Monday next members are asked to assemble at 12.30 o'clock at the Metropole Hotel to take the stage for the first part of the Journey to James Island.

* * *

Visiting Aunt

Miss Jean Doyle, of Chemainus, is visiting her aunt, Mrs. J. B. C. Fraser, 33 Charles Street, for a month. Miss Doyle motored to Port Alberni on Wednesday, taking her niece and aunt at Chemainus, and has spent about a few days with her relatives in Victoria, left yesterday for her home in the South.

Presentation to Crews

Mr. George P. Bullock, of the staff of the freight department of the B.C. Coast Steamship Service, was presented on Wednesday evening with a handsome China tea service the gift of his colleagues with their good wishes on the occasion of his approaching marriage to Miss Daisy Barvels.

Athletic Underwear

OVE or two-piece lingerie of the athletic type certainly has a place in the scheme of fashion things. It responds to the demand for snug, form-fitting intimate apparel.

Cotiona, synthetic fabrics and silks, in the tailored version, are of necessity very smooth in line and fit.

The all-in-one garment shown is white cotton knit, with pink, blue, green, peach or yellow rayon trimming based on the low back. It is an appropriate model to wear beneath sports clothes and suitback tennis dresses.

A new vest and bloomer combination is seen in sand linen in shown. It is soft and silky in texture, being made of silk and rayon mixture. It has a shaped top and very long shoulder straps so that the garment will not slipped with low-cut frocks.

Instead of having elastic all around the legs of the bloomers, it is used but half way, a detail making for greater comfort. The model is shown in a sun-tan shade and in Sand.

Style changes have effected undergarments for small folk both in fabric and construction. Cotton has become a preferred material. The single garment shown is cut in trunk length and also models the figure.

Leaves for Vancouver

Miss Dulcie Hamlet, who has been spending two weeks with her uncle and aunt, Mr. and Mrs. Llewelyn Thomas, at their camp at Mill Bay, has left for Vancouver to be the guest of Mrs. Jack Hawkshaw, of Burnaby, at their camp at West Vancouver.

* * *

Handkerchief Shower

Mrs. J. A. Walker, St. Patrick street, was hostess at a tea party and handkerchief shower yesterday afternoon in honor of Miss Katherine Jackson, whose wedding will take place shortly. Mrs. R. F. Chambers poured the tea at a table charmingly arranged with bowls of Dorothy Perkins roses.

Weddings

McLELLAN—BEWELL

A quiet but pretty wedding took place at the home of the bride's mother, 631 Vancouver Street, on Tuesday, July 16, when Anna Evelyn, youngest daughter of Mrs Bewell and the late W. H. Bewell, became the bride of Mr. W. Earl McLellan, son of Mrs. Ella McLellan, Boston, Mass. The ceremony was performed by Rev. De Sipperell, the bridal party standing beneath an archway of roses, lyre and spirea. The drawing-room was beautifully decorated for the occasion. The bride was attended by her cousin, Miss Terry Andrews, as maid of honor, and her niece, Miss Edel Wilson, as bridesmaid. Mr. Keith Parsons supported the groom. The bride entered the drawing-room on the arm of her brother, Mr Ross E. Bewell, to the strains of Mendelssohn's Wedding March, played by Miss Audrey Bonner. Immediately after the ceremony a delightful wedding breakfast was served. Mrs. M. M. Wilson, sister of the bride, presiding at the tea table. Miss Ann Curtis cut the cake, assisted by Miss Gwen Hall. Mr. and Mrs McLellan will reside at 1343 Richardson Street.

Mrs Malaprop: "I think Napoleon was a far greater soldier than Bonaparte."

Friend: "But they are identical."

Mrs. Malaprop: "That may be, but I always contended that Napoleon was by far the more identical of the two."

Fashion Fancies

By Marie Belmont

You are on the crest of every wave when you sail away in a Summer traveling coat of loosely woven tweed. The wanderer is finding new coat adventures in novelty wools, cashmere and suede fabrics. Now the tide of interest is centered on tweeds. There's never a dull moment with this popular fabric that runs the gamut of colors and weaves, but light, uncertain hues often revealing yellow threads take the helm of the style boat.

Many models are furred as is the swagger model shown here. A straight line coat, pocketed and ruffed, offers protection from sea breezes with its shawl collar of fox.

CHAPTER XI

"How are a number of things this morning?" she timed Richard Lame's voice asking.

"Oh," she said, "I'm as happy as kings—almost."

"And hungry?"

"Been too busy to think about it."

"Then you have no dinner engagement?"

"None."

"In which case, come down. I will buy you rich and gaudy food. I might even go ham and eggs."

"I'll come. I want to talk to someone. I'll be down in two shakes."

She had been glad to hear his voice, curiously glad.

She regarded him as a friend, and today he was especially welcome.

"The most gorgeous thing has happened," she said when there were on the street.

"Such as a proposal from a bona fide Russian count?"

"No. I've been noticed. He saw me the other night, and I'm asked to dinner."

"I can hardly believe it. Did he send a note by the head waiter? Or concealed in a bunch of violets?"

"And he thinks I'm a find."

"He's right. No question about it. You're not only a find, you're a discovery. You wouldn't say Columbus found America."

"I shall get at least ten thousand a week, and have my picture on the cover of a magazine."

"That," he said judicially, "smells like the movies."

"It is the movies."

"And the Columbus? Who owned the discovering eye?"

"I never saw him, but that man is going to have things happen to him by way of vamping that will make him think he's fallen into an ocean of ladyfine charm."

"Already I hear him yell for a life preserver. Did you mention his name?"

"Colburn."

"And where," asked Lame very quietly, "did this guard in the world of creative art unleash his searchlight upon you?"

"I was at dinner the other night with Mortimer Blade, and he saw me then. And he called Mr. Blade up and burbled, and asked me to dinner, and I'm going, and the Rolls-Royce is going to be pink with mauve upholstery and a Nubian chauffeur and a Russian wolfhound with a diamond collar."

They were opposite an entrance to the park, and he, without asking her permission, took her arm and veered her across the street and to a bench sheltered by a clump of shrubbery.

"The general idea was," he said, "that this thing requires discussion. So sit down and discuss. Colburn invited you to dinner? Alone—or a party?"

"Does it make any difference?"

"Possibly not ultimately," he said. "One never knows"

"Mortimer Blade is going," she said.

"Doubtless," said Lame, "at one of Colburn's many apartments. He doesn't believe in letting his Fifth Avenue apartment know what his eighteenth Street apartments is doing. Who else?"

"Can you imagine a girl refusing?"

"No," he said, "and that's the devil of it."

"It's the great wonderful chance," she said.

"Yes," he answered very quietly. "I suppose it is."

"You disapprove?"

"Colburn is hardly my idea of a proper chaperon for a debutante," he answered steadily.

"What man would be? Is he any worse than a million others?"

"He's a naughty boy."

"The difference between him and others any other man I may go out in the evening with," said Martha, "seems to be in the matter of achievement. He seems to have got away with about what they all would like to get away with."

"And also," said Lame, "he has acquired the belief in immunity. He's gone often to the well and never been chipped. He believes he can't be broken. Therefore he makes riskier trips than others."

"Which," said Martha, "adds to the piquancy."

"Also," said Lame, "a good many men play the game—in a certain minor extent. Almost all of us have certain scruples and inhibitions and smothered decencies. Colburn rates as a moral moron. He never heard of any rules, and if he did he would enjoy evading them. I'm told he's a ruthless sort of person, who, more or less, lets 'em drop where he tires of 'em—if you follow me."

"Well," asked Martha, "what of it? All I'm doing is dinning with him."

"That," said Lame, "is an idea others have had."

"You're trying," she said, "to frighten me. Why?"

"I am," he said. "I'd like to scare you almost to death. And why?" He paused and looked across the park at distant Fifth Avenue. Why?"

"Yes," she said, a trifle acidly, "after all, what is it to you?"

"Mortimer Blade will be there, too?" he asked, disregarding her humor.

"Yes."

"I didn't know Blade circulated in his orbit. But he would, of course, might have arrived at it by pure luck." Mortimer and Colburn!"

"Is it true your brothers rather roused up Mr. Blade on an occasion?"

"Yes."

"And has Mr. Blade expressed himself as gratified?"

"He has never mentioned it to me."

"He wouldn't," said Lame. "But I can guarantee he remembers it."

"You don't like Mr. Blade, either."

"I wish very much," he said gravely, "that I might admire Mortimer Blade. But you wanted to know what business it is of mine if you dine with the wolves and come out wearing the tooth marks."

"I did," she said with some exasperation.

"Well," he said, "you probably wouldn't believe it if I told you that, less authority than myself, but the fact is I love you."

"What!"

He nodded. "Colburn will tell you the same, doubtless. But it won't mean the same thing. On the contrary. What I mean by love and what he means by love are not to be confused. I mean the sort your father had for your mother. Which, "tis, is a rather good sort. Not ultramodern, perhaps, but with poise to recommend it."

Martha was staring at him disgusted with astonishment. She could not believe her ears. Richard Lame declaring his love for her! Never by word or manner had he hinted at such a possibility.

"Are you," she demanded, "telling me seriously that you love me?"

"Exactly that," he said, "which does not, perhaps give me the right to be interested in your affairs, but it does certainly interest me in them."

"It's absurd," she said. "You can't—not really."

"I love you," he said, "and, being an old-fashioned sort of person, I accompany that with a request to marry me." He smiled gravely. "I can support a wife."

"Not this one," she said, suddenly angered, she could not have told by what. "Of course I shan't marry you—nor anyone else."

"Didn't expect it. Was just explaining my position," he said.

She stared at him. "You're quick enough to say things about other men, about Mr. Colburn and Mr. Blade. But you don't do much explaining about yourself."

Lame turned his face toward Martha with a sudden tense movement. "And what," he asked, "do you mean by that?"

"I have studied French," she said. "A not unreasonable accomplishment, so," she said, "I know that name means blade."

"It does, indeed."

"You hinted that Mortimer might carry a grudge against my family."

"I did."

"Might not any man whose name is Blade—whether he has translated it for purposes of his own or not—bear a grudge against any Bundy?"

"He might, I suppose."

"You are a Blade."

"Yes."

"Why did you change your name?"

"Because I felt that a man by some other name might smell the sweeter."

"Is Mortimer Blade your brother?"

"I thought I remembered two boys," she said. "Well, whatever you may say against Mortimer, he doesn't live under an alias."

He smiled gravely. "An alias never prevented a man from being—"

"But it might prevent a girl from trusting," said Martha.

"That," he said, "is certainly a point of view. However, I am glad I told you. You will remember it. It is the sort of thing no girl ever forgets. And, in spite of my alias, you will remember the time we have spent together and my manner toward you. And that will engue for me. I am quite sure you will remember that I have played the game—even under the name of Lame. When you are dining with Colburn tonight I am sure you will remember me. It will be an excellent thing to be reminded of a decent sort of love at that dinner table, and who knows but it may be a general benefit?"

"What ever made you think I would marry you?"

"I didn't think so."

"Did you think for a minute I would take so much trouble to get untangled from one family to get myself into another?"

"No."

"Then why did you tell me?"

"Because you asked me. And that's that. But I do wish you would disappoint Colburn tonight."

"How silly! Of course I shan't."

"Then," he said, "when you get there, remember one thing."

"What is that?"

"That you are a Bundy. There are certain traditions, you know. Even if I am a Blade, under an alias, I can admire the Bundys as an institution."

"I tell you," she said, "I am through with the family—for good."

"In which case," said he, "suppose we eat."

"No," she said, "You've upset me. I don't want to eat. Please take me back to the hotel."

"Your merest wish is a command to me," he said, "and this one results in a considerable saving. I am not poor, but I welcome any reasonable economy."

They arose and recrossed the street, not speaking until they stood again in the lobby of Martha's hotel. There she looked up into his face, and not a little curiously made her eyes brighter.

"Good-bye," she said, "and I didn't mean to be disagreeable."

"You weren't," he said, and he handed her into the elevator.

In her room she sat on the edge of the bed without removing her hat, and stared out of the window.

"I wonder," she asked herself, "if he really means it? Or was it just his way of talking?"

(To Be Continued)

GREAT U.S. CATHEDRAL

WASHINGTON, D.C., July 25.—A new $3,000,000 building programme for the construction of the Washington Cathedral has been announced by Rt. Rev. James E. Freeman, Bishop of Washington. Starting this programme, the cathedral chapter has authorized a $250,000 contract for the purchase of 50,000 cubic feet of stone to begin the building of the north and south transepts of the cathedral.

Bishop Freeman said the chapter hoped the construction will be completed by 1932 in time for a religious commemoration of the 200th anniversary of George Washington's birthday. The north and south transepts of the cathedral will form the fifth unit of the cathedral structure.

The transepts are the arms of the cathedral which is cruciform in shape. The measurements from the north wall of the north transept to the south wall of the south transept will be 313 feet. The width, including the two flanking aisles, will be 105 feet. The height, from floor to vaulting, will be ninety-five feet.

In their decorations the transepts will have an important part to carry out the elaborate scheme of Christian symbolism which has been worked out for the cathedral. Each will contain a great rose window. The window in the north transept will depict "The Last Judgment," while the subject of the south window will be "The Church Triumphant."

BARNES LEADS FIELD IN CANADIAN OPEN GOLF

Joe Dundee's Inglorious Reign as Welterweight King Comes to End

Battered and Beaten Champ Fouls Jackie Fields in 2nd Round

Spectators Boo and Hiss Unpopular Welter King for Poor Showing—New Titleholder Proves Right to Crown

By H. G. SALSINGER

Written Exclusively for The Colonist and the North American Newspaper Alliance (Copyright, 1929, by the North American Newspaper Alliance)

FITZSIMMONS ARENA, DETROIT, Mich., July 25. — Jackie Fields won the welterweight championship of the world from Joe Dundee tonight on what the record books will call a foul. It was the way he chose for leaving the welterweight ranks. It was the easiest way—the alternative facing him was a knockout.

The end came in the second round, after one minute and fifty seconds of fighting. Fields, who had rushed the champion all over the ring in the first round and who staggered him with rights and lefts to the jaw and heart, continued his rushing attack all through the second

A wide left swing found Dundee's jaw, and as he staggered back with his guard lowered, Fields smashed home the left, shooting straight from the shoulder. Dundee dropped flat on the canvas.

Referee Elmer (Slim) McClelland started the count. As he reached three Dundee got to his hands and knees pulling himself across the ring to the ropes on the other side He managed to regain his feet at the count of eight.

CHAMPION HELPLESS

Fields rushed from a neutral corner and continued the attack. Dundee, staggering and helpless, backed away. He tried to cover but Fields, brushing aside Dundee's left, drove in his right Dundee's guard sank and a fusillade of rights and lefts sent him staggering against the ropes.

Dundee broke loose but Fields was on top of him Joe dropped again He rolled over on his side as the referee, waving his arm, shouted the seconds.

At the count of seven Dundee managed to regain his feet He backed into a corner, Fields after him. Fields' two fists were moving in rhythm, most of the blows landing Twice Dundee started to go down but he managed to find the ropes and prop himself up.

Dundee slid into a neutral corner. Fields was in front of him, hammering away. Dundee started to sink to the canvas floor. Suddenly his right came up He caught Fields in the groin. Fields reeled back, holding his groin. The referee was undecided Fields looked at the referee and then at Dundee

LANDS SECOND LOW BLOW

As Fields returned his attention to Dundee the champion brought up his right again. This time he landed in Fields' groin with all he had left. Fields doubled up and sank to the floor, writhing in agony. It was the end of the fight.

So departed Dundee from the ranks of the boxing champions He held the title two years During that time he was beaten four times, knocked out once and thrown out of the ring twice. He managed to hold his title because he forced his opponents to come in at catchweights.

Tonight he met a fighter who was his superior every minute of the fight.

As the first gong sounded Dundee trotted out of his corner and advanced on Fields It was his one aggressive move of his last fight as champion. Fields caught him coming in with rights and lefts to the face which staggered him, and Dundee was beaten from that moment on. He kept retreating. His guard was low and Fields kept hitting high. He never hit below the heart Most of his blows landed in the face and on the jaw.

Dundee had no defence for Fields' attack. His guard rarely came up. When it did the attempt was awkward. Fields knocked the guard aside or punched between Dundee's arms.

AGGRESSIVE ATTACK

Fields' attack was the most aggressive a welterweight has shown in a championship fight in the last decade It was an attack before which Dundee retreated in bewildered fashion.

This was Fields' nineteenth fight as a welterweight. He won all of them, ten by knockouts, and tonight, for the first time in his career, he won a bout on a foul.

As Dundee, battered and beaten, left the ring the crowd hissed and booed—his defeat was as inglorious as his reign.

Fields, in charge of a doctor, was carried from the ring and to his dressing-room, passing through a wildly cheering throng

Thus was a new champion crowned.

ROGERS HORNSBY MAKES TIDY GAIN

Chicago Cubs' Swatsmith Raises Average to .365—All Other Active Ones Take Wings

Half of the Big Six was kept idle by weather yesterday, but the other half did enough hitting for the full membership Jimmy Foxx, the leader, registered a two-point gain by hitting two home runs in three times at bat. He also scored four runs Rogers Hornsby got three out of five to lift his batting mark three points to .365, while Mel Ott went up to .325 with two out of four A semi-official revision in the figures removed one time at bat from Ruth's figures, adding two points to his average.

ROGERS HORNSBY

THE STANDING

	G	AB	R	H	Pct
Foxx, Athletics	93	333	83	130	.390
Manush, Browns	92	379	64	145	.383

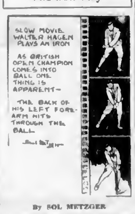
Tip on Hagen's Great Mid-Iron Play



By SOL METZGER

A straight and firm left arm must hit an iron, and not one that is bent at the elbow.

How does Hagen get such uncommon accuracy with his long iron shots? One is asked that time and again. Of course, it's a matter of pounding the face of the club down into and through the ball, taking a bit of turf after contact, with this club face at right angles to the line of flight all through this contact.

Note Hagen play the shot One thing is apparent. It is that his straight left arm hit seems to be made with the back of the whole left forearm. Try hitting your irons that way. Smash through as though hitting with the entire back of the left forearm. And smash on through on the line of flight after the ball has been hit It will add materially to your accuracy with this very important stroke. Next—Farrell's head.

Paddy Harmon Breaks Ticket Sellers' Strike

CHICAGO, July 25.—Nine thousand perspiring fight fans who assembled last night to watch Herr Max Schmeling, German heavyweight, make his debut, were forced to stand outside the Chicago Stadium while Promoter Paddy Harmon "broke" a strike of ticket sellers

The difficulty arose when Harmon insisted upon using his own ticket sellers, which caused employees connected with the ticket sellers' and ushers' union to walk out. Harmon called upon friends for assistance in the emergency and after a short delay the doors were opened.

Touring Cricketers Defeat Salmon Arm

SALMON ARM, B.C., July 25.—The touring British Columbia Cricket Association cricket team defeated Salmon Arm by a margin of sixty-six runs in the second game of their Interior schedule on Wednesday Batting first, the visitors were dismissed for fifty-three, but Salmon Arm could only reply with forty-eight At their second attempt the tourists made 104 and then put out the home team for forty-three Salmon Arm handed their affiliation to the British Columbia Association to Secretary H S Radcliffe, and thus emulated Kamloops in joining the provincial body

Leo Lermond, who has turned a mile at 4 13, is a brother of George Lermond, former national champion at the five-mile distance.

MISSION CLUB INSURES PAIR FOR $100,000

Officials Take Out Accident Policy on Slade and Finn, Two Brilliant Infielders

FORMER CLEVER AS LYNN LARY

(Special to The Colonist)

NEW YORK, July 25. — "Old Scout" says that the announcement that the Mission Club of the Pacific Coast League had taken out $100,000 accident insurance on Slade and Finn, indicates that this brilliant pair of infielders is to come up to the big leagues next season. Both are batting well beyond the .300 mark. Finn is a New York boy, who passed up a chance at making a name for himself in the ring to become a ball player. Slade is a heavy-hitting shortstop, quite as clever as Lyn Lary, the boys from the West say. This pair probably will go to one club, and the report is that Pittsburgh is most interested in their future

LYNN LARY

The fact that Mickey Cochrane, labeled the $540,000 catcher by the scribes of the Quaker City, came from the Portland club, lends interest to the story that Tom Turner, who owns the franchise, has purchased a young player by the name of Joe Trembly, from the Topeka club, for fall delivery. It was Turner who hunted in the bushes and dug out Mickey Cochrane and sold him to Connie Mack. It is believed that Trembly will eventually go to the Athletics, though he may get two years' seasoning at Portland. The price paid for the former high school catcher, who is playing his first season in professional baseball, was so large that the club was able to clear all debts and have some cash in the treasury

A's VALUE "MICKEY"

Cochrane's half-million appraisal comes about by a series of ifs and buts. The A's believe that Cochrane's presence on the team is needed to insure each one of $6 000 as his share of the big dough. That makes him worth $180,000, counting thirty men in the slice. Cochrane is worth as much to the Yankees and the Browns, too Both of these clubs can finish first if Cochrane remains on the injured list. He represents $180,000 to them, too, which multiplied by three puts his paper value up to $540,000.

When Cochrane reads of this appraisal he will go into a long huddle with Connie Mack before he signs his next contract.

PARFITTS EVEN UP SOFTBALL SERIES

Defeat Eurekas in Second Game of Play-Offs, 16-15, in Free Hitting Affair—Final Game Monday

In a free-hitting affair Parfitt Brothers defeated Eurekas, city titleholders, last night at Central Park, 16-15, in the City Softball League play-offs, to even the series at one all.

The teams took the field in a steady drizzle and from the first frame to the last errors galore crept into each team's play The slippery grass in the outfield caused the daisy patrolling brigade of both teams to misjudge fly balls and resulted in many unearned runs crossing the plate

Parfitts took an early lead, which they clung to until the seventh inning when their opponents nicked Dowds for six runs and came within a run of tying the count With both squads playing careful ball the remainder of the battle, the score sheet stayed unaltered

Owing to the ladies occupying the Central Park grounds this evening, the third and final game between these teams will be played Monday night.

LADIES' GAMES

Harmony vs. Axioms, upper diamond, Central Park. Umpire, Barnswell.

Rainbows vs New Method Laundry, lower diamond, Central Park. Umpire, Saxton

RIFLE SHOOTING

Captain Robinson, of the Fifth Brigade, topped the marksmen in the weekly shoot held at Heals Ranges yesterday by turning in a score of 99 three points better than Gunner T Hall, who had a 96 Robinson made a splendid score on the 500-yard range by piling up a total of 35 S-M Darling Major P Richardson and Sergeant A E Ashe were tied for third place with scores of 95

Scores follow

Captain Robinson	99
Gnr T Hall	96
S-M Darling	95
Sgt A E Ashe	95
Major P Richardson	95
S-M Ruffell	93
P G Taylor	93
Captain B Gadsden	91
Captain Henson	88
Pte Boyd	86

New Racing Association Being Formed With Local Capital

ARTICLES of incorporation for the new company, to be known as the Collows Park, Ltd., which will take over the Colwood race track and the hundred acres of land included, now owned by the Victoria Park Racing Association, are being drawn up today. Local capital is entirely involved in the new deal and most of those who are making the investment and who will conduct racing in this vicinity in the future are those who now form the Victoria Park Racing Association.

The Colwood race track will be sold under an agreement of sale, with a substantial initial payment. By the deal the claims of the debenture holders in the Victoria Park Racing Association, whose interests are now being looked after by a receiver, will be satisfied. The court order permitting the sale of the track to Collows Park, Ltd., was made on Monday last.

FRANCE STIRRED OVER DAVIS CUP TENNIS FINALS

Unprecedented Interest Being Shown in Republic This Year — Tilden to Meet Cochet

LOTT BILLED TO TAKE ON BOROTRA

PARIS, July 25.—Just as America would have it, and with France entirely satisfied too, the Davis Cup forces of two great tennis nations will swing into action tomorrow in the opening singles battles with "Big Bill" Tilden facing Henri Cochet and George Lott in the opposite court from Jean Borotra

Bill Tilden

The draw for the challenge round for the historic trophy was staged today in all solemnity in the presence of the players and diplomats of both nations.

The veteran Tilden, still America's chief hope for victory, will face Cochet, world's champion, in the crucial duel of the day at 4:30 p.m. (7:30 a.m. Victoria time), after Lott, fiery youngster, facing the challenge list for the first time, opens the series with the veteran Borotra at 2.15 a.m. (5:15 a.m. Victoria time)

BOROTRA FAVORITE

In the French mind Borotra is a 2 to 1 favorite to defeat Lott, twenty-two-year-old youngster from Chicago. Despite recent defeats, Tilden's reputation still carries such weight in France that he is quoted at even money with Cochet, who whipped him at Wimbledon a few weeks ago

The pairings as drawn today will be reversed for the second singles matches to be staged Sunday. Saturday Wilmer Allison, young Texan, and John Van Ryn, former Princeton ace, will engage the French in the doubles combat Although France's doubles team will not be announced until tomorrow, Cochet and Borotra are expected to carry that part of the cup defence burden also.

With America's chances of regaining the cup, which was lost to France two years ago, increased because of the illness of Rene Lacoste, co-partner with Cochet in domination of the men's tennis world for three years, the French public is showing unprecedented interest.

COCHET CONFIDENT

Tilden and Cochet exchanged good-natured comment after the result of the draw put them together for the opening day.

"I hope to reverse that Wimbledon score, Henri," said Tilden.

"I'll make you a small bet you don't," responded Cochet.

McLARNIN OFFERED CHANCE AT TITLE

Vancouver Boy May Get Shot at Welter Crown in Detroit Ring Next September

VANCOUVER, July 25.—Charles "Pop" Foster, manager of Jimmy McLarnin, received a wire this morning from Floyd Fitzsimmons, of Detroit, offering Jimmy a match for the title with the winner of tonight's title bout between Joe Dundee and Jackie Fields. The bout would be held in the big new outdoor arena in Detroit in September.

Foster has replied stating that he will accept the match, providing suitable terms are arranged Jimmy has a two-round knockout of Fields to his credit, and has an idea he can repeat the dose.

Fitzsimmons has signed contracts with both of tonight's participants agreeing to fight any man whom the promoter might designate. Dundee is said to be in fine shape just now, and Foster believes he still will be a champion after the Detroit battle tonight.

Fine Programme Arranged For Brentwood Regatta

Annual Aquatic and Land Sports Will Be Held Near The Anchorage Tomorrow Afternoon Starting at 2 o'Clock

In a sun-flecked, salt water basin, lapping the base of the rugged Malahat and fringed by the densely-wooded slopes of the Highlands, lithe-limbed adults and vigorous youngsters will cavort in the waters of the Saanich Arm on Saturday when the fourth annual sports regatta takes place at Brentwood Bay.

The Brentwood regatta is becoming more popular each season and with the community spirit developed to the highest degree it is confidently anticipated that the affair this year will prove to be the most successful that has yet been held.

W. O. Wallace, president of the regatta committee, called a special meeting Tuesday night at The Anchorage when a programme of events was drafted and final arrangements completed for the staging of the event.

It will be a land and water celebration and the enthusiasm displayed is an indication of the keen rivalry that will mark the various events.

The grounds at the rear of The Anchorage will be used for the field events and a course has been marked off and buoyed for the water features.

An attractive series of field and aquatic races have been arranged to interest all those athletically inclined, while additional features will include wading, guessing and nail-driving competitions and a greasy pole.

Useful prizes will be presented for all events and these will be presented by Mrs. W. O. Wallace at 6 p.m. in the tea gardens

There will be a children's entertainment from 7 to 9 p.m. with a special committee assigned to see that the little tots have a good time preliminary to the grand finale

This will take the form of a dance from 9 to midnight on the dancing pavilion at The Anchorage, to which the general public is invited

In the past seasons a large number of city residents have taken advantage of the opportunity to attend the regatta and the dance is always a most popular feature

There will be a tombola and the best waltzer fox-trotter and child dancer will receive prizes

Stages will leave the city for Brentwood at 1 10 and 2 p.m. and 6 30 p.m., while a bus for dancers will leave Brentwood at midnight.

The regatta officials follow

President, W O Wallace, secretary, Mrs George C Grant; treasurer, J Postgate Fowler; starters, A. Richardson and P Marchant, judges, T Cowden, W Winter, J. A. Higgs and A. S Woolard; announcer, H W Goggin, programme committee J. H Peard and W P. Marchant, sports committee, A Richardson, George C. Grant, A S Woollard, Bert Marchant, Walter Wilson; prize committee, Mesdames Armstrong Grant, Woolard; ladies' committee, Mesdames Alexander, Woolard, Grant, Armstrong, Wallace, Thompson, Richardson, Miss A Richardson, Miss M Driver, Mesdames Freeman, Peard, Brandon, Jones H. B Ruth, dance committee A Jones Miss A Richardson and W Wilson.

The racing events follow

"LONG JIM" RETURNS PAR-BREAKING CARD OF 66 ON FIRST ROUND

Retired Professional Leads Select Entry by Three Strokes—Three Tied With 69's for Second Berth—George Von Elm Tops Amateurs With Card of 71

Leo Diegel Well Up With Score of 70; Hagen Uses 73 Strokes; Smith Takes 72

KANAWAKI, Que., July 25.—"Long Jim" Barnes, retired professional golfer, of New Rochelle, N.Y., showed little respect for par over the Kanawaki course today, and with a great 66 led the field in the first round of the Canadian Open golf championship.

Little Ernie Wakelman, twenty-nine-year-old pro from Brockville, Ont., a product of English golf by way of Hoylake, occupied second place. Two other subpar scores, a pair of 69's returned by Tommy Armour, Detroit, and Billy Burke, Westport, N.Y., represented a tie for the "place" position.

An overnight rain took some of the roll from the ball Emmett French, Southern Pines, N.C., Leo Diegel, the defending champion from Mexico, and George Eldor, Montreal pro, equaled par, and everybody else was near

"LONG JIM" BARNES

Retired New York pro, who led the field in the first round of the Canadian open golf tournament yesterday with a brilliant 66 Barnes was three strokes in front of his nearest rival.

George Von Elm, Detroit, led the amateurs with 71, a mark equaled by Bill Mehlhorn and Joe Kirkwood. The two Smiths, Macdonald and Horton, stood at 72 with Bobby Burns, Montreal pro; C. F Perkins, West Hartford, and Charlie Lacey, Pine Valley pro There were many 73's, including Walter Hagen; Ross Somerville, the Canadian amateur champion, George Cummings, Toronto pro, Al Wetrous, John Golden, Willie Cox; Willie Lamb, Toronto, Canadian Professional Golfers' Association champion; Harry Towlson, Ottawa; Joe Turner; R. J. Batley, Kent, Que., and Jack Forrester

Gene Sarazen required 74 strokes and Henry Ciuci, Bridgeport, Conn., took 76. Abe Espinosa, Chicago pro, took 79.

FINAL GAME IS CARDED TONIGHT

Wests and Marigold to Meet for Westholme Knockout Trophy—Curtain Will Ring Down

The curtain will drop on the Westholme Softball League tonight when Victoria West, league champions, and Marigold, last year's titleholders, meet in the final round for the Knockout Cup at Victoria West Park at 6.30 o'clock The suburbanites will take the field as defending champions and with high hopes of retaining the silverware they won last year from Colwood Wood Company.

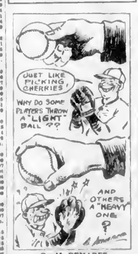
When the last man is put out the 1929 season will go down in the league's records as the most successful in its history, both financially and otherwise The grand finale will be held in the near future in the way of a monster dance and presentation of prizes to the winning teams.

L. Jones will take the hillock for the Wests and Doug Banks will complete the battery, while Thomas is expected to do the heavy work for Marigold, with Tillyer on the receiving end Laurie Wooster and Norris Kerr will act as umpires, and the teams will be chosen from the following

Victoria West—D Burnett, D Munro, H Youson, I. Spence C. Wallace, D. Banks A Wagland, J. Carmichael, S. Smith, K Thompson, L Jones, V Jones, R. Pepin and T Burnett.

Marigold — E Pinchback C. Thomas, E Hanbury, S McKenzie, J Patterson, H Rowe, J. Tillyer, J Roach, D Paine, H Robertson, A McPhee and K. Dempsey.

Even the Heavy Ball Spins a Little



By AL DEMAREE

(Former Pitcher New York Giants)

In a recent article I spoke of the strange fact that some players, throwing a ball with apparently identical speed and distance, throw a ball that is light as a feather when caught, while others "handcuff" the receiving player's hands with a ball that is "heavy as lead"

Walter Dunsing, of Brooklyn N.Y., claims he has the scientific solution

"You certainly know the pressure of air," he writes. "A ball without a spin to push its way through the air and to travel at a certain speed requires more force than a ball with a spin

"A ball with a spin 'rolls' through the air and thus receives little repulsion from the air and less force is required to make it travel at a certain speed.

"If any 'heavy' ball thrower would put a spin on the ball he would overcome this fault"

Fair enough but it doesn't entirely answer my original query, because I have seen notoriously "heavy" ball throwers throw a ball that spins

What's the answer?

SONS OF CANADA TO MEET EAGLES

Bill Holness Will Heave for Tribe—Curtis Expected to Oppose Him

Bill Holness youthful slab artist, will go to the mound against his former teammates at the Royal Athletic Park tonight, when the Eagles battle the Sons of Canada in a Senior Amateur League fixture at 6 15 o'clock

Manager Jack Bacon of the Canadians, is expected to use the veteran southpaw, Jack Curtis, against the feathered tribe

Following tonight's game, only one more fixture remains on the thirty game schedule, and this will bring together Sidney and the Jokers' on Monday night.

CHICAGO BOLSTERS LEAD IN NATIONAL FLAG HUNT

Ten Local Marksmen Will Represent B.C. At D.C.R.A. Meeting

Sixteen Will Make Trip From British Columbia —Bisley Men Will Join Team at Ottawa—Will Visit Toronto

Nine of the first eleven positions on the British Columbia rifle team to visit the Connaught Ranges, Ottawa, next month, will be Victoria marksmen. Of the five who will make the trip, three are from the Mainland and one from Victoria. The fifth place has not yet been decided.

The personnel of the team is as follows: Major Fred Richardson, O.B.E., 5th C.A.A., Victoria; Sergeant Sammy Watson, 16th Canadian Scottish, Victoria; Q.M.S. A. E. Evans, 11th R.C.O.C., Esquimalt; S.M. W. H. Ruffell, R.C.E., Esquimalt; Sergeant A. Caplin, Vancouver Regiment, Vancouver; Captain W. E. Tapley, 16th Canadian Scottish,

Semi-Finals Reached In Canadian Tennis

Two Canadians and Two Americans Left in Men's Singles—International Final Will End Women's Championship Singles

TORONTO, July 25.—An international match between a Canadian and a United States player will be the finals of the women's singles of the Canadian Tennis championship tournament was assured as the result of today's play. In the men's singles semi-finals tomorrow there will be two international matches.

Frank Shields, of New York, ranked tenth in the United States, will play Crocker, Montreal, in the upper half of the semi-final tomorrow, while Johnny Doeg, of Santa Monica, Cal., will meet Jack Wright, of Montreal.

Miss Ollive Wade, Toronto, and Mrs. A. F Reisz, Saginaw, Mich., will be the women's finalists as the result of their semi-final victories today.

Mrs. Reisz defeated Mrs. G. E. Gray, Miss Wade's sister, 6-4, 6-1, in the semi-final today. Miss Wade, who recently won the Ontario Junior title, won over Mrs. E. F. Coka, Toronto, 6-0, 6-4, in the other semi-final.

Crocker entered the semi-finals of the men's open singles by defeating the veteran New Yorker, P. C. Bagg, in the quarter-finals, 6-3, 6-3, 6-1, 6-3.

A GREAT MATCH

Jack Wright withstood a determined challenge when he defeated Gilbert Nunns, Toronto, No. 3, in a gruelling five-set match, and also entered the semi-finals. The score was 6-3, 1-6, 6-1, 2-6, 7-5.

Shields defeated Walter Martin, Regina, Sask., 2-6, 6-2, 6-3, 6-3.

Shields defeated Charlie Leslie, Montreal, 0-6, 6-1, 6-0, 6-1, 7-5.

Mrs. H. L. Bera, and Miss Rykert, of Ottawa, won their way into finals of the women's doubles by defeating Mrs. F. V. Woodbury and Miss McCurrie, Ontario champions.

VACATION SCHOOL WILL CLOSE TODAY

The closing exercises of the Church Vacation School, which has been in session for the last three weeks, will be held this afternoon at 3 20 o'clock in the Metropolitan Sunday school room. A cordial invitation is extended to any interested persons who wish to attend.

The programme this afternoon will be a sample of the routine daily programme, with the exception of the physical drill. There will be a display of manual work which should prove interesting. Mrs. M. C. Wilkinson, who has had charge of the junior department work, and Miss Evelyn Jones, who has had the direction of the primary department, will conduct the proceedings this afternoon, when practically all of the sixty-nine pupils who have been attending the school will take part in some way in the programme.

WINNIPEGGER SHOWS CLASS IN REGATTA

Elsworth Bole Sculls Way to Final in Canadian Meet —Will Row Detroiter for Championship

McGILL OARSMEN DEFEAT ARGONAUTS

ST. CATHARINES, Ont., July 25. After coming all the way from Winnipeg, Elsworth Bole, sturdy Western oarsmen, proved his way today into the final for the association singles on the Royal Canadian Henley course. His display was one of the features of the forty-seventh annual regatta of the Canadian Association of Amateur Oarsmen.

Winning by twelve lengths over Maurice Brett, St. Catharines, in the first heat of the single Bole created a fine impression. He is expected to furnish keen competition tomorrow in the final against Wellmeyer, Detroit, who easily defeated Munnelly, Toronto.

Both McGill University and the University of Toronto won their heats in the 150-pound eights. McGill defeated Toronto Argonauts, and the University of Toronto finished three-quarters of a length in front of the Cabbagetown.

In the junior eights, Wrandoites, Michigan, beat Toronto Argos, by one and one-half lengths, while Detroit Rowing Club defeated Lachine, Quebec, to enter the finals tomorrow against Wrandoites and St. Catharines. The latter defeated University of Toronto and McGill University by a length.

University of Toronto retained the intercollegiate eight-oared rowing championship by defeating McGill University, Montreal, by one length and a quarter. The time was 7:13. Intervarsity has won the annual event twice.

CHEMAINUS TO MEET CAPITALS

Important Ball Game Carded Tomorrow — Up-Islanders Have Two Victories Over Locals

CAPS NEED WIN TO RETAIN LEAD

After two victories over the Victoria Capitals in as many battles, Chemainus fast-stepping bellhoners will be here for the third and perhaps last time tomorrow when they oppose the locals at the Royal Athletic Park at 6 o'clock.

"Lefty" McGinnis, star club artist and the young man who is credited with two wins over the heavy-hitting Capitals, will assume the mound duties again tomorrow and has visions of making it three straight.

The task of turning back the visitors will be left to either Norm Forbes or Jimmy Dangerfield. Forbes, it is understood, is out of the city, but may possibly be back in town for the game.

At the present time the Cape are enjoying half a game lead over the visitors and are fighting hard to win their second British Columbia championship. However, before they can even give this matter any serious thought they must upset Chemainus tomorrow.

Helen Campbell Captures Island Net Championship

Local Girl Defeats Clubmate, Joan List, in Straight Sets at Duncan—Jack Brawn Wins Boys' Singles Title—Rain Interferes

(Special to The Colonist)

DUNCAN, July 25.—Rain, which commenced about 4 o'clock and lasted for about an hour and a half, prevented some of the finals in the junior tennis tournament being played here, but finals in seven of the events were run off according to schedule and the five remaining are scheduled to be played off tomorrow morning. The highlight of the best was to be seen in the finals played. Jack Brawn, of Vancouver, again carried off the championship cup for under 18 years when he defeated R. Galloway, of Bacchante in straight sets, 6-1, 6-1. Although the game score in the second set reads as through Brawn had things all his way, Galloway made him work his hardest. Some brilliant rallies were witnessed. Both boys hit clean and hard, covering the court well and scoring time and again on beautiful placements.

In the girls' finals under 18 years, Joan List, of Victoria, winner of the cup, lost to her clubmate and holder of the provincial championship, Helen Campbell, in straight sets, 7-5, 6-3. Here again Brawn's form was shown.

In the boys' doubles under 18 years, Jack Brawn, of Vancouver, and Bruce Prevost, of the host club, defeated E. Lenny, of South Cowichan, and Dave Lundie, Duncan, 6-3, 7-5.

GIRLS' DOUBLES HALTED

The girls' doubles under 18 years was delayed owing to rain. In this the Misses Helen Campbell and Britton will meet Misses Joan List and Oldham. In the mixed doubles under 18 years, R. Galloway and Miss Horne will meet Brawn and Helen Campbell.

In the boys' under 16 years, R. Birch defeated N. McGregor, 6-2, 6-3, and in the girls in this class, Miss Oldham and Miss Horne had to quit owing to rain at set-all.

In the boys' singles under 14 years, D. Bradford, of Victoria, defeated E. Williams, and in the girls' singles under 14 years, Eleanor Young, of Vancouver, scored a victory over Audrey Tremayne, of Victoria, in a hard three-set match Eleanor lost the first set, but took the next two, 7-5, 6-4.

In the boys' doubles under 14 years, Bradford and Mellin defeated D. Crane and Paul Aldersey, 6-1, 6-3.

The girls' doubles, Miss Pam and Pat Thwaites vs. Misses Eleanor Young and Audrey Tremayne, will be played tomorrow, as will the mixed doubles, Eleanor Young and Pat Maingay vs. Audrey Tremayne and Bradford.

Much credit for the success of the tournament is due to the energetic secretary, N. R. Staples. E. C. Young, of Vancouver, secretary of the B.C. Tennis Association, has been on hand and has given valuable assistance throughout the tournament. He paid a fine tribute to the local club when he said he considered it had done more than any other club in the Province to foster junior tennis.

Today's results follow:

Boys' Singles Under 14

Final—D. Bradford beat E. Williams, 7-5, 6-3.

HELEN CAMPBELL

Who yesterday added the Island under 18 championship title to her Ladies' Open Colonsay championship, which she won here last week. Miss Campbell has been displaying great tennis and looks to be a real contender for honours.

Girls' Singles Under 14

Final—Miss Young beat Miss Tremayne, 7-5, 7-6, 6-4.

Girls' Doubles Under 14

Final—Misses Pam and Pat Thwaites vs. Misses Young and Tremayne. Unplayed.

Boys' Doubles Under 14

Final—Bradford and Mellin beat Crane and Aldersey, 6-1, 6-3.

Mixed Doubles Under 14

Semi-finals—Maingay and Miss Young beat Bradford and Miss Kennie, 6-1, 6-0. Bradford and Miss Tremayne beat Roberts and Miss Pam Thwaites, 6-3, 6-2.

Final—Maingay and Miss Young vs. Bradford and Mis Tremayne. Unplayed.

Boys' Singles Under 18

Final—J. Brawn beat R. Galloway, 7-5, 6-1.

Girls' Singles Under 18

Semi-finals—Miss List beat Miss Clark, 6-1, 5-7, 6-3.

Semi-finals—Miss Campbell beat Miss List, 7-5, 6-2.

Boys' Doubles Under 18

Semi-finals—Brawn and Prevost beat Mudge and Harding, 6-2, 6-1. Final—Brawn and Prevost beat Leney and Lundie, 6-3, 7-5.

Girls' Doubles Under 18

Final—Misses Oldham and List vs. Misses Campbell and Britton. Unplayed.

Mixed Doubles Under 18

Semi-final—Galloway and Miss Horne beat Leney and Miss Lake, 6-4, 7-5.

Final—Galloway and Miss Horne vs. Brawn and Miss Campbell. Unplayed.

Boys' Singles Under 16

Semi-final—R. McGregor beat T. Lundie, 6-4, 7-5.

Final—Birch beat McGregor, 6-2, 6-3.

Girls' Singles Under 16

Final—Miss Oldham vs. Miss Horne. Discontinued, with score one set all.

Fewer Men on Farm Produce Greater Wealth

The influences which set in motion a drift of population from the countryside to the cities, the third source of city growth, are of two kinds, fundamental and incidental. The general conditions under which the industry of farming is carried on today have greatly increased the productive power of the farmer. Many farmers in Eastern Canada who cradled grain in their youth lived to see their sons driving a self-delivery reaper with a wheat carrier and stook loader. Because the labor of tilling the soil can be done with less man power than formerly, fewer people are required on the land. The co-laborer of the farmer, the man who made his boots, who in the early days went from house to house and later established a cobbler's shop at the crossroads as well as the local weaver, the wagon maker, the harness maker, the grist miller and pretty much every worker of that type has disappeared. The city factory with modern mass production has supplanted them all. The increase in the productive power of the farmer makes it possible for more people to live in the cities, and the advancement of science, the invention of new machinery, the increasing variety of manufactured goods and the enlarged demands for them, makes it possible for them to find work. No better illustration can be found than that of the automobile industry. In its present form only twenty years old, which is providing a new source of livelihood to a large number of workers, not only in such a city as Oshawa, which doubled its population in twenty years, but in every city and town of the nation. Because it is a constituent part of the industrial organization, and therefore a normal element in an increasingly complex social organism, the drift to the city must continue.

Drastic Treatment Recommended for Old Apple Trees

DURHAM, N.H., July 25.—A stick of dynamite may be the best treatment for old apple trees, says H. G. Woodworth, agricultural economist of the University of New Hampshire experiment station.

Old trees in poor condition, he says, require several years of skilful work to bring into bearing. Even then they are still old, trees will decline in production and be of doubtful commercial value.

He believes it may be better to remove old trees and replace them with new and vigorous growth. In time, he observes, it may be found that old trees will have to be discarded to a greater extent than ever before.

MARIE McNAB PROMINENT IN SEATTLE MEET

Vancouver Girl Uncovers Brilliant Tennis in Figuring in Three Wins—Advances to Semis

CALIFORNIA NET STARS SHOW CLASS

SEATTLE, July 26.—An invading army of net stars from California captured a lion's share of important matches in the Washington State tennis championships today.

Larry Driscoll, San Francisco, defeated Windy Langlie, Seattle, 6-2, 6-2. Ed Levy, San Francisco, defeated Frank Gove, Palo Alto, 6-3, 5-7, 6-2. L. DeTrinnette, Seattle, defeated Harry Pyrmire, Palo Alto, 6-1, 6-4; Jerry Bartosh, Los Angeles, defeated Worth Cowsill, Seattle, 6-3, 6-2; Mel Dranga, Seattle, beat Jack Tuthill, Los Angeles, 6-8, 6-4; 6-4; Billy Newkirk, Seattle, defeated Howard Langie, Seattle, 6-11, 6-2, 8-1; Ray Casey, San Francisco, defeated Lloyd Nordstrom, Seattle, 6-4, 6-3.

Dorothy Weisel, Sacramento; Mrs. G. Myer Gross, San Francisco; Mrs. Jerry Cowell, Los Angeles, and Marie McNab, Vancouver, entered the women's semi-finals. Miss McNab defeated Bernice De Ponte, Seattle, 6-7, 6-0. She meets Miss Weisel tomorrow.

Ellen Backland, Seattle, and Miss McNab defeated Mrs. Cowell and Edith Tough, Oakland, 7-5, 6-7, in the women's doubles. Miss McNab and Don Lewis, Portland, defeated Miss Grant and Russell Bennett, San Francisco, 6-4, 6-0, in the mixed doubles.

RAIN INTERFERES WITH NET PLAY

Only Three Matches Played in Esquimalt Tennis Championship—Today's Draw

Rain interfered with the progress of the Esquimalt tennis championships on the Hillcrest courts last night and only three matches were played. Two of these were in the ladies' doubles and one in the men's doubles. In each case the winners won in straight sets.

Results follow:

LADIES' DOUBLES

Miss Parkinson vs. Mrs. Keatinge—won from Miss Weeks and Miss Coetlofon, 6-1, 6-2.

Miss Stevens and Miss M. Tindall won from Mrs. Ramsay and Miss Pierney, 6-2, 6-3.

MEN'S DOUBLES

Geddes and Commerford won from Gordon and Mr. Tindall, 7-5, 6-1.

TODAY'S DRAW

The draw for today follows:

At 6 00 p.m.—Mackenzie vs. Mulcahy, Miss Perriman and Geddes vs. Mrs. Monckton and Dawe; Mrs. and Mr. Kensington vs. Mrs. Thomas and Pinder.

At 6:30—Temple and Mattson vs. Schroeder and Stewart; Miss Mulcahy and Mulcahy vs. Miss Green and Butler; Kissen and Alexander vs. Warder and Porter.

VESSELS MOVING

To load 800,000 feet of lumber for the Orient, the Blue Funnel liner Protesilaus docked at 7 o'clock last evening from Vancouver. Ss. Portlandoma docked at Ogden Point from Crofton for lumber at midnight.

Ss. Belfast Mariner was due to pass up to Vancouver at 2 o'clock this morning and the German motor ship Los Angeles at 3, and Ss. Paris City at 7 o'clock, according to Pedwell Pilots.

Engineers Can Legally Enter On Agreement

OTTAWA, July 25.—The brotherhoods of locomotive engineers has power to enter into an agreement with the Canadian National Railways regarding rates, rules and working conditions, independent of any other organization of railway labor where joint schedules are in effect says the finding of the board of conciliation, acting between the company and its engineers. The railway had contended that changes proposed by the engineers should not be made because of protests by the Brotherhood of Firemen and Enginemen.

Map Mountains With Camera on Survey Planes

In mapping the Dominion's mountainous districts, the surveyor of today must of necessity be something more than a surveyor only. He must be a mountain climber as well. In the broken areas of Western Canada, where elevations vary from foothills to peaks 11,000 feet or more above sea level, surveys for mapping purposes by the regular methods as used in level or nearly level country are practically impossible except for limited areas and almost prohibitive owing to excessive cost. Some cheaper and more practical method of survey had to be discovered. Thus it was that, as early as 1886, Canada adopted and improved the system of photographic surveying for such regions. In making use of this method it is necessary that all the portions of the areas to be surveyed must be seen from at least two points and photographs taken therefrom to cover the complete circuit of the horizon. In other words every detail must be covered in at least two views. This means that, for mapping a mountainous area, many peaks must be climbed by the surveyor with his transit and camera, and the position and elevation of each established.

While taking the photographs the surveyor also observes certain prominent peaks or points which he considers will afterwards be easily identified in the photographs. At the same time he may ascertain the angle of elevation or depression of these points and carry on triangulation.

One survey party in Jasper National Park in the season just past, climbed twenty-nine peaks in the course of their duties. Of these twelve were over 10,000 feet above sea level, including Nigel Peak, 10,535 feet, Sunwapta Peak, 10,880 feet, and Pobokan Peak, about 10,980 feet, and thirty-six others were over 9,000 feet above sea level.

Cherry Pools to Make Advance It Is Announced

VERNON, July 25.—Advance of $50,000 on unclosed cherry pools will be made by the Associated Growers of British Columbia.

The money will be sent out to the various locals for distribution among the growers who ship through the big co-operative.

This payment is on cherries received by the various pools up to July 20. It will be some days before the locals are able to distribute this money, which should be sufficient to advance to the growers sums equal at least to the picking and hauling costs.

Four Prospectors Thought Drowned Yet Hoped Alive

PRINCE ALBERT, July 25.—Hope that four prospectors reported to have drowned in the Nelson River are safe, was revived today on receipt of a radiogram from Arthur Jann, of Pelican Narrow trader, stating that Tom Harvey, Bert Barker and two others reached the Narrows from Deschambault Lake July 17, and left the same day for Churchill River. They expected to go through to Rottenstone Lake, Sask., and be met there or at Stanley, Sask., or in that area.

ST. ANDREWS WIN INTERCLUB MATCH FROM METROPOLITAN

St. Andrew's Tennis Club won its first tourney of the season when they defeated a squad from the Metropolitan Church last evening on their home courts, seventy-five games to forty-six. Tomorrow afternoon the St. Andrew's Club is staging an American tournament for members only. The scores, with the home players, first mentioned, follow:

Mrs. W. Erickson and C. LePerre won from Miss Harper and C. Walker, 7-4.

W. Erickson and C. Luttrell won from Warburton and Davies, 6-5.

H. Hurn and Ken. Luttrell lost to Bradshaw and Harris, 4-7.

Miss B. Boyce and W. Erickson won from Miss and Mr. Warburton, 7-4.

Mrs. W. Erickson and Alice Dougan won from Miss Boyce and Miss G. Bayer, 6-3.

C. Luttrell and C. LePerre won from Davies and Walker, 7-4.

Miss B. Boyce and C. Luttrell won from Miss Harper and Bradshaw, 7-4.

W. Erickson and H. Hurn won from Harper and Harris, 6-3.

Miss Dougan and C. Luttrell won from Miss Warburton and Davies, 7-4.

Mr. and Mrs. W. Erickson won from Miss Bayer and Walker, 6-3.

Miss B. Boyce and H. Hurn won from Miss Harper and Harris, 6-5.

GOLF AT HONOLULU

HONOLULU, July 26. This year's Hawaiian open golf tournament will be played at the Waialae course in Honolulu, November 15, 16 and 17.

The winner of the open will receive a $4,000 purse.

It is expected that the November golf fest on the Waialae golfing course will attract thousands of fans to the Hawaiian Islands. Several clubs are already planning trips from continental United States to see the open and to play on the dozen courses that are located on the four main islands of the group.

Methfessel has the following to say of golf interest in the islands:

"In Hawaii they are golf-minded—the cams early and stayed late. I have played in tournaments all over the world, but I never before saw a gallery of a thousand did the first tee at 6 30 in the morning on each of the three mornings."

The woman's record for putting the eight-pointed shot is forty-four feet and one-half inches, made by Lillian Copeland at Pasadena, Cal., May 18, 1926.

Excursion to Port Renfrew Wednesday, July 31st. Leave Victoria 8 a.m.

MINISTER TO CONFER WITH DIRECTORATE

Problem of Fair Amalgamation on Lower Mainland to Be Taken Up With R. A. and I. Society

EARLY ACTION IMPERATIVE

Hon. W. Atkinson, Minister of Agriculture, left yesterday afternoon for New Westminster for the purpose of taking up with the directors of the Royal Agricultural and Industrial Society of that city the situation as it presents itself now following the destruction of the fair buildings a little time ago. He will also ascertain what the attitude of the various public bodies of the city is in the matter, so that the Government may be fully advised.

If any action is to be taken in the matter of doing anything for this year, it is felt that it will have to be gone into at once. The Government is anxious to know just what the position of affairs is, and the attitude of the people of New Westminster towards the whole project.

There has been a feeling in some quarters that if any amalgamation of interests so far as the holding of an annual show is concerned between the two cities of New Westminster and Vancouver that the present unexpected burn in evening might make it an opportune time to go into the question.

The Government will await the return of Mr. Atkinson, when it will go into the proposal from the standpoint of what course it should take.

KINSMEN FOUNDER ARRIVING TODAY

Mr. Harold Rogers, of Hamilton, Ont., to Be Entertained at "Benvenuto" at Dinner

Mr. Harold Rogers, of Hamilton, Ontario, founder of the Kinsmen Club movement in Canada, will pay a visit to Victoria today, and will receive a warm greeting from members of the local Kinsmen organisation.

A dinner in honor of Mr. Rogers will be held this evening by the Kinsmen Club at "Benvenuto." Tod Inlet, the residence of Mr. R. P. Butchart, the first honorary member of the Victoria Kinsmen Club, the function commencing at 7 o'clock. All members of the club are expected to attend and welcome Mr. Rogers on his first trip to British Columbia's capital city.

Mr. Rogers founded the Kinsmen Club organization in 1926 in Hamilton, Ontario, and was the first president of that club. Since that time the movement has made rapid growth, and today there are twenty-five Kinsmen Clubs in Canada, they being located at Chilliwack, Duncan, Victoria, Vancouver, and Vernon, B.C.; Lloydminster, Moose Jaw, North Battleford, Saskatoon, Prince Albert and Regina, Sask.; Calgary, Drumheller, Edmonton, High River and Lethbridge, Alberta; Brandon and Winnipeg, Manitoba; Chatham, Hamilton, Kenora, Ottawa, Toronto and Simco, Ontario, and Quebec, P.Q.

VICTORIANS TO ATTEND PARLEY

Messrs. Frank Le Roy and Charles Jasper Will Go to Eagles' Big Convention at Minneapolis

Two Victorians will attend the annual convention of the Grand Aerie of the Fraternal Order of Eagles, which will take place in Minneapolis, Minnesota, from August 5 to August 10.

Past State President Frank Le Roy, of Victoria, who is a member of the special committee for Washington and British Columbia, will leave tomorrow for Minneapolis, to assist with arrangements for the parley. He will be accompanied by Mrs. Le Roy. Following the gathering, they will go to Chicago, and later will visit relatives in Cincinnati, returning here in about a month's time.

Mr. Charles Jasper, delegate of Victoria Aerie No. 12 to the convention, will report for the conclave on August 3. He will pay a visit to New York and other Eastern centres on the trip.

TRAINED HELP IS NEED OF SERVICE

Toronto University Advocates Social Work as Profession, as Demand Is Great

TORONTO, July 26.—Social work as a profession is dealt with in a bulletin issued by the University of Toronto. It has been impossible heretofore to meet the demand; thirty requests were received for trained workers last year and the supply was not adequate. The standard of salaries is fast being raised, as the necessity for such action is being realized by municipal authorities or independent agencies.

The operations of the social worker are often experimental and difficult, but always interesting. The worker of today analyzes conditions, suggests new treatments after diagnosing the cause of failure and difficulty. Thus she needs all the knowledge she can acquire of social action and reaction, fact and causation, tested methods of treatment and organization.

This requires mature minds and well educated men and women. The course now available has been especially adapted to the requirements of graduates. The bulletin goes on to say that "part of the curriculum will consist of basic courses in social philosophy and ethics, social economics, social psychology, and social development and history. Part will be specialized and practical with options in a number of fields, part will be devoted to social research and inquiry into actual conditions. All the work will be under the supervision of the special staff of the department which guides the students individually.

It is further stated that everywhere there is a recognition of the possibility of improving the life of our people and increasing the happiness of them."

ANSWER TO YESTERDAY'S PUZZLE

CHURCHES IN CHICAGO

CHICAGO, Ills., July 26.—Gangster population in the world's third largest city has dwindled somewhat in the last year, what with Philadelphia jails and machine guns, but church membership has spurted upward.

About 60,000 persons were added to membership rolls of Chicago's 12,000 Protestant Churches, Walter S. Merz, secretary of the Church Federation, reports.

Lutherans led all with 14,835. Presbyterians gained 5,481, Episcopalians, 4,609, Baptists, 2,363, and Methodists, 1,220. The smallest gain was made by United Brethren, seven.

ANNOYING

She sat thankfully down in an easy-chair and prepared to enjoy a cup of tea with her best friend.

"At last George has agreed that perhaps it was time he reduced his weight a bit," she began, stirring her tea.

"What in the world made him do that?" asked her hostess, who knew how obstinate a man George was.

"Well, you see," explained the other, "he offered his seat to a young lady in the tube the other night, and to his amazement and chagrin two young women thanked him very politely and both sat down.

Convenient

Half-past twelve—the morning's gone—no time to fuss with lunch . . . But *wait!* Isn't that a can of Heinz *Cooked* Spaghetti on the shelf? Heated through and served in jig time—it's a much *better* hot meal than anything you could patch together with leftovers.

Wholesome . . . delicious! . . . this tender, Heinz-made spaghetti—in a rich, piquant tomato sauce—seasoned with delicately blended spices—enlivened by a skillful touch of special cheese—all after the recipe of a famous Italian chef.

And this *extra* quality is in every Heinz product. You find it in Heinz Tomato Ketchup, Heinz *Oven-Baked* Beans, Heinz Peanut Butter, Heinz Pickles—in any of the Heinz 57 Varieties. And you get this extra quality at prices that are surprisingly low.

Like the snap and vigor of a salt sea breeze is the zest of "Canada Dry"

MORE refreshing, like a brisk breeze off the ocean; more sparkle, like sunlight on blue water . . . keen and invigorating, like a dip in the breakers . . . and yet satisfying, mild, mellow, like basking on the sand after a swim . . . this is the thrill to drinking this finer, purer, better ginger ale.

Jamaica ginger of the highest quality makes "Canada Dry"

a real *ginger* ale. Its sparkle, achieved by a secret process of carbonation, is delicate and uniform. Absolutely pure ingredients make "Canada Dry" basically excellent. Expert blending and balancing of those ingredients produce an attractive flavor — a flavor which countless homes in Dominion know and cherish. Try "Canada Dry" today!

At The Playhouses

PLAYHOUSE Manager Calladine, of the Playhouse Theatre, declares that his current offering, Fox Movietone "Not Quite Decent," featuring June Collyer and Louise Dresser, is proving the most favorably commented upon motion picture that has played his house in months. The screen play, based on Wallace Smith's story, "The Crouch Bag," finds Louise Dresser again the "mother," but an entirely different mother than she was in "Mother Knows Best."

CAPITOL One of the greatest **THEATRE** heroes of all times is portrayed on the screen in "The Divine Lady," the First National picture starring Corinne Griffith, which is now showing at the Capitol Theatre. The hero is Lord Nelson, and he is represented on the screen by Victor Varconi. Two of his greatest battles, the Battle of the Nile and the Battle of Cape Trafalgar, in which he lost his life, are realistically depicted in "The Divine Lady."

DOMINION The shore at Long **THEATRE** Beach, Long Island, a favorite hot weather resort of New York's teeming millions, supplies the setting for one of the numbers of the William Fox Movietone Follies of 1929, a gigantic all-singing, dancing and talking musical revue, now at the Dominion Theatre. Twelve show girls, twelve chorus men, six children and the Fox Movietone chorus also appear in this number. "Hey! You, Baby," was written by Con Conrad, Sidney D. Mitchell and Archie Gottler, who also staged the number in conjunction with Marcel Silver, director of revue.

COLUMBIA "The Coward," now **THEATRE** showing at the Columbia Theatre, is based on a story by Arthur Stringer and adapted for the screen by Edfrid Bingham and Enid Hibbard, deals with the adventures of a young New York society man who goes into the Canadian wilderness to reclaim his honor and his sweetheart, lost through an unfortunate scandal in which he is branded as an outcast from smart society. It was these scenes of the north woods, where most of the thrilling incidents take place, that were filmed in the Bear Valley region, Baxter lake, the part of Clinton Philbrook, the hero.

COLISEUM Esther Ralston ap- **THEATRE** pears as a blonde Venus in sparkles in her new picture, "The Sawdust Paradise," which opened yesterday at the Coliseum Theatre. As a ballyhoo girl for a diving act in a travel carnival, Miss Ralston wears tights similar to those of the several girls with Annette Kellermann diving figures who appear as the other "human seals." In other portions of the picture, Miss Ralston wears more simple and less revealing attire. Robert Bosworth, Reed Howes, Alan Roscoe, Mary Alden and others appear in support of the star in "The Sawdust Paradise."

STAFF OF STORES ENJOYS PICNIC

Employees of Kirkham's and Batchelor's Stores Gathering at Elk Lake

The staffs of Kirkham's and Batchelor's stores held their annual picnic on Wednesday afternoon at the Elk Lake Athletic Ground. Under the direction of Mr A. Johnston, a fine programme of twenty-five events was carried out. The tug-of-war contest was taken care of by Mr. R. Bellamy, and Mr. J. Ward kindly gave the refreshments.

The sports programme follows:

Kiddies race, under 5 years, 25 yards—All received prizes.

Girls, flat race, under 7 years, 40 yards—1, A. White; 2, Vera White.

Boys, flat race, under 7 years, 40 yards—1, A. Somerville; 2, Reginald Sinclair.

Girls, flat race, under 10 years, 50 yards—1, N. Harper; 2, D. Anderson.

Boys, flat race, under 10 years, 50 yards—1, E. Lea; 2, G. Rand.

Girls, over 10 and under 12, 50 yards—1, Milly Harper; 2, E. Findlay.

Boys, over 10 and under 12, 60 yards—1, T. Johnson; 2, V. Lea.

Girls, over 12 and under 16, 75 yards—1, M. Johnson; 2, B. Hoover.

Boys, over 12 and under 16, 75 yards—1, Johnson; 2, B. Johnson.

Ladies, single, over 16 years, 75 yards—1, M. Chambers; 2, A. Hocking.

Gents, single, over 16 years, 100 yards—1, H. Johnson; 2, O. Gibney.

Ladies, married, 50 yards, handicap—1, Mrs. Hammal; 2, Mrs. Main.

Men, married, handicap, 100 yards—1, Harper; 2, M. Main.

Ladies, throwing the football, open—1, Miss Berks; 2, Mrs. Hammal.

Men, obstacle race, 75 yards, open—1, Johnston; 2, McRobbon.

Ladies, obstacle race, 50 yards, open—1, E. Maltbew; 2, O. Hocking.

Men, over 40 years, handicap, 75 yards—1, Mr. Anderson; 2, Mr Cornish.

Men, throwing indoor baseball—1, P. E. Anderson; 2, J. Channon.

Ladies, peanut race—1, M. Cambbey; 2, Miss Batchelor.

Tug o' War, married ladies vs. single ladies—Single ladies won; all received prizes.

Tug o' War, married men vs. single men—Single men won; all received prizes.

In the baseball game Port Street nurses vs. other stores was won by the former by 26 to 5.

GETTING ON

He had retired from an active business life to devote himself to golf. Unfortunately, he had begun too late, and was not much good. But he was game, and one day he observed to his caddie, after having played a very bad round: "I'll move to heaven and earth to play this game properly."

"Aye, well," said the caddie, "ye've progressed a good bit already. Ye've only heaven to tackle now."

TELLS VALUE OF TIMBER INDUSTRY

Chief Forester F. Z. Caverhill Tells Rotary Club Public Opinion Is Cure for Forest Fires

"The timber industry in British Columbia brings $94,000,000 annually into the province, which is distributed in trade channels, supplies, machinery, equipment and some in the end must find its way into your pocket," declared Mr F. Z. Caverhill, chief forester for British Columbia, in addressing the Victoria Rotary Club yesterday in the Empress Hotel ballroom.

"The investment in plants is between $150,000,000 and $200,000,000; 40,000 people are employed in the industry, and wages paid total $30,000,000 annually," Mr. Caverhill said.

Mr. Caverhill observed that after allowance was made for costs of administration, the timber resources paid the people an annual dividend of $3,000,000 towards the reduction of taxation.

The speaker said the timber industry was a great and expanding enterprise, and the timber cut in this province in the last two decades had increased from 650,000,000 feet to 3,200,000,000 feet annually.

"The revenue of the timber industry in 1906 in the province was $500,000, while last year the figure had increased to $2,500,000. Twenty years ago we heard the cry of timber depletion within thirty years. That has not materialized. Any prediction now along the same lines is as erroneous as it was then," he said.

DEPARTMENT'S WORK

Mr. Caverhill spoke of the work of the Forestry Department, setting of its survey facilities, its research work, and its policy on reforestation. He referred to the fire protection organization, and of its efforts to combat fire danger.

"The real cure for forest fires is public opinion, and on that matter much can be done. Teach the public to regard a fire in the bush in the same way they regard a fire in the city, we will be able to sit back and see things moving," he asserted.

Mrs. Styles Behi delighted the clubmen with her rendition of two vocal solos. Mrs Clifford Wart was the accompanist.

Rotarians promised their support to the one-day excursion trip to Port Renfrew which the Chamber of Commerce is conducting next Wednesday, July 31.

Mr. Chester Irving Dowman, local manager of Stewart-Warner Products, Limited, was given a warm greeting on being introduced by Rotarian Percy Watson as a new member of the club.

Mr. Jack Clark, formerly vice-president of the club, and now a member of the Vancouver Rotary Club, was among the guests welcomed.

A feature of our Silver Anniversary is the offering of this fine old whisky at the low price of $3.50 per quart.

PROGRAMME TO BE FULL OF INTEREST

Chamber of Commerce Excursion to Point Renfrew Takes Place on Wednesday, July 31

With the object of adding to the attractions to be provided on the Princess Patricia excursion to Point Renfrew, Wednesday, July 31, the committee of the Chamber of Commerce, in charge of Mr. Claude L. Harrison, which is arranging the excursion programme, held a further meeting yesterday afternoon.

At this meeting Mr. W. E. Calhelb, of Messrs. Calhelb & Borrowman, logging operators, Port Renfrew, was present and very kindly promised to do all he could for the pleasure of the excursionists.

For those who do not wish to remain on the beach during the stay of the vessel, an especially interesting trip has been planned. Mr. Calhelb intends to arrange for a visit to the firm's lower camp, and transit by logging train to the main camp, where logging operations can be witnessed.

The Princess Patricia is to leave the wharf here at 8 a.m. and Port Renfrew at 5 p.m. The trip will provide views of the Pacific Ocean and the West Coast of Vancouver Island.

Health Service of the Canadian Medical Association

LOCKJAW OR TETANUS

The disease tetanus is commonly called lockjaw because, when it occurs, the mouth becomes firmly fixed due to the rigid condition of the muscles of the jaw. The disease is caused by a germ whose entrance to the body is usually gained through a wound which tears the tissues of the body or which puncture them.

The germ of tetanus has certain peculiarities. It grows best where there is no air, and so it thrives at the bottom of a punctured wound or in the depths of a lacerated wound where the air does not penetrate. This germ belongs to the group of germs which are able to form spores. The spore is a resistant state into which the germ goes when conditions for its living are unfavorable, and in this state it is able to be dormant for long periods of time. The spore becomes an active germ again when conditions are favorable for example, when it is introduced into the human body through a wound.

The germ of tetanus lives in the intestines of cows, horses and sheep. Any wound received on the farm, or any wound contaminated by dirt, particularly if the dirt is at all likely to contain manure, such as street dirt, is very likely to contain tetanus germs. Any wound made by a nail or other piercing implement is the type of wound favorable to tetanus. We may say that in any wound where dirt is forced under the skin, there is some danger of tetanus.

Every wound, no matter how slight, should be thoroughly cleansed with soap and water and then covered so as to keep it clean. Every wound where dirt has been driven under the skin should be treated by a doctor.

Tetanus can be prevented. The wound should be properly cared for and, in addition, if tetanus is likely to occur, tetanus antitoxin should be given. During the Great War every man who was wounded received tetanus antitoxin with the result that the disease was practically prevented. Preventive measures should always be taken because if the disease is allowed to develop, the outlook is bad as far as treatment is concerned.

The Sportsman's Paradise—
PROTECT IT AGAINST
FIRE

Green forests ensure an even flow of clear running water; burned timber means muddy torrents in flood time and stagnant pools in dry weather.

The good sportsman, in his own interest, is careful with fire in the woods.

Issued by authority of
Honourable Charles Stewart,
Minister of the Interior.

HELP SAVE YOUR FORESTS

Burgess Bedtime Stories

Peter Gets a Warning

—By THORNTON W. BURGESS—

You'll find it best to never yearn
For that which does not you concern.
—Old Mother Nature.

Peter Rabbit was a little provoked. Peter is just like everybody else—he does get provoked sometimes. He was provoked now because Mrs Bob White wouldn't tell him where her baby Bob Whites had all disappeared to. Peter would not have minded this so much had it not been that he had caught just a glimpse of a number of those babies and then, while his head was turned, they had disappeared. So he knew that they must be right around very near. They hadn't flown away, because they couldn't fly. They were too little to have gone very far.

"Mrs. Bob, you may as well tell me now as by and by where those babies are," said Peter. "You know that I know that they are right around here somewhere."

"Are they?" inquired Mrs. Bob as if she were very much surprised at the information.

"Yes, they are!" snapped Peter.

"If you know so much about it, Peter, why ask me?" continued Mrs. Bob, and began to preen her feathers.

Peter stamped angrily. When Peter stamps, he stamps hard. Mrs. Bob looked up anxiously. "I thought you were a friend of mine," declared Peter.

"I am," replied Mrs Bob. "You know I am, Peter."

"Then why don't you treat me like a friend?" demanded Peter. "I want to see those babies of yours and you know I won't hurt them. Yet, knowing that I want to see them, you hide 'em from me."

"I didn't hide them," replied Mrs. Bob decidedly. "I didn't hide them, Peter. They hid themselves."

"Then you admit they are right around here?" cried Peter triumphantly.

"I haven't said they were not," replied Mrs Bob. "Of course they are right around here. I should think you would see them."

Peter stamped that those baby Bob Whites were squatting close to the ground mentioned. He had seen the babies of Mrs. Grouse do the same thing. Eagerly he looked this way and looked that way and looked the other way. He looked on all sides with the greatest care, but not so much as one little Bob White did he see. He hopped a step forward

"Be careful where you step, Peter," she cried.

Mrs Bob White looked up anxiously. He took another little hop forward. Mrs Bob White crowded in front of him.

"Be careful where you step, Peter!" she cried.

Peter stared at her. "Why should I be careful?" he demanded. "Are you afraid I'll step on you? Why don't you get out of my way?"

But Mrs. Bob White didn't get out of Peter's way. She squatted down just a little way in front of him, just where if he should hop, he would land right on her. Peter turned suddenly and hopped off to one side. As he did so, Mrs Bob White actually flew in his face. "Stop, Peter!" she cried. "Stop right where you are! Don't you dare move!" she cried.

Peter blinked. "Now what is it?" he demanded.

"Look right down at your feet," commanded Mrs Bob.

Peter looked down at his feet. At first he didn't see anything but the earth and the grass, some of the latter green, and down around the roots some of it dead. Just as he opened his mouth to say that he didn't see anything he did see something. Flattened right down to the ground, so near his toes that they almost touched him, sat a funny little bird—a little brown baby. It was one of Bob White's babies. Do you wonder that Mrs Bob was anxious when Peter began to move about?

The next story: "Peter Watches Queer Claws."

Improved Type of Engine Is Perfected by Nanaimo Man After Years of Work

Mr. John Cowie Builds Marine Power Plant Embodying New Principles—Vibration and Friction Reduced to Minimum

After twenty-five years' experience with gasoline motors of all types, Mr. John Cowie, of Nanaimo, has at last realized his dream and built three heavy-duty marine engines embodying several new points of design, including the reduction of vibration and minimization of friction upon all wearing surfaces.

One of Mr. Cowie's engines, which delivers sixteen horsepower at 450 revolutions per minute, has been in use aboard a Nanaimo cruiser for several months, and in spite of constant use under all conditions has required absolutely no attention outside of changing the lubricating oil.

Two eight-horsepower engines, each weighing 1,314 pounds complete with reverse gear, are fitted up in Mr. Cowie's machine shop for testing purposes. A raft was paid to the plant by a Colonist representative yesterday. The only sound of their running is a clicking noise from the valve mechanism, and the muffled thud of the exhaust. So vibrationless are the motors upon their wooden bases that the inventor balances a pencil stub upon the cylinder heads, impossible to do with the average one-cylinder motor. Five men are at present employed in the Cowie shop. Mr. Cowie is working upon a plan for an inexpensive one-cylinder engine for pleasure boats, incorporating all the features of the larger motors, and intends to enlarge his plant before production begins.

Although all bearings and surfaces presented to wear are in excess of actual requirements, there is nothing clumsy about the Cowie engine. Under the flooded pressure lubricating system of all working parts, Mr. Cowie claims the engine is practically frictionless, and that wear is eliminated to an extent hitherto unattainable in a heavy duty engine. Instead of the usual oil can and oil cup filling, which is often liable to be neglected, oil is distributed from the crankcase.

The main crankshaft bearings are readily accessible for inspection and adjustment, without dismantling the engine, as is the usual practice. Bearing take-up is upward and not downward. This, Mr. Cowie explains, keeps the crankshaft always in the original and proper alignment with the reverse gear and engine shaft.

Built on to the engine and enclosed in the same oil-tight housing, the reverse gear is at all times flooded with oil from the main system. The drum clutch surfaces of the gears are reverse to enable them to hold and transmit the load while incorrectly lubricated. There are no dry grinding surfaces coming into contact when engaging the clutch and reverse bands. The go ahead adjustment of the clutch is made through a readily removable hand plate, and the reverse adjustment may be made from the outside press while the engine is running.

The cylinder center-in-line is on the offset principle to do away with side wear on cylinder walls, due to the angularity of the connecting rod on the working stroke. This system also reduces vibration.

Mr. Cowie attributes the marked absence of vibration in his engine to elimination of clumsy reciprocating parts and adoption of the well-known principle of crankshaft counterbalancing. Two twenty-five-pound counterweights are carefully fitted to the crankshaft webs in the same plane of motion as the reciprocating parts.

Both cylinder and cylinder head of Mr. Cowie's engine are overweight to withstand action of the salt water circulated in a constant stream by means of an air-charger pump. A make and break ignition system is used, although provision is made for the more complicated jump spark system.

Irrigation Not To Be Cut Off It Is Decided

VERNON, B.C., July 25.—Vernon irrigation district trustees have definitely decided not to cut off from the irrigation system the lands lying to the west and south of Swan Lake. This is of considerable acreage, devoted mostly to vegetables, and the range opposite Okanagan Lake, which produces the earliest vegetables. The cost at Swan Lake and the repairs which are necessary from time to time led to serious consideration of cutting off this section.

OUTLOOK FOR OUR FORESTS IS REVIEWED

Destruction by Fire and Insect Pests Likely to Be Greatly Reduced, Says Bureau of Statistics

RISING PRICES ARE FORECAST

The latest available estimate places Canada's forest resources at 224,304,000,000 feet of standing timber, which is capable of yielding 426,637,000,000 feet board measure of sawn lumber and 1,121,900,000 cords of pulpwood, ties, poles and other smaller materials. With the population of the Dominion estimated at 8,516,000 in 1927, this represents a per capita supply of 52,934 cubic feet of standing timber to provide an annual per capita consumption for use alone of over 300 cubic feet. A total depletion of 4,100,000,000 cubic feet per annum does not necessarily imply that our total resources of 224,304,000,000 cubic feet are reduced by that amount every year and that the supply will therefore be exhausted in fifty years. Estimating the probable future use of our supply of forest products is not a matter of simple arithmetic. It tends to increase with the discovery of new uses for wood, the increase in our population and the increase in the demand for these products from other countries whose supplies have been reduced to a greater extent than our own. The rate of depletion of our forests and other agencies is also very uncertain but tends to increase with the increase of population and the extension of settlement into new areas are taken to prevent, this tendency.

On the other hand there is a steady increase in volume taking place in all healthy stands of timber due to annual growth. The application of scientific forest management this annual growth can be stimulated and could be made to take place over our entire area of potential forest land. If all the land in Canada which is better suited for the growing of timber than for any other purpose were under intensive forest management on a sustained yield basis it would furnish enough timber and forest products annually in perpetuity to supply the needs of a much larger population than we have at present with a sufficient surplus for profitable exportation.

MAY REDUCE LOSSES

There is reason to believe that in time the loss due to forest fires will be practically eliminated once the general public can be made to realize the necessity of precaution, as 90 per cent of forest fires are due to human carelessness. Scientific methods of controlling insect and fungus damage are being rapidly developed and in time the depletion will consist almost entirely of material cut for use.

The use of substitutes for wood may tend to reduce consumption, but this is usually exaggerated as a factor in forest conservation. The increasing scarcity of wood will result in increasing prices which will tend to limit consumption. It is now a profitable investment to plant trees in Canada under certain conditions and the planting and management of forest lands will become increasingly profitable as supplies decrease and prices advance, but before this planting and management can possibly result in forest crops sufficient for our needs we will pass through a period of lean years whose duration and intensity will depend entirely on how soon and how efficiently apply scientific management to our existing forests.

The final printed report on the lumber industry in Canada for the calendar year 1927 has just been issued by the Forest Products Branch of the Dominion Bureau of Statistics and may be secured on application to Ottawa. The report is not only of interest to the trade but will be found of value to forestry students and those interested in forest conservation. While general information concerning the industry have already been issued in a preliminary form, the details are made available for the first time.

The report shows a decrease of about 2 per cent in the total cut of saw lumber in Canada from 4,600,000 to 1927, with decreases in Ontario, Quebec and New Brunswick and increases in British Columbia and all the other provinces, the greatest increase of lumber decreased and the importation increased during the same period.

Log Export Tax To Come Before Privy Council

VANCOUVER, July 26.—Whether the Province of British Columbia can collect an export tax on logs exported from the province will be decided by the judicial committee of the Privy Council.

On the application of the Attorney-General of British Columbia, the Privy Council has granted leave to appeal direct from a judgment of Chief Justice Morrison, in Supreme Court Times, Vancouver, in the suit of Mr. Donald Murphy Lumber Company, Limited, against the Attorney-General found that the log export tax is ultra vires of the province beyond the power of the province to impose, and that section 14 of the act, 17, in so far as they create a tax, is ultra vires.

HAWAII HAS LAW ON MOONLIGHT MARRIAGE

HONOLULU, T.H., July 26.—"Moonlight marriage" is a romantic marriage" law.

Drafted to tone down the potency of Hawaiian moonlight, the new law requires a lapse of three days after application has been made for a marriage license until the certificate is granted. No longer is it possible for moonstruck lovers to rush into matrimony from publication-stated trysting places. Under the new law they are required to stop, look and listen for three days. If, at the end of that time, they still think it is a good idea, they can hire a Hawaiian orchestra to play the wedding march.

It seems that Cupid has been twisting his shafts in the islands. Licence clerks, justices of the peace and ministers were being aroused at all hours of the night to assist in the Cupid act.

"Something ought to be done about it," declared one of their number.

"There ought to be a law!" said another.

And there was. And in the "moonlight marriage" decree has been in operation since the first of July. It was enacted at the last session of the Territorial Legislature.

HILO, Hawaii Island, July 26.—Here is one little Eskimo girl who never sees a snowball. Her name is Ekkinzi Ik Kibbenlinn, and she lives in the Hawaiian Islands. She was brought here by Rev. and Mrs. H. H. Corey, who adopted her as a baby when they were in Labrador on missionary work. Kibbenlinn is eleven years old. She says she is never quite too warm for her in Hawaii.

INDUSTRIES OF CANADA EXPAND

Great Growth Is Seen in Staple Lines of Activity, With Paper Still Leading

ELECTRIC TRADE INCREASES POSITION

The preliminary report of the Dominion Bureau of Statistics covering the manufacturing industries of Canada in 1927 furnishes some indication of the progress of this activity in the Dominion at the present time, though in that year the new era of industrial activity has which Canada has entered was but opening up. The accomplishments of 1927 give an idea of what may bring to Canadian manufacturing. The number of individual establishments reporting in that year increased by 223, total capital investment by $334,061,988, or 9.94 per cent, salaried employees by 3,866 and wage earners by 33,717 and their salaries and wages by $40,981,286. The gross value of manufactured products by $177,893,193, or 5.47 per cent.

In 1927 there were 22,956 manufacturing establishments in Canada, reporting to the Government, in which there was a capital investment of $4,621,831,558, the average capital per establishment being $201,300. There were 30,483 employees receiving salaries of $42,937,174, an average of $1,408 each, $1,899, and 523,450 receiving $531,... in wages, the average being $897. The cost of materials utilized in the industries was $2,576,604,... and the total value of products, including allowances, $4,454,... value added by manufacture being $1,875,... $1,878,... The Maritime Provinces 4.756 of the gross value. The average value of production per establishment was $194,150.

Increases in manufacturing production were recorded by all the nine provinces. New Brunswick, Nova Scotia, Ontario and British Columbia registering slight declines. Ontario, the leading manufacturing province increased its production value by $48,071,071 to $1,758,004,000. Quebec, which followed, increased its production by $46,252,171 to $890,245,000. British Columbia, ranking third as an industrial province, had a production value of $246,504,764, which was $3,580,010 less than in the previous year. The increasing industrialization of the Prairie Provinces is seen in an increase of $16,026,498 in the value of their manufacturing production, which Manitoba, Saskatchewan and Alberta alike contributed in substantial manner. Due to a substantial increase in the output value of Prince Edward Island the Maritime Provinces showed an increase of $78,420.

PULP AND PAPER LEAD

The very nature of the activity being experienced in Canadian industrial manufacturing is illustrated in the fact that the largest were recorded in the production of every group of industries. The most important was the vegetable products group, which at $719,790,000 showed an increase of $49,379,344, followed by wood and paper products, which has the greatest single production, and with a production value of $259,067,156 added $29,302,580 in the course of the year. Iron and steel products ranked fifth with a production value of $238,921,828, or $20,... 732,990 greater than the year before. Animal products at $407,718,898 increased by $5,881,... textile and textile products at $382,007,457 by $18,672,813; non-ferrous metal products at $200,289,961 by $16,868,259; non-metallic mineral products at $175,746,066 by $7,398,142; preserved electric stations at $134,819,587 by $19,100,621; chemical products at $137,464,872 by $4,895,146; and miscellaneous industries at $79,166,768 by $9,022,174.

The pulp and paper industry in 1927 continued to be the Dominion's leading manufacturing activity with a production value of $319,329,780. Through its capitalization at $279,853,... 558 was exceeded by that of central electric stations at $288,825,... In in former years flour and grist mill products ranked second and slaughtering and meat packing third with production values of $181,741,470 and $167,332,982 respectively. During 1927, however, central electric stations rose to second place, fourth place in production value among the industries with an output worth $134,... $19,542, reclaiming sawmills to fifth place with a value of $133,220,554. Other changes among the leading industries were the rise of electrical apparatus and supplies from fourteenth to ninth place and the drop of cotton yarn and cloth in eleventh from ninth. Completing the ten leading industries were automobiles with a production value of $128,706,216; butter and cheese $122,... 523,882; rubber goods, including footwear, $91,418,799; electrical apparatus and supplies, $78,058,726, and non-ferrous metal smelting $77,... 996,265. Twelve other industries had production values in excess of $50,000,000.

It is all too common to regard Canada as almost purely an agricultural country, whereas manufacturing took for domestic consumption and the export market, has a net production value greater than that of the agricultural industry. Visiting Canada's boundless possibilities at the present time the decade previous to the making of the above survey, including the depressing post-war years, seemed to Canada, even as one of normal growth, yet in that period the capital investment in manufacturing industries increased by $1,184,518,... and the value of production by $232,239,...

Listless, Tired Women Quickly Restored

Headaches and Depression Pass Away When System Is Regulated

No other remedy acts as quickly on tired women as Dr. Hamilton's Pills. They cleanse, regulate and tone the system, appetite sharpens up, headaches disappear, strength and buoyant spirits return. To feel good to be your own self again, use Dr. Hamilton's Pills frequently. 25c. at all dealers. (Adv.)

THE PLAY

North leads initially the King of Clubs, which Dummy wins with the Ace in Dummy and stops to consider his next play in view of the possibility that the adverse Spades may be split 4-1.

One of the advantages of four-card suit bids, where partner also bids four card suit of the trump suit, is that such hands are flexible, enabling the Declarer to ruff in either hand while keeping the trump situation unknown to the other. West, in this deal, proceeds to capitalize this advantage. He leads the 5 of Clubs from Dummy, trumping with his Ace so as to avoid any possibility of giving a trump entry into Dummy's hand. He next leads the 3 of Spades from his own hand, winning with the Ace.

West now leads Dummy's remaining Club, trumping in own hand with the Queen. He now leads the Jack of Spades but before allocating a trump promotion against a Club force, should the Dummy Spades be most lead another round of Diamonds realizing that unless the Diamonds break there is no chance for making his contract.

The outstanding adverse Diamonds being equally divided Declarer leads the King of Spades and follows with the 8 and 5. Disregarding on the last two Spades the blocking 10 and 8 of Diamonds. In this way 6 odd can be made.

Copyright, 1929, by the Bell Syndicate, Inc.

three Diamond take-out may or may not be a denial of Spades. It is unfortunately, however, a demand for additional information from West about his holding.

South passing West bids five Diamonds showing clearly by such jump assist that he holds, in addition to his original Spade bid, strong support for Diamonds including at least four cards of suit.

East, assured that the Diamond suit is practically solid (at least nine card between the two hands headed by the Ace King) bids for the Small Slam at partner's original declaration, Spades, although having the option of making the same bid at Diamonds.

It will be noted that had East bid either four Spades or five on the first round of bidding a Slam contract would have been missed as West would claim the hand taking any Ace but the Spade.

THE PLAY

North leads initially the King of Clubs, which Dummy wins with the Ace in Dummy and stops to consider his next play in view of the possibility that the adverse Spades may be split 4-1.

One of the advantages of four-card suit bids, where partner also bids four card suit of the trump suit, is that such hands are flexible, enabling the Declarer to ruff in either hand while keeping the trump situation unknown to the other. Cities of Canada Grow Faster Than Farm Population

(Social Service Council of Canada)

For the past quarter of a century Canadian rural life has been clearly undergoing changes which are the cause of anxiety to all interested in the welfare of our Canadian countryside.

The drift from the open country runs in three main channels, one to the cheaper land of the north and west, one to the cities of the United States—a sad loss this, as few ever return—the third to the cities of Canada. The proportion of urban to rural dwellers in all the older parts of Anglo-Saxon Canada is growing larger decade by decade. In the Province of Ontario, for instance, the proportion of urban to rural dwellers was 42.88 to 57.12 in 1901, 52.56 to 47.44 in 1911 and 58.19 to 41.81 in 1921. In the Maritime Provinces, during those years the urban population rose from 37 per cent to 40 per cent, in Manitoba from 28 per cent to 48 per cent and in the Dominion as a whole from 37.80 per cent to 42.29 per cent. Throughout Canada the urban population increased by 1,364,645 in the first decade and by 1,076,139 in the second while the rural increased by 878 and 560,666 in the rural areas, and this in a country with a vast domain of fertile and unused land, during a period when there was a widespread demand for settlers willing to go on the land and large sums of money expended in search for them. Notwithstanding the efforts to secure land people, Canadian city population throughout the past quarter of a century has increased more than twice as rapidly as that of the country.

Every indication points to the continued growth of Canadian cities. Natural increase and immigration add to this. Prof. J. M. Gillette in a discussion of the preponderance of urban over the countryside has said: "Immigration as a source of urban population deserves more attention than it has received. It accounts for 68 in the cent of city increase. The immigrants are settling in industrial regions."

FREE ADVICE

Jackson is always seeking gratuitous advice. Not long ago he met a doctor at a dance. "Doctor," he said, "do you know he said, as soon as there was a chance, "I know a man who suffers so desperately from toothache that at times he can do nothing but howl with pain? What would you do in that case?"

"Well, I suppose," deliberated the medical man, "I should howl with pain."

FINANCE - COMMERCE - MARKETS

N.Y. MARKET IS RESTLESS

SPECULATION AND CREDIT SITUATION CAUSE OF MUCH UNEASINESS

Trading in the Main is Restricted in a Mere Handful of Counterlines

NEW YORK, July 26—The stock market floundered about without direction today, as speculative sentiment was torn between further excellent earnings statements and a troublesome credit situation.

Call money mounted to 10 per cent after renewing at 5 and, after the close of the market, the weekly Federal Reserve brokerage loan statement showed an increase of $95,000,000, carrying the total to a new high record at $7,908,000,000, a surprisingly large upturn.

The Bank of England made no change in its discount rate, removing for the present apprehension over withdrawal of British funds from New York, but bankers saw little prospect of better credit conditions unless the Federal Reserve resumes open market purchases of acceptances and Government securities. The reserve statements, however, showed no definite move thus far in that direction.

The outstanding development in the day's business news did not appear until after the close of the market, when Bethlehem Steel placed its stock on a $6 annual dividend basis, against $4 previously, and announced record peacetime earnings for the second quarter equal to $5.33 per share, as compared to $1.37 on a lesser number of shares in the same quarter last year.

American Telephone advanced 10 points to a new peak at 207. Allis Chalmers mounted more than 6 points to a new top at 95 1-2, a few of the utilities resumed their advance, North American climbing about 4 points to a record price.

A few specialties reached new high ground, notably Hershey Chocolate, Remington Rand and Chicago Pneumatic Tool. Shorts in Radio were again put to flight, as the stock was sent up more than 6 points above 90. Motor shares advanced moderately, and oils turned firm. Bethlehem Steel sold up nearly 3 points, close to its high, but lost most of its gain in profit-taking.

Heavy realizing came into the rails.

Chemicals were under pressure for a time, but regained much of their losses in a late rally. Commercial Solvents, however, closed 6 points off.

Foreign exchanges eased somewhat, with sterling cables sagging 1-8 of a cent to $4.85 3-16 in response to the Bank of England's weekly statement, showing huge gold losses.

Commodities were generally strong.

The main trend in the listed bond market today was downward. Although sales totaled $15,811,000, the second largest daily turnover this month, trading was restricted chiefly to a handful of convertibles.

AMULET'S RISE IS A FEATURE

KOOTENAY FLORENCES RECORD SALES TURNOVER ALSO REMARKABLE

Other Mining Stocks Dull at Tremble in Face of Lethargic Money Rates

(Staats, Porlong & Co.)

TORONTO, July 26—The upward swing in Amulet and strengthening of Kootenay Florence in a recent record sales promotion comes as a diamond drilling at the mine is proved to be a gigantic ore deposit, according to advices received today to show that the recently cut copper ore body has substantial dimensions.

Kootenay Florence advanced 2 to 17 cents before closing at 16 cents under the biggest exchange of stock in recent months, while in quarter quarters it was thought buying came from insiders, the source is in some that the movement is popularly supported. The street is advised that a company official is in the East and Toronto. Kootenay Florence. Kootenay Florence is said to be linked in consolidation plans, the Amulet factor is in the exploration work adjacent to the Sudbury southern section which has uncovered good showings of copper.

Sherritt-Gordon dropped 15 to $7.60. Hollinger Beats $ 5.50 Yesterday 15 to $8.10. Noranda was firm and International Nickel made 6 to 64½. Big Missouri was active, closing unchanged at $1.45; Hollinger Consol. and Aldershot were a shade better but comparatively inactive. Lake Shore gained 25 to $25.25 in light trading, and did not reflect the indication that the company is preparing to find ore at greater depth by the installation of equipment suitable to depth development.

Stocks Down to Date, Aiax, which traded 8 to $2.25. Associated dropped 10 to $1.30 in dull trade. Kerr-Addison strength. A.P.C. gained 10 to $4.10; Bidgie 3 to $2.15; Dalhousie 10 to 84. Home Oil dropped 15 to $2.25.

PRICES AT START GENERALLY LOWER

Prospects of Increase in Brokers' Loans and Bank Rate Cause Some Selling

(Brenson, Brown & Co. Ltd.)

NEW YORK, July 26—Prices were lower forced to withstand further selling, and early prices were generally lower. Speculation shows an increase in the brokers loans statement to be released after the close today, together with the possibility of an increase in the Federal bank rate in the near future, were the factors influencing the trading. A large portion of the selling Amerinrtop Telephone & Telegraph continued to trend in opposite direction to the general market and adjusted into new high ground. Radio was another early feature, the stock gaining 2 to 3 points in a high price for the present movement. U.S. Steel, after exhibiting a fairly strong tone, reacted moderately from the general industrial section was somewhat irregular.

Early after the initial hour, hardening tendencies developed in the money market, which caused increased uneasiness in local circles. American Can and a number of other former market leaders were extremely heavy and reacted to new lows. Copper shares were disappointing throughout the day, although losses in this group were of a fractional nature.

Automotive issues, after an early setback, recovered their losses in fractional cases, principally particularly active and showed a gain of nearly 2 points at the end of the day. Action of oil shares today was the same in a long series, bearish weakness. Bearish tendencies in this group Shortly after the midday hour the general list declined, the stock in the day's news outside of the money situation to trend the action of the market one way or another. Call money reviewed at 8 per cent and later 10 per cent, however, the increased rate served to attract a good supply of funds, and it is thought that at that level throughout the balance of the session. Further in the call money rate will probably be without change, at least for the present, which will likely result in an irregular trend. It is the opinion in view that caution should be exercised in the market for buying side on the stock market.

Wall Street Journal

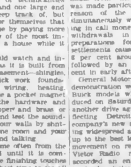
(Brenson, Brown & Co. Ltd.)

Some developments strong railway tendencies in today's late trading after absorbing heavy selling during the early hours. A vigorous recovery in the principal trading issues from the earlier heaviness was made particularly impressive by reason of the fact that it was continuous, with further stiffening in call money conditions. Large withdrawals in connection with the September 15 quarterly interest settlements caused money to go to 8 per cent early in the day and followed by an increase to 10 per cent in the afternoon.

General Motors staged a vigorous rally from its recent lows on the Stock models which will be introduced on Monday. Rumors of further gains in the offing against the shortage of Sterling Detroit advices that Lo-Price motor models were receiving widespread approval. Radio ran up to the best levels of the current movement on reports that the new Victor Radio models were being accorded an enthusiastic reception in trade circles. North American also surpassed its previous peak regardless of the bearishness of the newly formed Shenandoah Corporation, to which North American interests are playing an important role.

Money at Work

Earning—Saving—Investing



Inspect your house before it is finished.

The best time to determine the value of a house you are building, is just before the Builder finishes.

Building is full of technicalities with a thousand and one large and little details to keep track of. Persons can see for themselves that they get good value by paying more attention to a few of the most important details in a house while it is being built.

The owner should watch and inspect everything as it is built from the foundation to completion, including frames, joists, brick work foundation, plumbing, wiring, heating, tankless, etc. The best time to determine if the hardware and plumbing are copper and brass or just plated iron and test the soundproof quality of your walls by sounding yourself in one room and your wife in another and talking.

Inspect your home often from the time it is started until it is completed. Before the finishing touches are put on is the best time to see all the details of construction which will be covered up later. That is the best time to determine whether or not an honest job of building has been done.

Copy's, 1929, Associated Editors, Inc.

WHEAT HAS NO DECIDED TREND

BULL MARKET ULTIMATELY GETS UNDER WAY AT CHICAGO

Commission Houses Delinged With Bullish Crop Reports—Wheat Pool Stronger Than Due

(B.C. Bond Corporation, Ltd.)

CHICAGO, July 26.—There was not much of any decided trend in wheat at the start, but with Winnipeg leading, closely followed by other northwestern markets, a bull market got under way and advanced steadily to within a fraction of a cent of the daily offers before any selling of consequence made its appearance. Local commission houses continued to be virtually delinged with bullish crop reports from the Canadian provinces, and with the map showing clear and warm an excellent background was formed for the better than four-cent upturn which materialized. Further deterioration claimed with premature ripening as well as comment on the possibility of rust developing. Liverpool was stronger than due and closed 1-8 lower to ½ up, while Buenos Aires opened ½ lower, the latter being unchanged at second call.

Deliveries on July contracts totaled 118,000 bushels. Overnight rains in Iowa and Illinois dampened the refreshing influence of the start, but strength in wheat more than offset this as a factor and prices advanced steadily going into the afternoon session of trade.

The weekly weather report for Canada said the crop there was making favorably progress but that injury to crops in some districts which rail will be needed during the next few days. Hot weather firing spoils of Oklahoma.

Northwest Pool Stronger. Cash wheat is extra moderate, as were the shipping sales. Deliveries on July contracts totaled 22

CALMONT OIL FEATURE OF DULL MARKET

Mines Were Fairly Firm but General Trend of Oils Was Downward—Some Stocks Stronger

HEAVY TRADE IN KOOTENAY FLO.

VANCOUVER, July 25.—Calmont Oil was the feature of an otherwise dull market in the stock exchange today, this issue being the leader in point of activity and price improvement. The general trend in oil was downward, while the mines were fairly firm. Calmont, on a good demand, worked up to a new high of $4.83, closing 31 cents stronger at $4.73. Dallas Oil was also strong, finishing 2 cents up, $2.70. Associated Oil gained 20 cents to $4.25. Home Oil was off 35 cents at $23.05 and A.P. Con 6 cents lower at $3.96. The balance of the oil list ranged from steady to 25 cents easier. In the mines, Kootenay Flo. was a heavy trader up to 18 cents, closing with a net gain of 2 cents at 15 1-2.

Snowflake, during a late buying rally, moved up 5 1-2 cents to close at 43 1-2. George Copper was 10 cents firmer at $9.35, and Premier and Reeves were 2 points stronger. Pend Oreille lost 5 cents to $5.60.

(R. E. Bennings & Co., Ltd.)

Lake Shore—An interesting and rather amusing condition exists here. A mine without any rock, so to speak. It is customary with the Lake Shore to haul hundreds of tons of rock per month from one of the less fortunate neighbor's dumps to use in their filling for building and road-making purposes.

Abana—H. E. Clement, Abana's new manager, told the directors Tuesday, ore developed, or practically so, totaled 155,000 tons, indicated ore 223,000 tons, or 378,000 tons, of which 208,000 tons are west and 170,000 tons east of the dyke. He expressed the opinion that there was sufficient evidence to warrant statement that large possibilities of mine lie below the 300-foot level. He purposes to sink the shaft deeper and open a new level at 550 feet.

Newbec—The situation at Newbec may change at any time, says our Rouyn field man. He says considerably more diabase is being encountered at the 250-foot level.

Kirkland Lake Gold—Immediate plans are being made to continue the winze to 4,000 feet. We understand the 3,600-foot level looks the best as far as structure and ore finding possibilities go. Officials are hopeful of getting Teck's rich ore at greater depths.

Cambro—Bidgood has undertaken diamond drilling on Cambro property from 800-foot horizon. Holes are being driven south to pick up westerly extension of Bidgood vein.

Dispatches from the mine superintendent at Kootenay Florence state that the 938 drift west is in 107 feet from the 903 crosscut and is following a fault fissure vein, with a showing of four inches of galena. Consulting Engineer B. W. W. McDougall is of the opinion that this may be one of the three fissure veins which are known to be on the Lake Shore property to the south. Development at the Florence is now confined exclusively to exploration on the Lake Shore ground. Indications are that this fault fissure may widen out into another good vein similar to the main fissure vein which was struck by the 905 crosscut on No. 9 level. The 938 drift is being pushed ahead through soft, limy thin-bedded schist and important developments are expected shortly.

R. B. Rogers, general manager of Northwest Magnesite, is en route to Europe to arrange export of the Chewelah product and the possible use in Europe of fabrikoid now manufactured under German patents. Representatives have indicated that other Stevens County properties may be taken over, possibly including the Daisy Mine, now idle, and the Old Dominion, operated by leasers.

Silver Chief Mining Company, organized by Palmquist and now operating the Big Chief Group, is arranging to add the Uncle Sam and Neglected to his holdings.

OILS

Foothills—No. 2 is making a new hole in the lime at 4,602 feet, about 245 feet in the lime. Small increases in gas flow noted from time to time. This well is near Okalta No. 1, a 400-barrel producer.

Home—Plans for spudding in Home No. 5 reported near completion.

Royalite—No. 16, east of Okalta No. 1, now 140 feet in the lime at 4,602 feet.

Baltac—Baltac is reported at 1,795 feet.

Richfield—Richfield, in Waite Valley, now down nearly 1,200 feet, and drilling in lower bentons. Hoping to reach Dakotas any time.

Calmont—Calmont wells are speeding along splendidly, with No. 8 making 210 feet in an eight-hour shift. Depths: No. 2, 2,775 feet; No. 4, 2,000 feet; No. 8, 1,350 feet; No. 5, 175 feet; No. 1, reaming at 5,414 feet.

Associated—No change is reported in the situation at Northwest Associated where the bit has been stuck at 222 feet in the lime for the past six days. A shipment of acid is reported to have arrived yesterday and it is expected efforts will be made today to loosen the tools with chemicals.

Southwest Pete—Drilling suspended while drill rods are being run and new footage was made Tuesday. Will resume drilling shortly.

Okalta No. 4—Starts drilling No. 5 soon. Progress is reported from the Okalta wells in Central Turner Valley. Okalta No. 4 was spudded in on Monday afternoon, and No. 5 on Monday afternoon and No. 6 rigging up and should be ready to spud in by August 1. No. 2 is reported to be underreaming at 5,400 feet. No. 3 was reported down 2,250 feet last night. No. 1 is producing about 400 barrels a day.

Few Companies Added To Incorporation List

New Contracting Registration Is Announced in List of Incorporations During Week — Two Companies to Have Offices in Vancouver

There have been comparatively few companies incorporated in the Province of British Columbia during the past week. They were as follows:

Victoria Contracting Company, of Victoria, $10,000; Energy Incorporated, of Nelson, $20,000; Geary Agencies, of Vancouver, $10,000; Lang Investments, of Vancouver, $125,000, for the purpose of operating in oils; Northwest Sheet Metal, of Vancouver, $410,000; Shell Oil Company of British Columbia, of Vancouver, $500,000; Spendrite Mining & Development Company, of Vancouver, $50,000; T. W. Bridges & Company, of Vancouver, $10,000; Vancouver Publishing Company, of Vancouver, $25,000; Yale Investments, of Yale, $80,000.

There were two companies each of them with headquarters in Montreal, which have been granted registration as extra-provincial companies with the provincial headquarters in Vancouver. These were the Canadian Waterworks & Electric Company, and the Sinclair Refining Company of Canada.

Ticker Forecast

(B.C. BOND CORPORATION, LTD.)

NEW YORK, July 25.—Niagara Hudson Power—The record of this issue since it was offered has been remarkable. It never sold below 22, although it was known that the original intention was to issue the stock on a basis of $15 per share. In the last few days the stock advanced to above 30 on a tremendous turnover. This company is one of the newer super power organizations and represents a consolidation of Mohawk Hudson Power, Niagara Power, and Northeastern Power Companies. Stockholders of the above-mentioned have accepted the exchange basis and the merger was recently declared as operative. The same group which organized the United Corporation is behind "N.H.P.," and it is believed that the stock will shortly be listed on the big board. Three merged companies represent an important unit in the New York State super power system, and are operating in thickly settled territories where the demand for power and light for industrial, commercial and domestic purposes is growing rapidly. Of course the current market price has discounted prospects considerably in advance, but public enthusiasm will undoubtedly carry the stock higher. Those interested in trading in this issue will do well on the long side. Even if a setback should be recorded later on, the future prospects of this company are decidedly satisfactory, and no matter what price one will pay for it now, he will have a substantial profit if he holds on to his commitments. We recommend a trading position in "N.H.P."

American International—after a comparatively small reaction early this week, American International again resumed its advance, and buying could be traced to several of the big houses which usually buy stocks for long term holdings. The position of American International has been discussed by us on several occasions recently, and we once more wish to point out that "A.L." is primarily and almost exclusively an investment stock. The company does not publish a detailed list of its holdings, but it is known that "A.L." is interested in nearly every important enterprise in the country. A superficial glance over the movements of the stocks of the biggest companies which it holds shows that these were leaders in the recent market. General Electric, Westinghouse, U. S. Steel, Union Pacific, etc., have all recorded remarkable gains in the recent months. While we do not say that this company is definitely a holder of these stocks, we have reason to believe that the management of the International did not overlook the opportunities in these issues. Assuming even that American International was only moderately interested in these issues, its profits undoubtedly were large enough to justify more than the recent gains made by the company's stock. The stock is still attractively priced and purchases should bring profits.

The rising call rates invited considerable selling throughout the day, and the market, being rather sensitive to such developments, showed little resistance at the close. Today a new statement of brokers' loans is due and though so far the market paid no attention to the steady rise of loans to brokers, the advance in stocks has been of considerable dimension and the technical position of a good many is not as satisfactory as it has been. Under such circumstances any excuse, whether justified or not, can bring heavy liquidation and the trader should be aware that such developments may take place on short notice. General conditions are satisfactory and therefore there is no reason for turning bearish.

American Locomotive did not move in any particular direction recently, but is holding all the gains it made during the wave of two weeks ago. At the current levels the stock yields about six per cent, which is considerably better than that on the majority of issues. Considering the fact that Locomotive is now in a period of improving earnings, the stock is decidedly attractive.

Pacific Gas & Electric reached its highest levels again yesterday. The revival of the reports that a merger of the utilities on the Pacific Coast is imminent. The merger may be denied more than once, but ultimately it will take place.

WASTE OF MONEY

VANCOUVER, July 25.—"There is a tremendous waste of money in these international conventions," declared R. George McCuish, president of Vancouver Kiwanis Club, when he submitted his report of the recent Kiwanis international convention at Milwaukee to the Vancouver club at a luncheon today.

In France a woman threw all of her husband's clothes out of an upper window.

Then she tried to make him follow suit.

Whitney Letter

(Branson, Brown & Co., Ltd.)

NEW YORK, July 25.—Whitney, of the Wall Street Financial Bureau, says today: No change in the Bank of England rate, of course no change in the rediscount heres here, and in addition an irregular but decidedly satisfactory market despite the 10 per cent rate for money and the usual Thursday selling in anticipation of the brokers' loans statement.

In the event that brokers' loans show an increase substantially larger than expected, an hour or so more of irregularity may be experienced, while, if the opposite is the case, there is the possibility that the market will break out of the narrow range within which it has been confined for more than two weeks and inaugurate an entirely new phase of advance.

Little concern is evidenced in banking quarters as the result of the prevailing rates for time and call money, since it is fully appreciated that, despite a lack of publicity, it is Federal Reserve policy more than anything else which is keeping the market in check through its control of the money market. Fundamentally, the situation is sound, since Federal Reserve authorities are in position to release as much as six billion dollars of additional credit without making a single move which could be criticized as unsound. In other words, tightness in money is the effect of a policy rather than the result of a condition. On any further irregularity tomorrow stocks are a purchase.

Bangor and Aroostook has again established a new top. There will be no stock dividends, none were ever expected. There will be an increase in the cash dividend and earnings for the year will come close to $10 a share; in fact, the June earnings statement, which will appear shortly, is expected to disclose net for the common stock in excess of $1 per share per month. The stock is cheap in the 80's. Due to professional bearishness on motor issues, a large short interest has accumulated in Murray Corporation. The stock has been recommended for purchase here and is recommended again now. Earnings for the year will come up to the prediction of between $14 and $15 a share. Business, instead of falling off, is coming in at a rate which is forcing the company to add to its plant facilities in order to keep pace with the current demand. In the steel group, Bethlehem Steel and U.S. Steel are still a purchase; in the utilities, American & Foreign Power, Electric P. & L. and National Power & Light. Remington Rand is already at a new top for the year and the stock should be bought before it crosses 50 and held for a price objective of between 70 and 75.

Curb Securities—Eisler Electric semi-annual report shows net available for the stock of $600,221.04 or better than $3 a share. The second half will be larger and the stock is again recommended for purchase for a new advance. U.S. Finishing should be held for the announcement of dividend policy which will come as a very agreeable surprise.

WHEAT MARKET VERY BULLISH

TRADE MOSTLY LOCAL—SELLING CHIEFLY FOR PROFIT-TAKING

Crop Still Being Severely Punished—Black Rust Reported in Dakotas

(Branson, Brown & Co., Ltd.)

WINNIPEG, July 25.—Wheat: While the wheat trade was not large, the market was decidedly bullish with prices scoring gains of 7 1-4 to 5 1-4 cents on the extreme bulges. The trade was mostly local with sellers of the past few days reinstating this long lines with commission houses and the country all buying wheat. The selling was all by way of profit taking and was fair at times, but the offerings were well absorbed and the market held strong throughout, only slight reactions being recorded.

There was a little selling of our October against purchases of Chicago September, but Winnipeg October held its premium of over 21 cents. The report coming in from all provinces was more unfavorable than ever, no moisture and extremely high temperatures. The crop, what is left, is being severely punished and undoubtedly week-end reports will show another sharp decline in condition has taken place. Temperatures in Southern Alberta and Southern Saskatchewan were reported at 102 to 103 at a dozen points, while 98 was common.

The forecast promised continued warm weather with the possibility of a few thunderstorms only. The local cash market was slow. Canadian mills were taking the odd cars of Nos. 2 and 3 Northern and No. 4 wheat; there was a small export business in No. 5 overnight.

There was no interest in other grades, and, while offerings were light, spreads were easier. There was too much strength in futures to interest anyone in a large way in cash wheat.

Black rust is reported as present in the two Dakotas and it is also quite prevalent in Manitoba and rains now would probably help it to spread. Liverpool was steady, firmer than due, closing 1-4 lower to 1-4 higher.

The heavy hedging pressure from the movement of wheat in the Winter wheat belt is holding Chicago back, but this will be largely over in another two weeks.

Believe wheat can be bought on all recessions. July showed the most strength in wheat and crop conditions. Offerings were light, but consumptive demand continues slow and no export business could be confirmed. Oats closed 1 1-4 to 1 3-8 higher, barley 2 1-8 to 2 5-8 up, rye 3 3-4 to 4 1-4 higher.

Apricot Prices Softer; Buying Easy on Markets

Peak of Movement Coming in Late Districts—Hot Weather Does Damage to California Crops, Especially Watermelons

Apricot prices on the local produce markets yesterday were soft, buying easier and with the season now in full bloom the supply was comparatively lighter than twelve months ago. The peak movement of apricots is now coming from late districts, and the jobbers and retailers are urging that their supplies be brought up for home consumption and canning. Quotations, however, are practically the same as last year.

The fact that the majority of the citizens are on their vacations or at their Summer homes and that the housewives are not particularly anxious to put away their supply of bottled goods at this time is probably one solution to the slow movement of certain berries and fruits on the markets. However, when the camps are broken up and the children once again wending their way to the schoolhouses, mothers will commence stocking their larders.

Cantaloupes are continuing strong and no changes are expected until the arrival of the Turlock shipments. As initial offerings of Turlock are on other Pacific Northwest markets they are expected on the local mart within the next week. Express shipments of Eastern Washington cantaloupes may arrive sometime next week, operators asserted, and they, in all probability, will be followed by some from the Wapato district.

Hot weather in California districts has done considerable damage to the crops, especially the watermelons. Prices are firm at shipping points on this commodity, and it is believed that offerings will not be burdensome.

When the California fruitgrowers are cleaned out of watermelons, local dealers will turn toward Washington shippers for their stocks. Washington melons will be ripe and on the market about the second week in August.

EGGS AND BUTTER

Egg prices, which advanced earlier in the week, continued on the same selling basis, while butter practically remained stationary, with no advance in sight. Demand for eggs is brisk owing to the light hot weather production and continued bidding from Eastern henneries. These conditions make the undertone slightly stronger than a week ago.

As the weeks pass along more fresh grown vegetables are making their appearance on the market. Broad and string beans are the latest arrivals, while other commodities are expected early next week.

Ryan & Wilson Fruit Company reports that the outside shipping business is the best that the firm has witnessed for many a day. Although the Prairie trading has dropped slightly the West Coast ports as far north as Port Alice are daily sending in orders for fruits, vegetables and other lines.

Double Service in Want Ads

You can telephone your answers as well as your classified advertisements to The Colonist. Readers are often interested in Want Advertisements that do not carry the names or addresses of advertisers, but a Colonist box number. For the accommodation of those readers who find it inconvenient to write an answer, and to serve the advertiser better, we will take replies to Box Numbers over the telephone.

The Colonist Service is available from 8 a.m. to 10 p.m., excepting Sundays. Phone 11.

FOR SALE—VERY PROSPEROUS FARM of 1½ acres, highest state of cultivation; fruit crop valued at several hundred dollars, waiting to be harvested. Good seven-roomed house, furnished, all conveniences, electric light, garage; accommodation for 300 chickens; motor camp and four furnished cabins, first-class tearoom; all stucco-built; fruit and candy counters. Sole reason for selling, too much for one woman. This proposition brings in an income of over $1,800 per year. For particulars phone Mrs. Little, Colquitz 21Y, or write P.O. Box 801, Victoria. Owner will be pleased to bring anyone to see property.

GET INTO BUSINESS FOR YOURSELF. Big profits. Vancouver Island available as exclusive territory. Do you want to own a monopoly business that will net you from three to fifteen thousand dollars per year, according to territory? Millions are wasted in burnt-out electric lamps. Large industries pay thousands of dollars for replacements. Visualize the profit in a well-established process whereby you can repair your lamps, guarantee them, save the user 50 per cent and make a profit for yourself of from 1,000 per cent up. Process simple, easily learned. Electrical experience unnecessary. Complete equipment and instruction furnished. We can show you a genuine, clean-cut business that will astound you, whereby you can own your business and be part of a national organization backed by national advertising. Cash required about $4,000. Write at once. Electric Lamp Reclamation Service, 4b Williams Bldg., Vancouver, B.C.

Smaller forms are being developed for airplanes and can also be adapted to show the contour of the sea bed and detect sunken ship

MIGRATION IS IMPROVING

Peace River Is Regarded as Most Encouraging From Colonization Viewpoint

FRENCH-CANADIANS RETURN TO CANADA

Immigration to Canada for the fiscal year ended March 31, 1929, totaled 167,732 as compared with 151,987 in the previous corresponding year, an increase of 15,175, or 10.6 per cent. New arrivals from Great Britain accounted for 58,860 as compared with 50,273, an increase of 8,058 or 16.7 per cent. An aggregate of 38,240 settlers came from the United States as compared with 35,967 the year before, an increase of 2,583, or 22.2 per cent. All other countries contributed 70,232, as against 65,748, an increase of 2,464, or 3.4 per cent. Important countries contributing to the last total were: Germany, 12,860; Finland, 3,851; Denmark, 3,331; Sweden, 2,297; Norway, 2,624; Holland, 1,589; Belgium, 1,222; France, 745; Switzerland, 490; Iceland, 24. In additions 33,799 Canadians who had gone to the United States to live and taken up permanent domicile, remaining there for longer than six months, returned to Canada to establish homes, as against 29,887, as returning in the previous fiscal year.

The Summer season of Canadian Pacific Railway immigration activities opened up auspiciously with the arrival during the last week-end in April of three vessels of the Canadian Pacific Steamships fleet at Quebec, discharging more than 3,500 new citizens to be shepherded into Canada's population, for the main part through the agricultural industry. The greater number were British and the first quota of the season's arrivals afforded a fairly complete and comprehensive picture of the transatlantic immigration movement at the present time as proposed by the Canadian Pacific Railway department of colonization and development through its own activities and those of the various organizations with which it co-operates. New population today, particularly from Great Britain, flows through many carefully constructed and supervised channels, and the manner in which these are functioning at the opening of the season would augur a Summer of considerable activity.

Judging by the movement on to the land in the first quarter of 1929, not usually a season of active colonization, the present year is going to see a very large volume of actual farm settlement accomplished, with every indication of the very satisfactory record of 1928 being surpassed by a wide margin. The actual occupation of farm lands which has been taking place in Western Canada lately has received insufficient notice. In 1928 homestead filings alone accounted for settlement upon nearly 3,000,000 acres. Sales of Canadian Pacific Railway lands added another 600,464 acres, and the efforts of the Canada Colonization Association resulted in new farmers taking placed on 130,562 acres.

It is reasonably certain that this acreage will be substantially exceeded this year. Canadian Pacific Railway farm land sales in the first three months have been maintained at an exceedingly gratifying level. In the same quarter the Canada Colonization Association accounted for the placement of 400 families on 20,921 acres of land worth $584,850. An outstanding achievement of the association was the placement during the month of March of seventy-nine families, averaging five members each, on approximately 13,000 acres, in the Province of Alberta. Alberta seems likely to experience the full force of the incoming tide.

FRENCH-CANADIAN RETURN

Homestead entries for the first three months of 1929 totaled 2,407 as compared with 1,849 for the same period of 1928, which was a season of more active filing than for some years back. Filings in Alberta totaled 1,217 as compared with 982 for 1928; Saskatchewan 976, as against 655; Manitoba 130, compared with 107, and British Columbia, 90 against 72. The area which is clearly attracting most new land seekers is the Peace River country of Alberta, where during the fiscal year ending March 31, 1928, there were 3,024 homestead filings against 902 for the previous year. In the first three months of the present year it is estimated that about 1,000 new settlers with a total capital of $1,500,000 went into the Peace River country.

The Peace River country is declined to prove an increasingly potent attraction to the land-hungry and for colonization schemes there is at the present time more than one scheme for British colonization on a large scale in tentative form which looks to securing reserves in the area for the purpose. That the Government authorities anticipate a big movement into the area is indicated in the fact that a million acres previously set aside for examination in potential forest reserves, but not now to be used for that purpose, are being, or will be, opened for homesteading. Two hundred thousand acres are now available under the usual homesteading conditions, but the other 800,000 acres will not be released until surveyed, part of which work will be done this season.

An outstanding event of the month of April so marking the commencement of what is expected to develop into a movement of considerable proportions of people of French-Canadian origin from the New England states was the entry of 147 new settlers into a number of districts of the Peace River country. Settlement was principally in the vicinity of Kathleen, south-east of McLennan, where a new parish is being established. Included in the party were a large number of young married men well equipped with capital, who will return for their wives and families after they have established themselves on farms selected in Northern Alberta.

Probably the greatest exodus in the history of New England, principally into Quebec, will take place this Summer, it is stated, hoping to be followed in the number of French-Canadian families who have already returned to the Dominion or have the initial steps towards their return. A Excursion to Port Renfrew, Wednesday, July 31st. Leave Victoria 8 a.m.

Two Chic Hats and a Longer Skirted Frock

A CHIC red and white model for sports wear, No. 1, the brim of red felt and crown of white grosgrain ribbon, from the house of Blanche. No. 2—A longer tendency in skirts is shown in this smart new model of black satin crepe for afternoon wear, distinguished by an unusual collar of white. Note the princess lines, showing the figure. It is from Reece.—Photographs are by Harri Manuel, of Paris.

James Milton, who is the official starter at all of Maryland's pole race tracks, has never wagered a single penny on a horse since he became associated with the sport of kings.

Maple Tree Sap Yields Income Of $6,118,656

The value of the maple sugar and syrup production in Canada in 1929 is estimated by the Dominion Bureau of Statistics at $6,118,656, as compared with $5,584,588 in 1928 and $4,824,811 in 1927.

Quebec is the leading province in this field, production being valued at $4,767,277. The value of maple products in Ontario fell off from $1,688,622 in 1928 to $1,257,334 in 1929.

The estimated production of maple sugar in 1929 was 11,698,825 pounds, of the value of $2,162,819, as compared with 13,788,199 pounds valued at $2,289,898 in 1928 and 8,231,687 pounds valued at $1,306,045 in 1927. The average price per pound was 18 cents in 1929, 16 cents in 1928 and 14 cents in 1927.

Maple syrup production amounted in 1929 to 2,174,084 gallons of the value of $2,956,837 as compared with 1,686,583 gallons valued at $2,314,902 in 1928 and 3,164,788 gallons valued at $3,469,766 in 1927.

Camps Inspected by Health Authorities

AUGUSTA, Me., July 28.—The annual inspection under the direction of the State's Department of Health of about 200 boys' and girls' Summer recreation camps and something like 3,000 overnight camps, holding place, roadside luncheons and booths in this state is now underway.

Camp inspection in Maine was begun in 1921 and the camp license law has been in effect since 1927. With the exception of Minnesota, Maine is believed to be the pioneer in this form of sanitary regulation.

LIKE CUSTOMERS

"I won't disguise the fact that this job is a tough proposition. The men who get it will have some ugly customers to deal with.

"Then it will soil the ground. I've had lots of experience with ugly customers."

"Why, pray?"

"In a beauty shop."

MORE ENJOYABLE

He was a particularly boring pianist, and after playing a few more formal numbers turned towards the little daughter of the house.

"Well, my dear," he remarked, "what played for your daddy and mummy, now I must do something for you. What would you like?"

Little Doris thought for a moment, then decided "A big piece of toffee please."

V.I. Coach Lines Saved The Day

HERE IT IS!

Undoubted proof, how one home at least benefitted by the inaugural, pleasant and economical transportation offered by the V.I. Coach Lines, Ltd.

Now you can dry your handkerchief and read.

ENLIGHTENMENT

Wolfie ran to his mother, cried, "Momma, take me for a ride, I'm just sick of this big city. Take me some place where it's quiet."

Said Mr. as tears began to ooze, "Well, your father's on the boom, Leaping up the precious jack. Stead of buying us a 'back' In the kitchen we must stay, While your father's making hay."

Said Wolfie, with a scornful leer, "Dadar absent, that egg sized tear. Ain't you seen those coaches brown, And orange, sliding round the town?"

Mother kissed this most astounding Son of hers, wondered where he learned

Over mountains and crevasses, Passing rivers, lakes, in masses, Marvling at the grace and ease V.I. Coaches dodge the trees.

"Dear, they make the hills look silly!"

Said observant little Willie, "Don't you think it bright of me Organizing such a spree?

Let us travel every route Now we've started on this 'root', Ramble round 'till next October, Father dear, may then be sober!"

SCIENCE AIDS UTILIZATION OF OUR TIMBER

Research Laboratory at Ottawa Discovers New Uses for Wood and Tests Values of Lumber

JACK PINE MADE SOURCE OF WEALTH

The close affinity of the expansion of Canadian trade and industrial research is not generally apparent at first glance, but a review of the results of a few of the many investigations carried out by the Forest Products Laboratories of the Forest Service, Department of the Interior, will make this clear. For example, for years it has been regarded as absolutely necessary that the top pins of telephone pole crossarms should be made of imported wood, because it was supposed that no Canadian wood could be found to answer the purpose. The Forest Products Laboratories, however, by exhaustive experiments proved that Canadian birch, beech and maple when treated with creosote or other preservative, were equal, if not superior to the imported woods. Consequently these Canadian woods are now replacing the foreign woods for the manufacture of top pins and with Eastern Canada's extensive resources in these hardwoods, the development of an export trade is possible.

In one of the earliest investigations the Laboratories demonstrated that Douglas fir was particularly suited for structural work, and additional tests will be completed shortly which will indicate the effect of commercial creosoting on this timber. In their tests for the Air Force of Canada, of which they conduct some 600 yearly, the Laboratories demonstrated that certain Canadian woods are ideal for aeroplanes. The possibility of using Canadian woods in place of walnut for gunstocks has also been investigated and the results have been forwarded by special request to Europe, while at the same time information on the suitability of Canadian woods for pick and shovel handles has been sent to the Canadian Trade Commissioner in England.

The number of investigations under way is very large. In one instance alone, that of Timber Mechanics, about 16,000 individual tests were made during last year. These tests related to treated and untreated woods for railway ties, creosotes for the shipment of merchandise, reinforced and unreinforced butter and cheese boxes, telegraph, telephone and electric light poles, cross-arms and top pins; wood for insulating purposes in refrigerator cars; relative strength of different Canadian glues and glued joints; the nail-holding capacities of different woods; and many other features affecting the wood manufacturing and structural trades of Canada.

One very interesting test which will probably result in the further economic use of Canadian trees as telephone poles is under way. Poles of untreated red pine, cedar, and the once despised jack pine, together with creosoted red pine and jack pine poles, have been collected and are now being conditioned on the premises. This conditioning is necessary in order to bring the poles before strength tests are made, to the same moisture content as service; that is, with butts in the green condition and the major portion of the pole, which stands above the ground, air-seasoned. This was accomplished by standing the poles in an open air pit, six feet deep, filled with water. The result of three strength tests, under conditions approximating actual use, will be to show as indicated by the data already secured, that some of the woods hitherto considered unsuitable for the purpose are fitted to take the place of the more expensive woods or to be largely used in conjunction with them.

Thus it will be seen that research work in regard to the properties of our native woods is, in addition to finding uses for timbers formerly regarded as of little or no value, demonstrating the superiority of many of our native woods as compared with those imported, and is thus increasing the domestic and export trade in Canadian forest products.

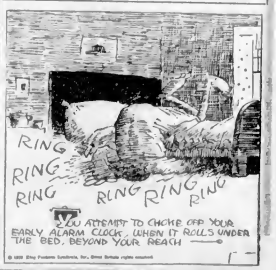
EMBARRASSING MOMENTS



A new device whereby ships are helped to overcome fog difficulties has been tried successfully during the last few weeks by the Great Western Railway steamer St. Julien plying from Weymouth to the Channel Islands. As the radio transformers electrical vibrations which are otherwise inaudible into audible sounds so this device shows on a visible screen. These sounds which are too faint for the ear to detect. Moreover, it also indicates the nature of the sound, whether caused by a foghorn whistle or otherwise, as well as its direction and distance. Smaller forms are being developed for airplanes and can also be adapted to show the contour of the sea bed and detect sunken ship.

SALVAGE KING ON WAY NORTH

Leaves for Dutch Harbor to Aid Stricken Freighter, Golden Forest, Off Aleutians

CUTTER HAIDA IS CONVOYING VESSEL

To assist the freighter Golden Forest, the Pacific Salvage Company's Salvage King left Victoria for Dutch Harbor in command of Capt. J. M. Hewison at 2 o'clock yesterday afternoon. She is expected to arrive there in about seven days' time.

SEATTLE, July 25.—The 10,000-ton freighter Golden Forest was proceeding slowly under her own power for Dutch Harbor, Alaska, today, after being stranded yesterday on Avatanek Island in the Western Aleutian Archipelago, radio advices received here said. The United States coastguard cutter Haida was convoying the ship, which was refloated last night just before a heavy storm approached.

The big freighter has twelve feet of water in No. 1 hold and ten feet of water in No. 2 hold.

Radio messages from the Haida yesterday said "A blow was coming up" and the Golden Forest probably would be a total loss if it were not refloated on the next high tide, which came at 7 o'clock last night. Another dispatch this morning told of successful salvage operations in the face of the storm.

The Golden Forest ran on the rocks when she was proceeding to the Haida to obtain medical aid for its second officer, who is ill with blood poisoning. She is bound from San Francisco to Yokohama and Kobe.

TIDES AT VICTORIA

JULY

Date	Time H M	Ht Ft	Time H M	Ht Ft	Time H M	Ht Ft	Time H M	Ht Ft
25	3 30	7 6	11 10	0 0	18 51	7 7	...

27	1 10	6 2	4 30	6 5	12 18	3 6	20 10	7 7
28	0 14	8 4	6 30	8 5	13 34	4 4	20 17	8 1
29	0 10	4 6	6 10	6 6	16 00	6 6	20 27	8 8
30	4 15	6 6	......		......		20 44	8 8
31	6 12	6 4	......		......		21 16	8 8

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot, measured from the average level of low water.

To find the depth of water on the sill of the Esquimalt drydock at any tide, add 18.9 feet to the height of high water as given above.

To find the depth of water on the sill of the Songhees drydock add 30 feet to the height of high water as above given.

SEEK REMOVAL OF GAMBLING VESSEL

SAN FRANCISCO, July 25.—Marine abatement proceedings are under way against the former lumber schooner Johanna Smith, anchored five miles off-shore, near Ventura.

The Johanna Smith, after serving a long and fairly uneventful career as a coastwise lumber carrier, was finally sold to a syndicate which made a gambling ship out of her and anchored her within easy reach of San Pedro. Federal agents eventually seized her and found several gambling games on board, but there is no record of anybody being convicted.

From then on her career has been something of a mystery. She is moored to latitude 34 north, longitude 119 03 west, which position is not only directly in the path of coastwise fast passenger vessels, but the centre of the nastiest piece of fog bank at certain times of the year at a point where navigators would be losing the Dume whistle and picking the Hueneme horn for direction.

TRANSFERRED TO VANCOUVER CLUB

Mr. A. H. Wilson to Become Instructor of Flying on Mainland

Mr. A. H. Wilson, former instructor at the Victoria Aero Club, has been appointed by the Civil Aviation Branch of the R.C.A.F. as instructor of the Vancouver Flying Club to replace Mr. Percy Hainstock, who was killed in the crash of the club's plane on Monday.

Coming to Victoria in the employ of the B.C. Airways, Mr. Wilson had over two years' flying experience, having been with the Royal Air Force during the Great War. Just before joining the B.C. Airways here he took a special course at the Camp Borden flying school, and last year, through the offices of the company, took instruction in seaplane operation at the Jericho Beach station in Vancouver.

Mr Wilson is known as a thoroughly competent and careful pilot. With the late Mr. Herold Walker, he was co-pilot of the B.C. Airways, Limited, trimotored plane last year

ORIENT VISIT TO BEAR FRUIT

MR. C. E. MARSHALL-MARTIN TALKS OF BOARDS OF TRADE TOUR

Improved Relationship Between Canada and Japan to Be Result

The proposed visit to Japan of the Canadian Associated Boards of Trade next year, coupled with the significant appointment of Hon. Herbert Marler as Canada's first minister to Tokio, will establish a new and valuable link between the Dominion and the Orient, in the opinion of Mr C. E. Marshall-Martin, C.B.E., town planning expert of Yokohama and renowned student of Far Eastern affairs.

Mr. Marshall-Martin sailed for Japan aboard R.M.S. Empress of Russia from here at 6 30 o'clock last evening.

"It will be the first Canadian party of such dimensions and scope to actually visit Japan and learn conditions as they really exist," he said referring to the intended Board of Trade tour, "and there can be but one result—improved relationship between the two countries which already have much in common from a trade standpoint. The decision of the associated boards to undertake this trip after failing four times in final plans for previous tours, will be applauded here and in Japan."

Speaking of Yokohama, where he is engaged as a town planning expert, Mr Marshall-Martin stated that a new, modern city to house 500,000 people was being built in six years. The constructive genius of Mayor Ariyoshi Chiuichi, combined with the efforts of a landowners' committee, of which Mr. Marshall-Martin is honorary head, is helping to make Yokohama one of the finest cities and seaports in the world. The new city, he said, is being raised from waste land where but twenty-five houses escaped destruction in the great earthquake and fire.

Another passenger aboard the Empress of Russia was Mr. Frederick Palmer, D.S.M., returned to scenes of his early activities as war correspondent during the Boxer rising and the Russo-Japanese War.

Mr. Palmer began his career as a war correspondent with the Greco-Turkish War in 1897. From there he went to the Philippines in 1898-99. The march to Peking to the relief of the legations after the Boxer rebellion was his next campaign. The following year he made an extended trip through China and Siberia. The Russo-Japanese War in 1904-05 he covered, and the various Balkan wars subsequently. He was the only United States correspondent with British forces from 1914 to 1916.

Effective July 1, "SOO-PACIFIC EXPRESS," 8 00 p.m. daily, standard equipment.

Summer excursion fares in effect May 22 to September 30, final return limit, October 31, 1929.

PORTCURNO IN ON WORLD TRIP

BRITISH FREIGHTER TO LOAD LUMBER HERE FOR RETURN TO ENGLAND

Left London for India and Crossed Pacific in Ballast to Get Cargo

Encircling the globe, the British freighter Portcurno, in command of Capt. E. J. Niblett, is due at Ogden Point docks to commence loading a cargo of 550,000 feet of lumber for the United Kingdom at 8 o'clock this morning, according to King Brothers, shipping agents.

The Portcurno originally left London with a cargo of cotton for India, bunkered at Algiers and discharged at Karachi. From there she went to China and Japan with more cotton.

Instead of turning back from the Orient, the freighter crossed the Pacific in ballast. From here she will proceed to Grangemouth via the Panama Canal and will pass the estuary of the Thames, almost in sight of the port from whence she commenced her long voyage.

BALLOON CONTEST SET FOR OCTOBER

Gas Bags to Race From St. Louis—James Gordon Bennett Cup to Prize

ST. LOUIS, Mo., July 25.—Every South American country visited by President Hoover on his Latin-America good will tour has been extended a special invitation to challenge the balloon supremacy of the United States in the James Gordon Bennett race to start this year from St. Louis.

Two other international balloon races have started in St. Louis. This year's event is scheduled for October 1.

The St. Louis Air Board already has sent twenty invitations, many to countries that have not before been represented in the aeronautical classic.

The board's technical committee, headed by Major Albert Bond Lambert and Captain H. E. Honeywell, veteran balloonist, has arranged to handle twenty bags. A supply of 3,000,000 cubic feet of gas is to be made available within eight hours.

The race, in returning to St. Louis, comes back to the city where the first of these races in the United States was held. That was in 1907, and a German, Oskar Erbsloeh, who flew to Asbury Park, N.J., won.

At a race held here in 1910, A. R. Hawley, representing the United States, won. He landed in Canada, and with his aide, was lost in a forest seven days. When found they were nearly exhausted. Hawley set a record of 1,172 miles.

Four national elimination contests have been held here.

The third Bennett trophy will be put into competition this year. The two previous cups went to the United States, each having been won three consecutive times.

UNITED STATES AIR MAIL SCHEDULE

Table Showing Transit Time From Victoria

Eastbound daily, including Sunday. Air mail closing tonight at 11 o'clock.

Boise, Idaho: Arrives day after tomorrow, 8 30 a.m.

Atlanta, Ga.: Arrives on the fourth day, 8 17 a.m.

*For delivery on day of arrival a special delivery stamp will be necessary on letters addressed to these points.

Said a lady to a clergyman: "Why do the clergy always address a congregation as brethren, when usually the majority present could better be described as sisters?" "Oh," said the clergyman, "the one embraces the other." To which the lady replied, "Yes, but not in church, surely?"

GULF ISLANDS SERVICE

Effective June 17, 1929, the steamer Island Princess will leave Victoria at 7.15 a.m. Mondays and 8 00 a.m. Thursdays for Sidney via the Gulf Islands.

The steamer Island Princess will leave Sidney at 8 15 a.m. Tuesdays and Fridays for Victoria via the Gulf Islands.

The steamer Island Princess will leave Victoria at 8 00 a.m. Wednesdays and Saturdays for the Gulf Islands, returning to Victoria the same day.

A steamer will leave Victoria at 11.00 a.m. Tuesdays for Vancouver via the Gulf Islands.

WEST COAST SERVICE

Now Effective—The steamer leaves for Port Alice and way ports on the 1st, 11th and 21st of each month.

Fisheries Official Will Enter McGill

PRINCE RUPERT, July 25.—Mr. H. N. Brocklesby, assistant director of the Prince Rupert fisheries experimental station, will be leaving Prince Rupert about the end of August for Montreal, where he will spend a year completing his degree as doctor of science at McGill University.

YOKOHAMA MARU

Inbound from Yokohama, the Nippon Yusen Kaisha liner Yokohama Maru is expected at Race Rocks at 8 o'clock this morning, and should reach Rithet piers about 9 30, according to A. H. Hebb, agent.

FISHING SHIPS TO RACE AGAIN

GLOUCESTER SCHOONERS TO GO THROUGH PACES STARTING AUGUST 31

Nothing Definite Planned on Resumption of Races With Canada

GLOUCESTER, Mass., July 25.—Despite a jinx that has sent six racing fishermen to the bottom of the Atlantic, Gloucester's hardy fishermen are planning to race again. A trio of schooners already are entered for the first ocean competition since Ben Pine's Columbia defeated Clayton Morrissey's Henry Ford three years ago.

The races are to be held August 31 and September 2 and Sir Thomas Lipton has been invited to attend them. The American race committee has been reorganized and has $2,000 in its treasury.

Ben Pine's Mary, Thomas J. Gorton's Carrol and Frank C. Pearce's Elsie are the boats entered to date. Any American fishing schooner that has been in commission for at least a year is eligible to enter.

Resumption of the international races has been talked of here but indications are that nothing is likely to develop to that end this year. The last race was in 1923 when Captain Angus Walters took his Lunenburg Bluenose home after Pine's Columbia had won the second race off Halifax on a foul.

Among the former vessels to go to the bottom before the so-called jinx was the Columbia, which sunk off Sable Island in the 1927 August hurricane. The Ford met disaster on Whale Back Ledge off Newfoundland, a year ago last month.

FISH CATCH IS SATISFACTORY

Government Figures Show $9,364,822 as Value of Operations to the End of June

SALMON LANDINGS 5,040,000 POUNDS

OTTAWA, July 25.—Canadian sea fish catch in the first half of the year had a value of $9,364,822, an increase of half a million dollars over last year, despite reduction of nine million pounds in the weight of the catch.

The total catch on the Atlantic Coast in June was 80,593,000 pounds, an increase of 7,822,700 pounds over the same month last year.

In British Columbia salmon landings totaled 5,040,000 pounds compared with 4,549,000 pounds in June last year. The value was $494,047 against $387,033. Halibut catch was 3,751,000 pounds valued at $413,406, against 3,904,200 pounds valued at $317,549. Pilchard fishing was unsatisfactory.

COAST CHARTERS

Rio Blanco, British steamer, wheat from Portland or Puget Sound to United Kingdom for L. Dreyfus & Company, September loading.

Bradfyne, British steamer, wheat from Portland to United Kingdom for Strauss & Company at 28s 3d, August or September loading.

SHRINE BAND TO ENTERTAIN FANS

Clowns Played by Sunset Trio—Aunty Babs Will Relate Children's Stories Over CFCT

CFCT's first broadcast today will take place at 8 o'clock this morning, when the morning market quotations will be presented. And then at 2 o'clock this afternoon an interesting broadcast will take place from the Department of Education's Summer School for Teachers.

At 8 30 this evening a great many boys and girls will be listening to CFCT, for this is the time when Auntie Babs, known far and wide for her stories for children, will entertain the young men and women of tomorrow. This weekly period for the boys and girls will occupy half an hour and will be followed at 6 o'clock by the closing market quotations. At 6 15 the Sunset Trio will be featured over Victoria's radio station, when a delightful hour of instrumental music will be presented for the approval of discriminating radio listeners. A selection of gems from Victor Herbert's comic opera, "Orange Blossoms," will open the nightly hour with the Sunset Broadcasters, and then three pretty songs will be rendered. They are Jules Massenet's "Elegie," "Dost Who Has Yearned Alone," by Peter Tschaikowski, and Edward Grieg's "I Love Thee." "L'Affiche," a concert waltz by Roberts, will follow, and will give way to a violin solo from the pen of Arthur Seybold, entitled "The Third Polonaise." Tonight's Sunset hour will also include Herman Finck's "Moonlight" intermezzo and "Three Songs From Elland," by von Fellitz, and will draw to a tuneful conclusion with a selection of popular airs from Jerome Kern's musical comedy, "The Showboat."

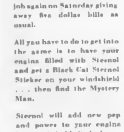
Immediately following the nightly announcement period and the time signals, the Department of Education's programme will be presented from the studio of CFCT. The speaker this evening will be Mr. H. B. MacLean, of the Vancouver Normal School, who will address radio enthusiasts on "Good Handwriting."

It is also announced by the Victoria Broadcasting Association, owners of CFCT, that the remainder of the Friday evening programmes in the auditorium of the High School will not be broadcast over the local station. Tonight at 8 o'clock an incidental programme will lead up to a band concert by the Gizeh Temple Shrine Band, under the baton of J. M. Miller, and will prove entertaining to radio devotees.

The last broadcast by Victoria's radio station this evening will commence at 11 o'clock, when modern syncopation will be started. The Crystal Garden Orchestra will be heard from the south ballroom in an hour of the latest dance music. At midnight silence will reign on the wavelength of CFCT.

WOMEN MINISTERS

PLYMOUTH, Eng., July 25 (Canadian Press Cable)—The Wesleyan conference meeting here while admitting the principle that woman should be admitted to the ministry on the same terms as men, has again postponed definite action on the question. If admitted the conference agreed women should remain on marriage in the same manner as a man resigned from the ministry on entrance into the business world.



He'll Be Out Again On Saturday!

The Sternol Mystery Man has been having a holiday, but he will be back on the job again on Saturday giving away five dollar bills as usual.

All you have to do to get into the game is to have your engine filled with Sternol and get a Black Cat Sternol Sticker on your windshield . . . then find the Mystery Man.

Sternol will add new pep and power to your engine because it holds its body . . . gives you better compression . . . even after you have run several hundred miles. The quality of Sternol is outstanding that your car actually feel the difference. Try it this week.

Starting W B 11, Mad and Max, Program Regular CBC Network. Friday Sponsored by local agent and Company.

The girl friend says the film she simply hates the worst, is the one on her teeth.

Loses Control Of Motorcycle: Girl Is Killed

EDMONTON, July 25.—Leona Holschuk, nineteen, was killed when a motorcycle upon which she was riding smashed into a truck on Wednesday afternoon. Stanley Medinkaroff, who was riding the motorcycle, suffered a broken right thigh and lacerations about the face. He will probably recover. The motorcycle was travelling allegedly at a speed of about fifty miles an hour, when the driver lost control and crashed into a truck.
